CHAPTER THREE RULES OF ORIGIN AND ORIGIN PROCEDURES

Section A: Rules of Origin

Article 3.1: Definitions

For purposes of this Chapter:

- (a) **chapters, headings, and subheadings** mean the chapters (two-digit codes), the headings (four-digit codes), and the subheadings (six-digit codes) used in the nomenclature which make up the Harmonized System (HS);
- (b) **classified** refers to the classification of a product or material under a particular chapter, heading, and subheading;
- (c) **consignment** means products which are either sent simultaneously from one exporter to one consignee or covered by a single transport document covering their shipment from the exporter to the consignee or, in the absence of such a document, by a single invoice;
- (d) **customs value** means the value as determined in accordance with the Customs Valuation Agreement;
- (e) **ex-works price** means the price paid or payable for the product ex-works to the manufacturer in a Party in whose undertaking the last working or processing is carried out, provided the price includes the value of all the materials used, minus any internal taxes which are, or should be, repaid when the product obtained is exported;
- (f) **fungible materials** means materials which are interchangeable for commercial purposes, whose properties are essentially identical, and between which it is impractical to differentiate by a mere visual examination;
- (g) **goods** means materials, products, or articles;
- (i) **manufacture** means any kind of working or processing including growing, fishing, raising, hunting, assembly, or specific operations;
- (j) **material** means any ingredient, raw material, component, or part, etc., used in the manufacture of a product;
- (k) **product** means the product being manufactured, even if it is intended for later use as a material in another manufacturing operation;

- (l) **value of the non-originating materials** means the customs value at the time of importation of the non-originating materials used, or, if this is not known and cannot be ascertained, the first ascertainable price paid for the materials in the exporting Party;
- (m) **value of originating materials** means the value of such materials as defined in subparagraph (l) applied *mutatis mutandis*; and
- (n) **territory** includes territorial waters.

Article 3.2: Originating products

For purposes of a preferential tariff treatment, the following products shall be considered as originating in a Party:

- (a) products wholly obtained in a Party within the meaning of Article 3.4;
- (b) products obtained in a Party incorporating materials which have not been wholly obtained there, provided that such materials have undergone sufficient working or processing in the Party concerned within the meaning of Article 3.5; or
- (c) products obtained in a Party exclusively from materials that qualify as originating pursuant to this Chapter.

Article 3.3: Cumulation of Origin

Notwithstanding Article 3.2, products shall be considered as originating in a Party if such products are obtained there, incorporating materials originating in the other Party, provided that the working or processing carried out goes beyond the operations referred to in Article 3.6. It shall not be necessary that such materials have undergone sufficient working or processing.

Article 3.4: Wholly Obtained Products

1. For purposes of Article 3.2(a), the following shall be considered as wholly obtained in a Party:

- (a) mineral products extracted from the soil or from the seabed in the territory of a Party;
- (b) plants, including aquatic plants, plant products grown and harvested there;
- (c) live animals born and raised there;

- (d) products from live animals born and raised there;
- (e)
 - (i) products obtained by hunting, trapping within the land territory, or fishing conducted within the land waters or within the territorial sea of a Party;
 - (ii) products of aquaculture, where the fish, crustaceans, molluscs, and other aquatic invertebrates are raised there from eggs, larvae, fry, or fingerlings;
- (f) products of sea fishing and other products taken from the sea outside the territorial sea of a Party by its vessels;
- (g) products made aboard its factory ships exclusively from products referred to in subparagraph (f);
- (h) products extracted from marine soil or subsoil outside the territorial sea of a Party, provided that a Party has rights to exploit that soil or subsoil;
- (i) used articles collected there fit only for the recovery of raw materials or for use as waste;
- (j) waste and scrap derived from manufacturing or processing operations conducted there; or
- (k) products manufactured in a Party exclusively from the products referred to in this paragraph.

2. The terms 'its vessels' and 'its factory ships' in paragraph 1(f) and (g) shall apply only to vessels and factory ships:

- (a) which are registered in either Party;
- (b) which sail under the flag of either Party; and
- (c) which meet one of the following conditions:
 - (i) they are at least 50 percent owned by nationals of either Party;
or
 - (ii) they are owned by companies:
 - (A) which have their head office and their main place of business in either Party; and
 - (B) which are at least 50 percent owned by either Party, public entities of either Party, or nationals of either Party.

Article 3.5: Sufficiently Worked or Processed Products

1. For purposes of Article 3.2(b), products which are not wholly obtained are considered to be sufficiently worked or processed when the conditions set out in the list in Annex 3-A are fulfilled. Those conditions indicate, for all products covered by this Agreement, the working or processing which must be carried out on non-originating materials used in manufacturing and apply only in relation to such materials. It follows that if:

- (a) non-originating materials undergo sufficient working or processing, which results in an originating product, and when that product is used in the subsequent manufacture of another product, no account shall be taken of the non-originating material contained therein; and
- (b) non-originating and originating materials undergo processing, which results in a non-originating product, and when that product is used in a subsequent manufacture of another product, account shall be taken only of the non-originating materials contained therein.

2. The regional value content (hereinafter referred to as “RVC”) of a good, specified in Annex 3-A, shall be calculated by using either of the following formulas:

- (a) Method based on the value of non-originating materials (Build-down Method)

$$RVC = \frac{Ex - Works Value - VNM}{Ex - Works Value} \times 100$$

- (b) Method based on the value of originating materials (Build-up Method)

$$RVC = \frac{\begin{array}{c} \text{Direct} \\ \text{VOM} + \text{Labor} + \text{Overhead} + \text{Profit} \\ \text{Cost} \end{array} + \frac{\begin{array}{c} \text{Direct} \\ \text{Cost} \end{array}}{Ex - Works Value} \times 100$$

where,

RVC is the regional value content, expressed as a percentage;

VNM is the value of the non-originating materials;

VOM means the value of originating materials, parts, or goods that are acquired or self-produced by the producer in the production of the good;

Direct Labor Cost includes wages, remuneration, and other employee

benefits; and

Direct Overhead Cost is the total overhead expense.

3. Notwithstanding paragraph 1, products which do not satisfy an applicable change in tariff classification requirement set out in Annex 3-A shall be considered as originating if:

- (a) for products other than that classified in Chapters 50 through 63 of the HS, the value of all non-originating materials used in its production that do not undergo the required change in tariff classification does not exceed 10 percent of ex-works price of the product;
- (b) for products classified in Chapters 50 through 63 of the HS, the weight of all non-originating materials used in its production that do not undergo the required change in tariff classification does not exceed 10 percent of the total weight of the product.

4. Paragraphs 1 through 3 shall apply subject to all other applicable requirements in this Chapter.

Article 3.6: Insufficient Working or Processing¹

1. Without prejudice to paragraph 2, the following operations shall be considered to be insufficient working or processing to confer the status of originating products whether or not the requirements of Article 3.5 are satisfied:

- (a) preserving operations to ensure that the products remain in good condition during transport and storage;
- (b) change of packaging, breaking-up and assembly of packages;
- (c) washing, cleaning; removal of dust, oxide, oil, paint, or other coverings;
- (d) ironing or pressing of textiles;
- (e) simple painting and polishing operations;
- (f) husking, partial or total bleaching, polishing, and glazing of cereals and rice;
- (g) operations to color or flavor sugar or form sugar lumps; partial or total milling of crystal sugar;

¹ For purposes of this Article, **simple** describes activities which need neither special skills nor machines, apparatus, or equipment especially produced or installed for carrying out the activity. However, simple mixing does not include chemical reaction. Chemical reaction means a process, including a biochemical process, which results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in molecule.

- (h) peeling, stoning, and shelling of fruits, nuts, and vegetables;
- (i) sharpening, simple grinding, or simple cutting;
- (j) sifting, screening, sorting, classifying, grading, or matching (including the making-up of sets of articles);
- (k) simple placing in bottles, cans, flasks, bags, cases, or boxes, fixing on cards or boards, and all other simple packaging operations;
- (l) affixing or printing marks, labels, logos, and other like distinguishing signs on products or their packaging;
- (m) simple mixing of products, whether or not of different kinds; mixing of sugar with any material;
- (n) simple assembly of parts of articles to constitute a complete article or disassembly of products into parts;
- (o) testing or calibrations;
- (p) slaughter of animals; or
- (q) a combination of two or more operations specified in subparagraphs (a) through (p).

2. All operations carried out in a Party on a given product shall be considered together when determining whether the working or processing undergone by that product is to be regarded as insufficient within the meaning of paragraph 1.

Article 3.7: Unit of Qualification

1. The unit of qualification for the application of the provisions of this Chapter shall be the product which is considered as the basic unit when determining classification using the nomenclature of the HS. It follows that:

- (a) when a product composed of a group or assembly of articles is classified under the terms of the HS in a single heading, the whole constitutes the unit of qualification; and
- (b) when a consignment consists of a number of identical products classified under the same heading of the HS, each product must be taken individually when applying the provisions of this Chapter.

2. Where, under General Rule 5 of the HS, packaging is included with the product for classification purposes, it shall be included for purposes of determining origin, and considered as originating if the product is originating.

Article 3.8: Accessories, Spare Parts, and Tools

Accessories, spare parts, and tools delivered with a product, which are part of the normal equipment and included in the price thereof or which are not separately invoiced, shall be regarded as one with the product in question.

Article 3.9: Sets of Goods

Sets, as defined in General Rule 3 of the HS, shall be regarded as originating when all component products are originating, and both the set and the products meet all other applicable requirements in this Chapter. Nevertheless, when a set is composed of originating and non-originating products, the set as a whole shall be regarded as originating, provided that the value of the non-originating products does not exceed 15 percent of the ex-works price of the set.

Article 3.10: Neutral Elements

In order to determine whether a product originates, it shall not be necessary to determine the origin of the following which might be used in its manufacture but which does not enter and which is not intended to enter into the final composition of the product:

- (a) energy and fuel;
- (b) plant and equipment, including goods to be used for their maintenance;
- (c) machines, tools, dies, and molds; and
- (d) any other goods which do not enter into and which are not intended to enter into the final composition of the product.

Article 3.11: Accounting Segregation of Materials

1. Where fungible originating and non-originating materials are used in the manufacture of a product, those materials shall be physically segregated, according to their origin, during storage.

2. Where considerable costs or material difficulties arise in keeping separate stocks of fungible originating and non-originating materials used in the manufacture of a product, the producer may use the so-called “accounting segregation” method for managing stocks.

3. This method is recorded and applied in accordance with the generally accepted accounting principles applicable in the Party where the product is manufactured.

4. A Party may require that the application of the method for managing stocks provided for in this Article is subject to a prior authorization by customs authorities. Should this be the case, the customs authorities may grant such an authorization subject to any conditions deemed appropriate and they shall monitor the use of the authorization and may withdraw it at any time whenever the beneficiary makes improper use of it in any manner or fails to fulfil any of the other conditions laid down in this Chapter.

Article 3.12: Principle of Territoriality

1. Except as provided for in Article 3.3 and paragraph 3 of this Article, the conditions for acquiring originating status set out in Articles 3.2 through 3.11 must be fulfilled without interruption in a Party.

2. Except as provided for in Article 3.3, where originating goods exported from a Party to a non-Party return, they must be considered as non-originating, unless it can be demonstrated to the satisfaction of the customs authorities that:

- (a) the returning goods are the same as those exported; and
- (b) they have not undergone any operation beyond that necessary to preserve them in good condition while in that non-Party or while being exported.

3. The acquisition of originating status in accordance with the conditions set out in this Chapter shall not be affected by working or processing done outside the exporting Party on materials exported from that Party and subsequently re-imported there, provided:

- (a) the said materials are wholly obtained in the exporting Party or have undergone working or processing beyond the operations referred to in Article 3.6 prior to being exported; and
- (b) it can be demonstrated to the satisfaction of the customs authorities that:
 - (i) the re-imported products have been obtained by working or processing the exported materials; and
 - (ii) the total added value acquired outside the exporting Party by applying this Article does not exceed 10 percent of the ex-works price of the end product for which originating status is claimed.

4. For purposes of applying paragraph 3, “total added value” shall be taken to mean all costs arising outside the exporting Party, including the value of the materials incorporated there.

5. Paragraph 3 shall not apply to products which can be considered as originating in accordance with Article 3.5.3.

6. Any working or processing of the kind covered by this Article and done outside the exporting Party shall be done under the outward processing customs procedure, if applicable.

7. Notwithstanding paragraphs 1 and 2, the Parties agree that certain goods shall be considered to be originating even if they have undergone working or processing outside Korea, on materials exported from Korea and subsequently re-imported there, provided that the working or processing is done in the areas designated by the Parties pursuant to Annex 3-B.

Article 3.13: Direct Transport

1. The preferential treatment provided for under this Agreement applies only to products, satisfying the requirements of this Chapter, which are transported directly between the Parties. However, products may be transported through territories of non-Parties, provided that they do not undergo operations other than unloading, reloading, splitting-up of consignments or loads, storing, or any operation designed to preserve them in good condition. During this period the products shall remain under customs control in the country of transit.

2. Evidence that the conditions set out in paragraph 1 have been fulfilled shall be supplied to the customs authority, in accordance with the procedures applicable in the importing Party, by the production of:

Section B: Origin Procedure

Annex 3-A
Product Specific Rules (PSRs)

Headnotes

1. The specific rule, or specific set of rules, that applies to a particular heading or subheading is set out immediately adjacent to the heading or subheading.
2. The requirement of a change in tariff classification applies only to non-originating materials.
3. Where a specific rule of origin is defined using the criterion of a change in tariff classification, and it is written to exclude tariff provisions at the level of a chapter, heading, or subheading of the Harmonized System, it shall be construed to mean that the rule of origin requires that materials classified in those excluded provisions be originating for the good to qualify as originating.
4. When a heading or subheading is subject to alternative specific rules of origin, the rule will be considered to be met if a good satisfies one of the alternatives.
5. Where, in some cases, the entry in the first column is preceded by an “ex”, this signifies that the rules in column 3 apply only to the part of that heading or chapter as described in column 2.
6. For purposes of column 3 of this Annex:
 - (a) **WO** means the product must satisfy the wholly obtained criteria as per Article 3.4;
 - (b) **CC** means that all non-originating materials used in the production of the good have undergone a change in tariff classification at the 2-digit level;
 - (c) **CTH** means that all non-originating materials used in the production of the good have undergone a change in tariff classification at the 4-digit level;
 - (d) **CTSH** means that all non-originating materials used in the production of the good have undergone a change in tariff classification at the 6-digit level; and
 - (e) **RVC** means Regional Value Content as per Article 3.5;

Annex 3-B
Sub-Committee on Outward Processing Zones on the Korean Peninsula

1. Recognizing the Republic of Korea's constitutional mandate and security interests, both Parties' commitment to promoting peace and prosperity on the Korean Peninsula, and the importance of intra-Korean economic cooperation toward that global goal, a Sub-Committee on Outward Processing Zones on the Korean Peninsula is established. The Sub-Committee shall review whether the conditions on the Korean Peninsula are appropriate for further economic development through the establishment and development of outward processing zones.
2. The Sub-Committee shall be comprised of officials of the Parties. The Committee shall meet upon request of a Party, or at any time as mutually agreed.
3. The Sub-Committee shall review the conditions on the Korean Peninsula and identify geographic areas that may be designated as outward processing zones. The Sub-Committee shall determine whether any such outward processing zone has met the criteria established by the Committee. The Sub-Committee shall also establish a maximum threshold for the value of the total input of the originating final good that may be added within the geographic area of the outward processing zone.

Section B: Origin Procedures

Article 3.14: Proof of Origin

1. Any of the following shall be considered as a Proof of Origin:
 - (a) a Certificate of Origin issued by an issuing body in accordance with Article 3.15;

 - (c) a Declaration of Origin (in the cases specified in Article 3.17), made out by the exporter or producer on an invoice, a delivery note or any other commercial document which describes the products concerned in sufficient detail to enable them to be identified.
2. A Proof of Origin shall:
 - (a) be in writing, or any other medium, including electronic format as notified by an importing Party; and
 - (b) specify that the good is originating and meets the requirements of this Chapter.
3. Each Party shall provide that a Proof of Origin, which shall be completed in the English language remains valid for one year from the date on which it is issued (in the case of paragraphs 1(a) and (b)) or completed (in the case of paragraph 1(c)).

- (a) suspend the further reduction of any rate of customs duty on the good provided for under this Agreement; or

- (b) increase the rate of customs duty on the good to a level not to exceed the lesser of:

1. In critical circumstances where delay would cause damage that would be difficult to repair, a Party may apply a bilateral safeguard measure on a provisional basis pursuant to a preliminary determination by its competent authorities that there is clear evidence that imports of an originating good from the other Party have increased as the result of the reduction or elimination of a customs duty under this Agreement, and such imports constitute a substantial cause of serious injury, or threat thereof, to the domestic industry.

2. The applying Party shall notify the other Party before applying a bilateral safeguard measure on a provisional basis, and shall initiate consultations after applying the measure.

3. The duration of any provisional measure shall not exceed 200 days, during which time the Party shall comply with the requirements of Articles 7.3.1 and 7.3.3.

4. The Party shall promptly refund any tariff increases if the investigation described in Article 7.3.1 does not result in a finding that the requirements of Article 7.2 are met. The duration of any provisional measure shall be counted as part of the period described in Article 7.4.1(b).

Article 7.6: Compensation

1. No later than 30 days after it applies a bilateral safeguard measure, a Party shall afford an opportunity for the other Party to consult with it regarding appropriate trade liberalizing compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the measure. The applying Party shall provide such compensation as the Parties mutually agree.

2. If the Parties are unable to agree on compensation within 30 days after consultations begin, the Party against whose originating good the measure is applied may suspend the application of concessions with respect to originating goods of the applying Party that have trade effects substantially equivalent to the bilateral safeguard measure.

3. The applying Party's obligation to provide compensation under paragraph 1 and the other Party's right to suspend concessions under paragraph 2 shall terminate on the date the bilateral safeguard measure terminates.

2. Neither Party shall apply, with respect to the same good, at the same time:

- (a) a provisional bilateral safeguard measure or bilateral safeguard measure; and
- (b) a measure under Article XIX of GATT 1994 and the Safeguards Agreement.

Disclosures shall be made in writing, and interested parties shall be allowed sufficient time to make their comments.

3. The Parties shall observe the following practices in anti-dumping or countervailing cases between them in order to enhance transparency in the implementation of the WTO Agreement:

- (b) the investigating Party shall request an exporter or producer in the territory of the other Party for the timely response to its questionnaires. When the investigating Party finds major deficiency in information in a questionnaire response from relevant exporter or producer received before the deadline or requires clarifications for the purposes of investigation, the investigating Party shall demand missing information or request clarification of information concerning the answers to the questionnaires. This procedure shall not be used to cause unwarranted delays in the investigation or to circumvent the deadlines which are provided in the Party's domestic laws and regulations.

Article 7.9: Notification and Consultation

1. Upon receipt by a Party's competent authorities of a properly documented anti-dumping application with respect to imports from the other Party, and before initiating an investigation, the Party shall provide written notification to the other Party of its receipt of the application and afford the other Party a meeting or other similar opportunities regarding the application, consistent with the Party's domestic law.

⁵ For purposes of this Article, the disciplines in the Reference Paper on Services Domestic Regulation shall not apply to a sector or measure to the extent that such sector or measure is not subject to the obligations under Article 8.3 or Article 8.5 by reason of a Party's commitments made in accordance with Article 8.7

- (a) by a vessel registered under the laws of a non-Party, and

2. Where a Party's monopoly supplier competes, either directly or through an affiliated company, in the supply of a service outside the scope of its monopoly rights and

which is subject to that Party's specific commitments, the Party shall ensure that such a supplier does not abuse its monopoly position to act in its territory in a manner inconsistent with such commitments.

3. If a Party has reason to believe that a monopoly supplier of a service of the other Party is acting in a manner inconsistent with paragraph 1 or 2, that Party may request the other Party establishing, maintaining or authorizing such supplier to provide specific information concerning the relevant operations.

4. This Article shall also apply to cases of exclusive service suppliers, where a Party, formally or in effect, (a) authorizes or establishes a small number of service suppliers and (b) substantially prevents competition among those suppliers in its territory.

7. FINANCIAL SERVICES

Headnotes: All financial services are subject to the following provisions.

- (1) Juridical persons supplying financial services and constituted under Korean law are subject to non-discriminatory limitations on juridical form.²⁸
- (2) The commitments of Korea are subject to the limitation that in order to establish or acquire a controlling interest in a financial service supplier in Korea, a foreign investor must own or control a financial service supplier that engages in supplying financial services within the same financial services sub-sector in its home country.
- (3) For greater certainty, nothing in this Agreement limits Korea's ability to require the chief executive of a financial service supplier established under its laws to reside within its territory.
- (4) For prudential reasons within the context of the Annex on Financial Services, Korea shall not be prevented from taking measures including requirements related to parent companies, the minimum capital requirement, minimum operating funds requirement, business worker's license and approval for business activities.
- (5) A financial institution must be established for only one business defined in related law and thus cannot engage in other business activities regulated by other relevant laws.
- (6) Even if Korea permits persons located in its territory, and its nationals wherever located, to purchase financial services from cross-border financial service suppliers of Georgia located in the territory of Georgia, such permission will not mean that Korea is required to permit such suppliers to do business or engage in solicitation in the territory of Korea. Korea may define "doing business" and "solicitation" for purposes of this obligation, provided that those definitions are not inconsistent with the commitments regarding cross-border supply of financial services undertaken by Korea.
- (7) Without prejudice to other means of prudential regulation on cross-border supply of financial services, Korea may require the registration or authorization of cross-border financial service suppliers of Georgia and of financial instruments. Korea may require a cross-border financial service supplier of Georgia to provide information, solely for informational or statistical purposes, on the financial services it has supplied within the territory of Korea. Korea will protect such business information that is confidential from any disclosure that would prejudice the competitive position of the supplier.
- (8) Assets owned by branches must be kept within the territory of Korea. Capital of the head office is not recognized as the basis for determining the extent of funding and lending activities of domestic branches.
- (9) The management and operation of assets of a financial institution are restricted.
- (10) A financial institution may not own non-business real estate.
- (11) The Parties confirm that the following entities, as currently structured, are covered by this Chapter, but that they shall not be considered financial service suppliers for purposes of this Chapter²⁹ : Korea Deposit Insurance Corporation (KDIC), Export-Import Bank of Korea, Korea Export Insurance Corporation, Korea

²⁸ This headnote is not itself to affect, or otherwise limit, a choice by a financial service supplier of the other Party between branches or subsidiaries.

²⁹ For greater certainty, this Chapter does not apply to measures adopted or maintained by Korea relating to the entities specified in this paragraph.

(13)	Chief and deputy executive officers and all members of the Board of Directors of the Korea Housing Finance Corporation, the National Agricultural Cooperative Federation and the National Federation of Fisheries Cooperatives must be Korean nationals.		
(14)	Korea reserves the right not to consider any "compulsory" third-party insurance service supplied in the territory of a foreign country to a natural person in Korea or a juridical person established therein, in determining whether such a natural or juridical person has satisfied a legal obligation to purchase such "compulsory" third party insurance service not listed in this Schedule. However, services supplied outside the territory of Korea may be considered in satisfaction of the legal obligation if the required insurance cannot be purchased from an insurer established in Korea.		
(15)	In the context of privatising government-owned or government-controlled entities that supply financial services, Korea reserves the right to adopt or maintain any measure relating to the continued guarantee, or time-limited additional guarantee, of the obligations and liabilities of these entities.		
(16)	Korea reserves the right to limit ownership by foreign investors of the Korea Exchange and the Korea Securities Depository. In the event of public offering of shares of the Korea Exchange or the Korea Securities Depository, Korea reserves the right to limit shareholding by foreign persons in the relevant institution, provided that Korea shall ensure that:

Article 9.1: Definitions

For purposes of this Chapter:

commercial electronic message means an electronic message which is sent for commercial purposes to an electronic address of a person through a telecommunications service, comprising at least electronic mail and, to the extent provided for under a Party's domestic laws and regulations, other types of messages;

computing facilities means computer servers or storage devices for processing or storing information for commercial use;

covered person means a service supplier, as defined in Article 8.1 (Definitions), of the other Party;

digital product means a computer program, text, video, image, sound recording, or other product that is digitally encoded, produced for commercial sale or distribution, and that can be transmitted electronically;^{1, 2}

electronic authentication means the process or act of verifying the identity of a party to an electronic communication or transaction or ensuring the integrity of an electronic communication;

electronic payments means a payer's transfer of a monetary claim acceptable to a payee made through electronic means;

electronic signature means data in electronic form that is in, affixed to, or logically associated with an electronic data message and that may be used to identify the signatory in relation to the data message and indicate the signatory's approval of the information contained in the data message;

electronic transmission or **transmitted electronically** means a transmission made using any electromagnetic means, including by photonic means;

¹ For greater certainty, "digital product" does not include a digitized representation of a financial instrument, including money.

² The definition of "digital product" should not be understood to reflect a Party's view on whether trade in digital products through electronic transmission should be categorized as trade in services or trade in goods. 5

FinTech means the use of technology to improve and automate the delivery and use of financial services;

open data means digital data that is made available with the technical and legal characteristics necessary for it to be freely used, reused, and redistributed. This definition relates only to information held or processed by or on behalf of a Party;

personal data means any information about an identified or identifiable natural person; and

unsolicited commercial electronic message means a commercial electronic message that is sent without the consent of the recipient or despite the explicit rejection of the recipient.

Article 9.2: Scope and General Provisions

1. The Parties recognize the economic growth and opportunities provided by digital trade and the importance of frameworks that promote consumer confidence in digital trade and of avoiding unnecessary barriers to its use and development.

2. This Chapter shall apply to measures adopted or maintained by a Party that affect trade by electronic means.

3. This Chapter shall not apply to:

- (a) government procurement; or
- (b) except for Article 9.16, information held or processed by or on behalf of a Party, or measures related to that information, including measures related to its collection.

4. For greater certainty, the Parties affirm that measures affecting the supply of a service delivered or performed electronically are subject to the obligations contained in the relevant provisions of Chapter Eight (Trade in Services) and its Annex 8-A, including any exceptions set out in this Agreement that are applicable to those obligations.

5. Articles 9.4, 9.8, and 9.9 shall not apply to aspects of a Party's measures that do not conform with an obligation in Chapter Eight (Trade in Services) to the extent that such measures are adopted or maintained in accordance with:

- (a) any terms, limitations, qualifications, and conditions specified in a Party's commitments, or are with respect to a sector that is not subject to a Party's commitments, made in accordance with

Article 8.7(Schedules of Specific Commitments); or

- (b) any exception that is applicable to the obligations in Chapter Eight (Trade in Services).

Article 9.3: Customs Duties

1. Neither Party shall impose customs duties on electronic transmissions, including content transmitted electronically, between a person of a Party and a person of the other Party.

2. For greater certainty, paragraph 1 shall not preclude a Party from imposing internal taxes, fees, or other charges on content transmitted electronically, provided that such taxes, fees, or charges are imposed in a manner consistent with this Agreement.

Article 9.4: Non-Discriminatory Treatment of Digital Products

1. Neither Party shall accord less favorable treatment to digital products created, produced, published, contracted for, commissioned, or first made available on commercial terms in the territory of the other Party, or to digital products of which the author, performer, producer, developer, or owner is a person of the other Party, than it accords to other like digital products.³

2. Paragraph 1 shall not apply to the extent of any inconsistency with the rights and obligations in Chapter Ten (Intellectual Property).

Article 10.48: Provisional Measures for Preserving Evidence

1. Each Party shall ensure that, even before the commencement of proceedings on the merits of the case, the competent judicial authorities may, on application by a party who has presented reasonably available evidence to support its claims that its intellectual property right has been infringed or is about to be infringed, order prompt and effective provisional measures to preserve relevant evidence in respect of the alleged infringement, subject to the protection of confidential information.

2. Each Party may provide that such measures include the detailed description, with or without the taking of samples, or the physical seizure of the infringing goods, and in appropriate cases, the materials and implements used in the production or distribution of these goods and the documents relating thereto. Those measures shall be taken, if necessary without the other party being heard, in particular where any delay is likely to cause irreparable harm to the right holder or where there is a demonstrable risk of evidence being destroyed.

Article 10.49: Right of Information

1. Each Party shall ensure that, during civil proceedings concerning an infringement of an intellectual property right and in response to a justified and proportionate request of the claimant, the competent judicial authorities may order the infringer and/or any other person which is party to a litigation or a witness therein to provide information on the origin and distribution networks of the goods or services which infringe an intellectual property right.

Article 10.50: Provisional and Precautionary Measures

1. Each Party shall ensure that the judicial authorities may, at the request of the applicant, issue an interlocutory injunction intended to prevent any imminent infringement of an intellectual property right, to forbid, on a provisional basis and subject, where appropriate, to a recurring penalty payment where provided for by its legislation, the continuation of the alleged infringements of that right, or to make such continuation subject to the lodging of guarantees intended to ensure the compensation of the right holder. An interlocutory injunction may also be issued against an intermediary¹⁴ whose services are being used by a third party to infringe copyright, related rights, trademarks or geographical indications.

2. An interlocutory injunction may also be issued to order the seizure of the goods suspected of infringing an intellectual property right so as to prevent their entry into or movement within the channels of commerce.

3. If appropriate, the competent judicial authorities may also order destruction of materials and implements principally used in the creation or manufacture of those goods.

2. The judicial authorities shall order that those measures be carried out at the expense of the infringer, unless particular reasons are invoked for not doing so.

3. In considering a request for corrective measures, the need for proportionality between the seriousness of the infringement and the remedies ordered as well as the interests of third parties shall be taken into account.

Article 10.52: Injunctions

1. Each Party shall ensure that, where a judicial decision is taken finding an infringement of an intellectual property right, the judicial authorities may issue against the infringer an injunction aimed at prohibiting the continuation of the infringement.

Each Party may provide that, in appropriate cases and at the request of the person liable to be subject to the measures provided for in Article 10.51 or 10.52, the competent judicial authorities may order pecuniary compensation to be paid to the injured party instead of applying the measures provided for in Article 10.51 or 10.52 if that person acted unintentionally and without negligence, if execution of the measures in question would cause him or her disproportionate harm and if pecuniary compensation to the injured party appears reasonably satisfactory.

Article 10.54: Damages

1. Each Party shall ensure that when the judicial authorities set damages:

¹⁵ For purposes of this paragraph, the scope of “intermediary” is determined in each Party’s legislation, but shall include those who deliver or distribute infringing goods, and also where appropriate, include online service providers.

- (a) they shall take into account all appropriate aspects, such as the negative economic consequences, including lost profits, which the injured party has suffered, any unfair profits made by the infringer and, in appropriate cases, elements other than economic factors, such as the moral prejudice caused to the right holder by the infringement; or
 - (b) as an alternative to subparagraph (a), they may, in appropriate cases, set the damages as a lump sum on the basis of elements such as at least the amount of royalties or fees which would have been due if the infringer had requested authorization to use the intellectual property right in question.
2. Where the infringer did not knowingly, or with reasonable grounds to know, engage in infringing activity, the Parties may provide that the judicial authorities may order the recovery of profits or the payment of damages which may be pre-established.
3. Article 11.3: Scope and Coverage

Application of Chapter

1. This Chapter applies to any measure regarding covered procurement, whether or not it is conducted exclusively or partially by electronic means.
2. For purposes of this Chapter, covered procurement means procurement for governmental purposes:

5. Where a procuring entity, in the context of covered procurement, requires persons not covered under a Party's Schedule to Annex 11-A to procure in accordance with particular requirements, Article 11.5 shall apply *mutatis mutandis* to such requirements.

Valuation

6. In estimating the value of a procurement for the purpose of ascertaining whether it is a covered procurement, a procuring entity shall:⁷
- (a) neither divide a procurement into separate procurements nor select or use a particular valuation method for estimating the value of a procurement with the intention of totally or partially excluding it from the application of this Chapter; and

⁷ For Georgia, when determining the estimated value of government procurement, a procuring entity shall take into account any expenses, existing by the day of opening the competition, related to conduction of government procurement within the frames of a specific government procurement, estimated duration of a procurement contract, and payment, excluded VAT, to be paid for supplying the object of procurement within the frames of a specific government procurement.

- (b) include the estimated maximum total value of the procurement over its entire duration, whether awarded to one or more suppliers, taking into account all forms of remuneration, including:
 - (i) premiums, fees, commissions, and interest; and
 - (ii) where the procurement provides for the possibility of options, the total value of such options.

7. Where an individual requirement for a procurement results in the award of more than one contract, or in the award of contracts in separate parts (hereinafter referred to as "recurring contracts"), the calculation of the estimated maximum total value shall be based on:

- (a) the value of recurring contracts of the same type of good or service awarded during the preceding 12 months or the procuring entity's preceding fiscal year, adjusted, where possible, to take into account anticipated changes in the quantity or value of the good or service being procured over the following 12 months; or
- (b) the estimated value of recurring contracts of the same type of good or service to be awarded during the 12 months following the initial contract award or the procuring entity's fiscal year.

8. In the case of procurement by lease, rental or hire purchase of goods or services, or procurement for which a total price is not specified, the basis for valuation shall be:

- (a) in the case of a fixed-term contract:
 - (i) where the term of the contract is 12 months or less, the total estimated maximum value for its duration; or
 - (ii) where the term of the contract exceeds 12 months, the total estimated maximum value, including any estimated residual value;
- (b) where the contract is for an indefinite period, the estimated monthly instalment multiplied by 48; and
- (c) where it is not certain whether the contract is to be a fixed-term contract, subparagraph (b) shall be used.

Article 11.4: Security and General Exceptions

1. Nothing in this Chapter shall be construed to prevent a Party from taking any action or not disclosing any information that it considers necessary for the protection of its essential security interests relating to the procurement of arms, ammunition or war materials, or to procurement indispensable for national security or for national defence purposes.

2. Subject to the requirement that such measures are not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination between the Parties where the same conditions prevail or a disguised restriction on international trade, nothing in this Chapter shall be construed to prevent a Party from imposing or enforcing measures:

- (a) necessary to protect public morals, order, or safety;
- (b) necessary to protect human, animal, or plant life or health;
- (c) necessary to protect intellectual property; or
- (d) relating to goods or services of persons with disabilities, philanthropic institutions, or prison labor.

Non-Discrimination

1. 2. With respect to any measure regarding covered procurement, a Party, including its procuring entities, shall not:

- (a) treat a locally established supplier less favorably than another locally established supplier on the basis of the degree of foreign affiliation or ownership; or
- (b) discriminate against a locally established supplier on the basis that the goods or services offered by that supplier for a particular procurement are goods or services of the other Party.

Use of Electronic Means

3. When conducting covered procurement by electronic means, a procuring entity shall:

- (a) ensure that the procurement is conducted using information technology systems and software, including those related to authentication and encryption of information, that are generally available and interoperable with other generally available information technology systems and software; and
- (b) maintain mechanisms that ensure the integrity of requests for participation and tenders, including establishment of the time of receipt and the prevention of inappropriate access.

- (b) avoids conflicts of interest; and
- (c) prevents corrupt practices.

Rules of Origin

5. For purposes of covered procurement, a Party shall not apply rules of origin to goods or services imported from or supplied from the other Party that are different from the rules of origin the Party applies at the same time in the normal course of trade to imports or supplies of the same goods or services from the same Party.

Offsets

6. With regard to covered procurement, a Party, including its procuring entities, shall not seek, take account of, impose or enforce any offset.

Measures Not Specific to Procurement

7. Paragraphs 1 and 2 shall not apply to customs duties and charges of any kind imposed on, or in connection with, importation, the method of levying such duties and charges, other import regulations or formalities and measures affecting trade in services other than measures governing covered procurement.

Article 11.6: Information on the Procurement System

Each Party shall:

- (a) promptly publish any law, regulation, administrative ruling of general application, standard contract clause mandated by law or regulation and incorporated by reference in notices or tender documentation, and procedure regarding covered procurement, and any modifications thereof, in an officially designated electronic or paper medium that is widely disseminated and remains readily accessible to the public; and
- (b) provide an explanation thereof to a Party, on request.

Article 11.7: Notices

Notice of Intended Procurement

1. For each covered procurement, a procuring entity shall publish a notice of intended procurement in electronic medium listed in Annex 11-A, except in the circumstances described in Article 11.13. 2. Except as otherwise provided in this Chapter, each notice of intended procurement shall include:

- (e) the time-frame for delivery of goods or services or the duration of the contract;

- (g) where applicable, the address and any final date for the submission of requests for participation in the procurement;
- (h) the address and the final date for the submission of tenders;
- (i) the language or languages in which tenders or requests for participation may be submitted, if they may be submitted in a language other than an official language of the Party of the procuring entity;
- (j) a list and brief description of any conditions for participation of suppliers, including any requirements for specific documents or certifications to be provided by suppliers in connection therewith, unless such requirements are included in tender documentation that is made available to all interested suppliers at the same time as the notice of intended procurement;
- (k) where, pursuant to Article 11.9, a procuring entity intends to select a limited number of qualified suppliers to be invited to tender, the criteria that will be used to select them and, where applicable, any limitation on the number of suppliers that will be permitted to tender; and
- (l) an indication that the procurement is covered by this Chapter.

Summary Notice

3. For each case of intended procurement, a procuring entity shall publish a summary notice that is readily accessible, at the same time as the publication of the notice of intended procurement, in English. The summary notice shall contain at least the following information:

- (a) the subject-matter of the procurement;
- (b) the final date for the submission of tenders or, where applicable, any final date for the submission of requests for participation in the procurement or for inclusion on a multi-use list; and
- (c) the address from which documents relating to the procurement may be requested.

Notice of Planned Procurement

4. Procuring entities are encouraged to publish in the electronic medium listed in Section H of Annex 11-A as early as possible in each fiscal year a notice regarding their future procurement plans (hereinafter referred to as "notice of planned procurement"). The notice of planned procurement should include the subject-matter of the procurement and the planned timeframe of the publication of the notice of intended procurement.

5. A procuring entity covered under Section B or C may use a notice of planned procurement as a notice of intended procurement provided that the notice of planned procurement includes as much of the information referred to in paragraph 2 as is available to the entity and a statement that interested suppliers should express their interest in the procurement to the procuring entity.

Article 11.8: Conditions for Participation

1. A procuring entity shall limit any conditions for participation in a procurement to those that are essential to ensure that a supplier has the legal and financial capacities and the commercial and technical abilities to undertake the relevant procurement.

2. In establishing the conditions for participation, a procuring entity:

- (a) may not impose the condition that, in order for a supplier to participate in a procurement, the supplier has previously been awarded one or more contracts by a procuring entity of that Party; and
- (b) may require relevant prior experience where essential to meet the requirements of the procurement.

3. In assessing whether a supplier satisfies the conditions for participation, a procuring entity:

- (a) shall evaluate the financial capacity and the commercial and technical abilities of a supplier on the basis of that supplier's business activities both inside and outside the territory of the Party of the procuring entity; and
- (b) shall base its evaluation on the conditions that the procuring entity has specified in advance in notices or tender documentation.

4. Where there is supporting evidence, a Party, including its procuring entities, may exclude a supplier on grounds such as:

- (a) bankruptcy;
- (b) false declarations;
- (c) significant or persistent deficiencies in performance of any substantive requirement or obligation under a prior contract or contracts;
- (d) final judgments in respect of serious crimes or other serious offences;
- (e) professional misconduct or acts or omissions that adversely reflect on the commercial integrity of the supplier; or
- (f) failure to pay taxes.

Article 11.9: Qualification of Suppliers

Registration Systems and Qualification Procedures

1. A Party may maintain a supplier registration system under which interested suppliers are required to register and provide certain information.
2. Each Party shall ensure that:
 - (a) its procuring entities make efforts to minimize differences in their qualification procedures; and
 - (b) where its procuring entities maintain registration systems, the entities make efforts to minimize differences in their registration systems.
3. A Party, including its procuring entities, shall not adopt or apply any registration system or qualification procedure with the purpose or the effect of creating unnecessary obstacles to the participation of suppliers of the other Party in its procurement.

Selective Tendering

4. Where a procuring entity intends to use selective tendering, the entity shall:
 - (a) include in the notice of intended procurement at least the information specified in Article 11.7.2(a), (b), (f), (g), (j), (k),

and (l) and invite suppliers to submit a request for participation;
and

- (b) provide, by the commencement of the time-period for tendering, at least the information in Article 11.7.2(c), (d), (e), (h), and (i) to the qualified suppliers that it notifies as specified in Article 11.11.3(b).

5. A procuring entity shall allow all qualified suppliers to participate in a particular procurement, unless the procuring entity states in the process of procurement operation any limitation on the number of suppliers that will be permitted to tender and the criteria for selecting the limited number of suppliers.

Multi-Use Lists

6. A procuring entity may maintain a multi-use list of suppliers, provided that a notice inviting interested suppliers to apply for inclusion on the list is:

- (a) published annually; and
- (b) where published by electronic means, made available continuously,

in the appropriate medium listed in Annex 11-A.

7. The notice provided for in paragraph 6 shall include:

- (a) a description of the goods or services, or categories thereof, for which the list may be used;
- (b) the conditions for participation to be satisfied by suppliers for inclusion on the list and the methods that the procuring entity will use to verify that a supplier satisfies the conditions;
- (c) the name and address of the procuring entity and other information necessary to contact the entity and obtain all relevant documents relating to the list;
- (d) the period of validity of the list and the means for its renewal or termination, or where the period of validity is not provided, an indication of the method by which notice will be given of the termination of use of the list; and
- (e) an indication that the list may be used for procurement covered by this Chapter.

8. Notwithstanding paragraph 6, where a multi-use list will be valid for three years or less, a procuring entity may publish the notice referred to in paragraph 6 only once, at the beginning of the period of validity of the list, provided that the notice:

- (a) states the period of validity and that further notices will not be published; and
- (b) is published by electronic means and is made available continuously during the period of its validity.

9. A procuring entity shall allow suppliers to apply at any time for inclusion on a multi-use list and shall include on the list all qualified suppliers within a reasonably short time.

Information on Procuring Entity Decisions

10. A procuring entity shall promptly inform any supplier that submits a request for participation in a procurement or application for inclusion on a multi-use list of the procuring entity's decision with respect to the request or application.

11. Where a procuring entity rejects a supplier's request for participation in a procurement or application for inclusion on a multi-use list, ceases to recognize a supplier as qualified, or removes a supplier from a multi-use list, the entity shall promptly inform the supplier and, on request of the supplier, promptly provide the supplier with a written explanation of the reasons for its decision.

Article 11.10: Technical Specifications and Tender Documentation

Technical Specifications

1. A procuring entity shall not prepare, adopt, or apply any technical specification or prescribe any conformity assessment procedure with the purpose or the effect of creating unnecessary obstacles to international trade.

2. In prescribing the technical specifications for the goods or services being procured, a procuring entity shall, where appropriate:

- (a) set out the technical specification in terms of performance and functional requirements, rather than design or descriptive characteristics; and

- (b) base the technical specification on international standards, where such exist, otherwise, on national technical regulations, recognized national standards, or building codes.

3. Where design or descriptive characteristics are used in the technical specifications, a procuring entity should indicate, where appropriate, that it will consider tenders of equivalent goods or services that demonstrably fulfil the requirements of the procurement by including words such as “or equivalent” in the tender documentation.

4. A procuring entity shall not prescribe technical specifications that require or refer to a particular trademark or trade name, patent, copyright, design, type, specific origin, producer, or supplier, unless there is no other sufficiently precise or intelligible way of describing the procurement requirements and provided that, in such cases, the entity includes words such as “or equivalent” in the tender documentation.

5. A procuring entity shall not seek or accept, in a manner that would have the effect of precluding competition, advice that may be used in the preparation or adoption of any technical specification for a specific procurement from a person that may have a commercial interest in the procurement.

6. For greater certainty, a Party, including its procuring entities, may, in accordance with this Article, prepare, adopt, or apply technical specifications to promote the conservation of natural resources or protect the environment.

Tender Documentation

7. A procuring entity shall make available to suppliers tender documentation that includes all information necessary to permit suppliers to prepare and submit responsive tenders. Unless already provided in the notice of intended procurement, such documentation shall include a complete description of:

- (a) the procurement, including the nature and the quantity of the goods or services to be procured or, where the quantity is not known, the estimated quantity, and any requirements to be fulfilled, including any technical specifications, conformity assessment certification, plans, drawings, or instructional materials;
- (b) any conditions for participation of suppliers, including a list of information and documents that suppliers are required to submit in connection with the conditions for participation;

- (c) all evaluation criteria the entity will apply in the awarding of the contract, and, except where price is the sole criterion, the relative importance of such criteria;
- (d) where the procuring entity will conduct the procurement by electronic means, any authentication and encryption requirements or other requirements related to the submission of information by electronic means;
- (e) where the procuring entity will hold an electronic auction, the rules, including identification of the elements of the tender related to the evaluation criteria, on which the auction will be conducted;
- (f) where there will be a public opening of tenders, the date, time, and place for the opening and, where appropriate, the persons authorized to be present;
- (g) any other terms or conditions, including terms of payment and any limitation on the means by which tenders may be submitted, such as whether on paper or by electronic means; and
- (h) any dates for the delivery of goods or the supply of services.

8. In establishing any date for the delivery of goods or the supply of services being procured, a procuring entity shall take into account such factors as the complexity of the procurement, the extent of subcontracting anticipated, and the realistic time required for production, de-stocking, and transport of goods from the point of supply or for supply of services.

9. The evaluation criteria set out in the notice of intended procurement or tender documentation may include, among others, price and other cost factors, quality, technical merit, environmental characteristics, and terms of delivery.

10. A procuring entity shall promptly:

- (a) make available tender documentation to ensure that interested suppliers have sufficient time to submit responsive tenders;
- (b) provide, on request, the tender documentation to any interested supplier; and
- (c) reply to any reasonable request for relevant information by any interested or participating supplier, provided that such information does not give that supplier an advantage over other suppliers.

Modifications

11. Where, prior to the award of a contract, a procuring entity modifies the criteria or requirements set out in the notice of intended procurement or tender documentation provided to participating suppliers, or amends or reissues a notice or tender documentation, it shall transmit in writing all such modifications or amended or re-issued notice or tender documentation:

Article 11.11: Time-Periods

General

1. A procuring entity shall, consistent with its own reasonable needs, provide sufficient time for suppliers to prepare and submit requests for participation and responsive tenders, taking into account such factors as:

- (a) the nature and complexity of the procurement;
- (b) the extent of subcontracting anticipated; and
- (c) the time necessary for transmitting tenders by non-electronic means from foreign as well as domestic points where electronic means are not used.

Such time-periods, including any extension of the time-periods, shall be the same for all interested or participating suppliers.

Deadlines

2. A procuring entity that uses selective tendering shall establish that the final date for the submission of requests for participation shall not, in principle, be less than 25 days from the date of publication of the notice of intended procurement. Where a state of urgency duly substantiated by the procuring entity renders this time-period impracticable, the time-period may be reduced to not less than 10 days.

3. Except as provided for in paragraphs 4, 5, 7, and 8, a procuring entity shall establish that the final date for the submission of tenders shall not be less than 30 days from the date on which:

- (a) in the case of open tendering, the notice of intended procurement is published; or
- (b) in the case of selective tendering, the entity notifies suppliers that they will be invited to submit tenders, whether or not it uses a multi-use list.

4. A procuring entity may reduce the time-period for tendering established in accordance with paragraph 3 to not less than 10 days where:

- (a) the procuring entity has published a notice of planned procurement as described in Article 11.7 at least 35 days and not more than 12 months in advance of the publication of the notice of intended procurement, and the notice of planned procurement contains:
 - (i) a description of the procurement;
 - (ii) the approximate final dates for the submission of tenders or requests for participation;
 - (iii) a statement that interested suppliers should express their interest in the procurement to the procuring entity;
 - (iv) the address from which documents relating to the procurement may be obtained; and
 - (v) as much of the information that is required for the notice of intended procurement under Article 11.7, as is available;
- (b) the procuring entity, for recurring contracts, indicates in an initial notice of intended procurement that subsequent notices will provide time-periods for tendering based on this paragraph; or
- (c) a state of urgency duly substantiated by the procuring entity renders the time-period for tendering established in accordance with paragraph 3 impracticable.

5. A procuring entity may reduce the time-period for tendering established in accordance with paragraph 3 by five days for each one of the following circumstances:

- (a) the notice of intended procurement is published by electronic means;
- (b) all the tender documentation is made available by electronic means from the date of the publication of the notice of intended procurement; and
- (c) the entity accepts tenders by electronic means.

6. The use of paragraph 5, in conjunction with paragraph 4, shall in no case result in the reduction of the time-period for tendering established in accordance with paragraph 3 to less than 10 days from the date on which the notice of intended procurement is published.

7. Where a procuring entity covered under Section B or C has selected all or a limited number of qualified suppliers, the time-period for tendering may be fixed by mutual agreement between the procuring entity and the selected suppliers. In the absence of agreement, the period shall not be less than 10 days.

Article 11.12: Negotiation

1. A Party may provide for its procuring entities to conduct negotiations or procurement operation via negotiated procedure:

- (a) where the entity has indicated its intent to conduct negotiations in the notice of intended procurement required under Article 11.7; or
- (b) where it appears from the evaluation that no tender is obviously the most advantageous in terms of the specific evaluation criteria set out in the notice of intended procurement or tender documentation.

2. A procuring entity shall:

- (a) ensure that any elimination of suppliers participating in negotiations is carried out in accordance with the evaluation criteria set out in the notice of intended procurement or tender documentation; and

- (b) where negotiations are concluded, provide a common deadline for the remaining participating suppliers to submit any new or revised tenders.

Article 11.13: Limited Tendering

1. Provided that it does not use this provision for the purpose of avoiding competition among suppliers or in a manner that discriminates against suppliers of the other Party or protects domestic suppliers, a procuring entity may use limited tendering and may choose not to apply Articles 11.7 through 11.9, 11.10.7 through 11.10.11, 11.11, 11.12, 11.14, and 11.15 only under any of the following circumstances:

- (a) where:

 - (ii) no tenders that conform to the essential requirements of the tender documentation were submitted;
 - (iii) no suppliers satisfied the conditions for participation; or
 - (iv) the tenders submitted have been collusive,provided that the requirements of the tender documentation are not substantially modified;

 - (ii) the protection of patents, copyrights, or other exclusive rights; or
 - (iii) due to an absence of competition for technical reasons;
- (c) for additional deliveries by the original supplier of goods or services that were not included in the initial procurement where a change of supplier for such additional goods or services:

- (i) cannot be made for economic or technical reasons such as requirements of interchangeability or interoperability with existing equipment, software, services, or installations procured under the initial procurement; and
 - (ii) would cause significant inconvenience or substantial duplication of costs for the procuring entity;
- (d) insofar as is strictly necessary where, for reasons of extreme urgency brought about by events unforeseeable by the procuring entity, the goods or services could not be obtained in time using open tendering or selective tendering;
- (e) for goods purchased on a commodity market;
- (f) where a procuring entity procures a prototype or a first good or service that is developed at its request in the course of, and for, a particular contract for research, experiment, study, or original development. Original development of a first good or service may include limited production or supply in order to incorporate the results of field testing and to demonstrate that the good or service is suitable for production or supply in quantity to acceptable quality standards, but does not include quantity production or supply to establish commercial viability or to recover research and development costs;
- (g) for purchases made under exceptionally advantageous conditions that only arise in the very short term in the case of unusual disposals such as those arising from liquidation, receivership, or bankruptcy, but not for routine purchases from regular suppliers; or
- (h) where a contract is awarded to a winner of a design contest provided that:
 - (i) the contest has been organized in a manner that is consistent with the principles of this Chapter, in particular relating to the publication of a notice of intended procurement; and
 - (ii) the participants are judged by an independent jury with a view to a design contract being awarded to a winner.

2. A procuring entity shall prepare a report in writing on each contract awarded under paragraph 1. The report shall include the name of the procuring entity, the value and kind of goods or services procured, and a statement

- (c) any other relevant information relating to the conduct of the auction.

Article 11.15: Treatment of Tenders and Awarding of Contracts

Treatment of Tenders

1. A procuring entity shall receive, open, and treat all tenders under procedures that guarantee the fairness and impartiality of the procurement process, and the confidentiality of tenders.
2. Where a procuring entity provides a supplier with an opportunity to correct unintentional errors of form between the opening of tenders and the awarding of the contract, the procuring entity shall provide the same opportunity to all participating suppliers.

Awarding of Contracts

3. To be considered for an award, a tender shall be submitted in writing and shall, at the time of opening, comply with the essential requirements set out in the notices and tender documentation and be from a supplier that satisfies the conditions for participation.
4. Unless a procuring entity determines that it is not in the public interest to award a contract, the entity shall award the contract to the supplier that the entity has determined to be capable of fulfilling the terms of the contract and

that, based solely on the evaluation criteria specified in the notices and tender documentation, has submitted:

- (a) the most advantageous tender; or
- (b) where price is the sole criterion, the lowest price.

5. Where a procuring entity receives a tender with a price that is abnormally lower than the prices in other tenders submitted, according to the Parties' domestic legislation threshold, it may verify with the supplier that it satisfies the conditions for participation and is capable of fulfilling the terms of the contract.

6. A procuring entity shall not use options, cancel a procurement, or modify awarded contracts in a manner that circumvents the obligations under this Chapter.

Article 11.16: Transparency of Procurement Information

1. A procuring entity shall promptly inform participating suppliers of the entity's contract award decisions in writing. Subject to Articles 11.18.2 and 11.18.3, a procuring entity shall, on request, provide an unsuccessful supplier with an explanation of the reasons why the entity did not select its tender and the relative advantages of the successful supplier's tender.

- (a) the documentation and reports of tendering procedures and contract awards relating to covered procurement, including the reports required under Article 11.14; and

Article 11.17: Disclosure of Information

Provision of Information

1. On request of the other Party, a Party shall provide promptly any information necessary to determine whether a procurement was conducted fairly, impartially and in accordance with this Chapter, including information on the characteristics and relative advantages of the successful tender. In cases where release of the information would prejudice competition in future tenders, the Party that receives the information shall not disclose it to any supplier, except after consulting with, and obtaining the agreement of, the Party that provided the information.

Non-Disclosure of Information

2. Notwithstanding any other provision of this Chapter, a Party, including its procuring entities, shall not provide to any particular supplier information that might prejudice fair competition between suppliers.

3. Nothing in this Chapter shall be construed to require a Party, including its procuring entities, authorities, and review bodies, to disclose confidential information where disclosure:

- (a) would impede law enforcement;
- (b) might prejudice fair competition between suppliers;

- (c) would prejudice the legitimate commercial interests of particular persons, including the protection of intellectual property; or
- (d) would otherwise be contrary to the public interest.

Article 11.18: Domestic Review Procedures

1. Each Party shall provide a timely, effective, transparent, and non-discriminatory administrative or judicial review procedure through which a supplier may challenge:

- (a) a breach of the Chapter; or
- (b) where the supplier does not have a right to challenge directly a breach of the Chapter under the domestic law of a Party, a failure to comply with a Party's measures implementing this Chapter,

arising in the context of a covered procurement, in which the supplier has, or has had, an interest. The procedural rules for all challenges shall be generally available.

2. In the event of a complaint by a supplier, arising in the context of covered procurement in which the supplier has, or has had, an interest, that there has been a breach or a failure as referred to in paragraph 1, the Party of the procuring entity conducting the procurement shall encourage the entity and the supplier to seek resolution of the complaint through consultations. The entity shall accord impartial and timely consideration to any such complaint in a manner that is not prejudicial to the supplier's participation in ongoing or future procurement or its right to seek corrective measures under the administrative or judicial review procedure.

3. Each supplier shall be allowed a sufficient period of time to prepare and submit a challenge, which in no case shall be less than 10 days from the time when the basis of the challenge became known or reasonably should have become known to the supplier.

4. Each Party shall establish or designate at least one impartial administrative or judicial authority that is independent of its procuring entities to receive and review a challenge by a supplier arising in the context of a covered procurement.

5. Where a body other than an authority referred to in paragraph 4 initially reviews a challenge, the Party shall ensure that the supplier may appeal the initial decision to an impartial administrative or judicial authority that is

independent of the procuring entity whose procurement is the subject of the challenge.

6. Each Party shall ensure that a review body that is not a court shall have its decision subject to judicial review or have procedures that provide that:

- (a) the procuring entity shall respond in writing to the challenge and disclose all relevant documents to the review body;
- (b) the participants to the proceedings (hereinafter referred to as "participants") shall have the right to be heard prior to a decision of the review body being made on the challenge;
- (c) the participants shall have the right to be represented and accompanied;
- (d) the participants shall have access to all proceedings;
- (e) the participants shall have the right to request that the proceedings take place in public and that witnesses may be presented; and
- (f) the review body shall make its decisions or recommendations in a timely fashion, in writing, and shall include an explanation of the basis for each decision or recommendation.

7. Each Party shall adopt or maintain procedures that provide for:

- (a) rapid interim measures to preserve the supplier's opportunity to participate in the procurement. Such interim measures may result in suspension of the procurement process. The procedures may provide that overriding adverse consequences for the interests concerned, including the public interest, may be taken into account when deciding whether such measures should be applied. Just cause for not acting shall be provided in writing; and
- (b) where a review body has determined that there has been a breach or a failure as referred to in paragraph 1, corrective action or compensation for the loss or damages suffered, which may be limited to either the costs for the preparation of the tender or the costs relating to the challenge, or both.

Article 11.19: Modifications and Rectifications to Coverage

1. A Party may make rectifications of a purely formal nature to its coverage under this Chapter, or minor amendments to its Schedules in Annex 11-A, provided that it notifies the other Party in writing and the other Party does not object in writing within 30 days of receipt of the notification. A Party that makes such a rectification or minor amendment need not provide compensatory adjustments to the other Party.

2. A Party may otherwise modify its coverage under this Chapter provided that:

- (a) it notifies the other Party in writing and simultaneously offers in the notification appropriate compensatory adjustments to the other Party to maintain a level of coverage comparable to that existing prior to the modification where necessary; and
- (b) the other Party shall not object in writing within 30 days of receipt of the notification.

3. A Party need not provide compensatory adjustments in those circumstances where the Parties agree that the proposed modification covers a procuring entity over which a Party has effectively eliminated its control or influence. Where a Party objects to the assertion that such government control or influence has been effectively eliminated, the objecting Party shall object in writing within 30 days of receipt of the notification and may request further information or consultations with a view to clarifying the nature of any government control or influence and reaching agreement on the procuring entity's continued coverage under this Chapter.

4. Where the Parties concerned have agreed on rectification, minor amendment, adjustment, or proposed modification, or where no objection has been made within 30 days of the receipt of the notification, the modifications shall be made in conformity with the provisions of paragraph 5.

5. The Joint Committee of the Agreement shall modify the relevant section of Annex 11-A to reflect any agreed rectification, minor amendment, or modification.

joint participation in tendering procedures.

3. The Parties shall endeavor to work jointly towards exchanging information and facilitating access of MSMEs to government procurement procedures, methods, and contracting requirements, focusing on their special needs.

- 3. The Committee shall meet upon request of a Party or as mutually agreed by the Parties.
- 4. Meetings may be conducted in person or by any technological means available to the Parties.

Article 11.23: Further Negotiations

In a case that a Party offers, after the entry into force of this Agreement, to a non-Party additional advantages with regard to its government procurement market access coverage agreed under this Chapter, it shall agree, upon request of the other Party, to enter into negotiations with a view to extending coverage under this Chapter on a reciprocal basis.

Where the panel concludes that a measure is inconsistent with this Agreement or the Party complained against has failed to carry out its obligations under this Agreement, it shall recommend that the Party complained against brings the measure into conformity with this Agreement or complies with its obligations under this Agreement.

Article 16.11: Implementation of the Final Report

1. On receipt of the final report of a panel, the Parties shall agree on the resolution of the dispute, which normally shall conform with the determinations and recommendations, if any, of the panel.
2. If, in its final report, the panel determines that a Party has not

conformed with its obligations under this Agreement, the resolution, whenever possible, shall be to eliminate the non-conformity.

Article 16.12: Non-Implementation

1. If a panel has made a determination of the type described in Article 16.11.2, and the Parties are unable to reach agreement on a resolution pursuant to Article 16.11.1 within 45 days of receiving the final report, or such other period as the Parties agree, the Party complained against shall enter into negotiations with the complaining Party with a view to developing mutually acceptable compensation.

2. If the Parties:

- (a) are unable to agree on compensation within 30 days after the negotiation for developing such compensation has begun; or
- (b) have agreed on compensation or on a resolution pursuant to Article 16.11.1 and the complaining Party considers that the Party complained against has failed to observe the terms of the agreement,

the complaining Party may at any time thereafter provide written notice to the Party complained against that it intends to suspend the application to the Party complained against of the concessions or other obligations of equivalent effect. The notice shall specify the level of concessions or other obligations that the complaining Party proposes to suspend. The complaining Party may begin suspending concessions or other obligations 30 days after the later of the date on which it provides notice to the other Party under this paragraph or the panel issues its determination under paragraph 3, as the case may be.

3. In considering what concessions or other obligations to suspend:

- (a) the complaining Party should first seek to suspend concessions or other obligations with respect to the same sector or sectors as that in which the report of the panel referred to in Article 16.10 has found a failure to comply with the obligations under this Agreement; and
- (b) if the complaining Party considers that it is not practicable or effective to suspend concessions or other obligations in the same sector or sectors, it may suspend concessions or other obligations in other sectors. The communication in which it

notifies such a decision shall indicate the reasons on which it is based.

4. If the Party complained against considers that:

- (a) the level of the concessions or other obligations that the complaining Party has proposed to be suspended is manifestly excessive; or
- (b) it has eliminated the non-conformity that the panel has found,

it may, within 30 days after the complaining Party provides notice under paragraph 2, request that the panel be reconvened to consider the matter. The Party complained against shall deliver its request in writing to the complaining Party. The panel shall reconvene as soon as possible after delivery of the request and shall present its determination to the Parties within 90 days after it reconvenes to review a request under either subparagraph (a) or (b), or within 120 days for a request under both subparagraphs (a) and (b). If the panel determines that the level of the concessions or other obligations proposed to be suspended is manifestly excessive, it shall determine the level of the concessions or other obligations it considers to be of equivalent effect. The complaining Party may not suspend the application of concessions or other obligations before the issuance of the determination of the panel on the same.

5. The complaining Party may suspend the concessions or other obligations up to the level the panel has determined under paragraph 4 or, if the panel has not determined the level, the level the Party has proposed to suspend under paragraph 2, unless the panel has determined that the Party complained against has eliminated the non-conformity.

6. Suspension of concessions or other obligations shall be temporary, and shall apply until the implementation of the final report takes place or mutually satisfactory solution is reached.

Article 16.13: Compliance Review

1. Without prejudice to the procedures set out in Article 16.12.4, if the Party complained against considers that it has eliminated the non-conformity that the panel has found, it may refer the matter to the panel by providing written notice to the complaining Party. The panel shall reconvene as soon as possible after delivery of the request and shall issue its report on the matter within 90 days after the Party complained against provides notice.

2. If the panel decides that the Party complained against has eliminated the non-conformity, the complaining Party shall promptly reinstate any benefits

it has suspended under Article 16.12.

ARTICLE 16.14: Suspension or Termination of Proceedings

1. The Parties may agree that the panel suspends its work at any time for a period not exceeding 12 months from the date of such agreement. In such event, the Parties shall jointly notify the chair of the panel. Upon the expiration of 12 months, the panel's authority for considering the dispute shall lapse, unless the Parties agree otherwise.

2. The Parties may agree to terminate the proceedings of panel by jointly notifying the chair of the panel at any time before the issuance of the final report to the Parties.
