CHAPTER THREE

TRADE REMEDIES

Article 3.1: Global Safeguard Measures

1. Each Party retains its rights and obligations under Article XIX of GATT 1994 and the Safeguards Agreement. This Agreement does not confer any additional rights or obligations on the Parties with regard to measures taken under Article XIX of GATT 1994 and the Safeguards Agreement.
2. At the request of the other Party, the Party intending to take a global safeguard measure shall provide immediately written notification of all pertinent information on the initiation of a global safeguard investigation, the preliminary determination and the final finding of the investigation.

Article 3.2: Anti-dumping and Countervailing Measures

1. Each Party retains its rights and obligations under the WTO Agreement with regard to the application of anti-dumping and countervailing measures. Unless otherwise provided in this Chapter, nothing in this Agreement shall be construed to confer any additional rights or impose any additional obligations on a Party with respect to anti-dumping or countervailing measures.
2. In order to enhance transparency in the implementation of the WTO Agreement:
 - (a) the Parties confirm their current practice of counting toward the average all individual margins, whether positive or negative, when anti-dumping margins are established on the weighted-to-weighted basis or transaction-to-transaction basis, or weighted-to-transaction basis, and share their expectation that such practice will continue¹; and
 - (b) the Party making a decision to impose an anti-dumping duty in accordance with Article 9.1 of the Anti-Dumping Agreement, may apply the “lesser duty” rule, by imposing a duty which is less than the dumping margin where such

¹ This is without prejudice to the position each Party takes in the WTO’s Doha Development Agenda negotiations on Rules.

lesser duty would be adequate to remove the injury to the domestic industry.

Article 3.3: Notification and Consultations

1. After receipt by a Party's competent authorities of a properly documented anti-dumping application relating to imports from the other Party and before proceeding to initiate an investigation, the Party shall give written notice, at the earliest possible opportunity, to the other Party. Immediately after initiating an investigation, the Party shall afford the other Party an adequate opportunity to make inquiries and representations regarding the application.

2. As soon as possible after an application for countervailing measures is accepted by the competent authorities of a Party and before the initiation of an investigation, if products of the other Party may be subject to such investigation, the other Party shall be invited for consultations with the aim of clarifying the situation and arriving at a mutually agreed solution.

CHAPTER FOUR

ARTICLE 4.1

Objectives

The objectives of this chapter are to:

- (a) increase and facilitate trade through enhancing the Parties' implementation of the TBT Agreements;
- (b) promote mutual understanding of each Party's standards, technical regulations and conformity assessment procedures; and
- (c) ensure standards, technical regulation, and conformity assessment procedures do not create unnecessary obstacles to trade.

Article 4.2

Scope

1. This Chapter shall apply to the preparation, adoption, and application of all standards, technical regulations, and conformity assessment procedures that may affect the trade in goods between the Parties.
2. Notwithstanding paragraph 1, this Chapter does not apply to sanitary and phytosanitary measures covered by Chapter 5 (Sanitary and Phytosanitary Measures).

Article 4.3

Affirmation and Incorporation of the TBT Agreement

The Parties affirm their existing rights and obligations with respect to each other under the WTO Agreement on Technical Barriers to Trade, which is incorporated into and made part of this Agreement, *mutatis mutandis*.

Article 4.4

Standards

1. With respect to the preparation, adoption and application of standards, each Party shall take reasonable measures to ensure that its standardizing body accept and comply with Annex 3 to the TBT Agreement.

2. Where technical regulation or conformity assessment procedures are required and relevant international standards exist or their completion is imminent, each Party shall use them, or the relevant parts of them, as a basis for their technical regulations and conformity assessment procedures except when such international standards or relevant parts would be an ineffective or inappropriate means for the fulfilment of the legitimate objectives pursued.

Article 4.5

Technical Regulation

1. Each Party shall, upon written request of the other Party, give positive consideration to accepting as equivalent technical regulations of the other Party, even if these regulations differ from its own, provided that it is satisfied that these regulations adequately fulfil the objectives of its own regulations.

2. Where a Party does not accept a technical regulation of the other Party as equivalent to its own, it shall, upon request of the other Party, explain the reasons for its decision.

Article 4.6

Conformity Assessment Procedures

1. The Parties recognize that a broad range of mechanisms exists to facilitate the acceptance of the results of conformity assessment procedures conducted in the other Party's territory. Such mechanisms may include but are not limited to:

- (a) mutual recognition agreements for the results of conformity assessment procedures conducted by bodies in the Parties.
- (b) use of accreditation to qualify conformity assessment bodies, including through relevant multilateral agreements or arrangements to recognize the accreditation granted by the other Party;
- (c) designation of conformity assessment bodies in the other Party;
- (d) unilateral recognition by a Party of results of conformity assessment procedures conducted in the other Party;
- (e) co-operative (voluntary) arrangements between accreditation bodies or those between conformity assessment bodies in the other party; and
- (f) manufacturer's or supplier's declaration of conformity.

2. The Parties shall exchange information on their experience in the development and application of the approaches in paragraph 1 and other appropriate approaches and therefore encourage their conformity assessment bodies to work closer with a view to facilitating the acceptance of conformity assessment results between the Parties.

3. The Parties shall accept, the results of conformity assessment procedures conducted in the territory of the other Party, even when those procedures differ from its own, provided that those procedures offer a satisfactory assurance of applicable technical regulations or standards equivalent to its own procedures. Where a Party does not accept the results of conformity assessment procedures conducted in the territory of the other Party, it shall, upon request of the other Party, explain in writing the reasons for its decision.
4. Prior to accepting the results of a conformity assessment procedures pursuant to paragraph 3, and in order to enhance confidence in the permanent reliability of each one of the conformity assessment results, the Parties may consult on matters such as the technical competence of the conformity assessment bodies involved including verified compliance with relevant international standards through means such as accreditation. Where a Party considers that a conformity assessment body of the other Party does not fulfill its requirements, it shall explain to the other Party in writing the reasons for its decision.
5. A Party shall give positive consideration to a request by the other Party to negotiate agreements for the mutual recognition of the results of their respective conformity assessment procedures. Where a Party declines such request, it shall, upon request of the other Party, explain in writing the reasons for its decision. The Parties shall work together to implement the mutual recognition agreements to which both Parties are party.
6. The Parties shall encourage their national certification bodies to be member of the IECEE-CB scheme and the national certification bodies to accept each other's IECEE-CB test certificate as the basis for national certification to electric safety requirements in order to reduce duplicative testing and certification requirements
7. If a Party requires conformity assessment as a positive assurance that a product conforms with technical regulations, it shall consider in the regulatory process the use of the supplier's declaration of conformity as assurance of conformity among other options for showing compliance with technical regulations. In this regard, the Parties shall endeavor to introduce a supplier's declaration of conformity for the placing on the market of the products.
8. A Party shall endeavor to eliminate duplicative testing and certification requirement between confirmative assessment procedure operated by regional economic community and confirmative assessment procedure operated by individual member country and to unify technical regulations among member countries, if the other party requests it.
9. A party shall, upon written request of the other Party, give positive consideration to accrediting, approving, or otherwise recognizing the conformity assessment bodies recommended by the other Party.

Article 4.7

6. Each Party shall, upon request of the other Party, provide information regarding the objectives of, and rationale for, a technical regulation or conformity assessment procedure that the Party has adopted or is proposing to adopt.
7. Each Party should take into due consideration the comments of the other Party, received in a timely manner following the notification of a proposed technical regulation and conformity assessment procedures, and, upon request, shall endeavor to provide responses to these comments.
8. The Parties shall ensure that all adopted technical regulation and conformity assessment procedures are published, or otherwise made available in such a manner as to enable interested persons of the other Party and the other Party to become acquainted with them.
9. Except in urgent circumstances, the Parties shall allow a reasonable interval between the publication of technical regulations or conformity assessment procedures and their entry into force in order to allow time for producers in the exporting Party to adapt their products or methods of production to the requirements of the importing Party. Reasonable interval

shall be understood to normally mean a period of not less than six months, except when this would be ineffective in fulfilling the legitimate objectives pursued.

10. Where authorization is required for the supply of a service on which a specific commitment has been made, the competent authorities of a Party shall, within a reasonable period of time after the submission of an application considered complete under domestic laws and regulations, inform the applicant of the decision concerning the application. At the request of the applicant, the competent authorities of the Party shall provide, without undue delay, information concerning the status of the application.

5. With a view to ensuring that domestic regulations, including measures relating to qualification requirements and procedures, technical standards and licensing requirements, do not constitute unnecessary barriers to trade in services, while recognizing the right to regulate and to introduce new regulations on the supply of services in order to meet national policy objectives, each Party shall endeavor to ensure, as appropriate for individual sectors, that such measures are:

- (a) based on objective and transparent criteria, such as competence and the ability to supply the service;
- (b) not more burdensome than necessary to ensure the quality of the service; and
- (c) in the case of licensing procedures, not in themselves a restriction on the supply of the service.

6. The disciplines in the Reference Paper on Services Domestic Regulation (November 26, 2021, INF/SDR/2), shall, *mutatis mutandis*, be incorporated into and made part of the Schedules of Specific Commitments referred to in Article 8.7 of all Parties that are participants in the WTO Joint Initiative on Services Domestic Regulation as additional commitments on the next day after the improved GATS schedules of all those Parties to incorporate the disciplines enter into force.⁸

7. Pending the incorporation of disciplines pursuant to paragraph 6, in sectors where a Party has undertaken specific commitments and subject to any terms, limitations, conditions or qualifications set out in its Schedule of Specific Commitments, that Party shall not apply licensing and qualification requirements and technical standards that nullify or impair such specific

⁸ For greater certainty, this paragraph shall only apply to a Party to this Agreement which is participant in the WTO Joint Initiative on Services Domestic Regulation. For purposes of this Article, (i) the disciplines in the Reference Paper on Services Domestic Regulation shall not apply to a sector or measure to the extent that such sector or measure is not subject to Article 8.3 or Article 8.4 by reason of such Party's commitments made in accordance with Article 8.7; and (ii) paragraphs 14-19, entitled "Opportunity to Comment and Information before Entry into Force" of Section II of the Reference Paper on Services Domestic Regulation shall only apply to sectors for which such a Party has undertaken specific commitments under the GATS.

commitments in a manner which:

- (a) does not comply with the criteria outlined in subparagraphs 5(a), 5(b) or 5(c); and

8. In determining whether a Party is in conformity with the obligation under paragraph 7, account shall be taken of international standards of relevant international organizations⁹ applied by that Party.

9. In sectors where specific commitments regarding professional services are undertaken, each Party shall provide for adequate procedures to verify the competence of professional of the other Party.

Article 8.10: Recognition

1. For the purposes of the fulfilment, in whole or in part, of its standards or criteria for the authorization, licensing or certification of services suppliers, and subject to the requirements of paragraph 3, a Party may recognize the education or experience obtained, requirements met, or licenses or certifications granted in a particular country. Such recognition, which may be achieved through harmonization or otherwise, may be based upon an agreement or arrangement with the country concerned or may be accorded autonomously.

2. A Party that is a party to an agreement or arrangement of the type referred to in paragraph 1, whether existing or future, shall afford adequate opportunity for the other Party, if the other Party is interested, to negotiate its accession to such an agreement or arrangement or to negotiate a comparable one with it. Where a Party accords recognition autonomously, it shall afford adequate opportunity for the other Party to demonstrate that education, experience, licenses, or certifications obtained or requirements met in that other Party's territory should be recognized.

3. Neither Party may accord recognition in a manner that would constitute a means of discrimination between countries in the application of its standards or criteria for the authorization, licensing, or certification of service suppliers, or a disguised restriction on trade in services.

4. Each Party shall endeavor to encourage its relevant competent bodies

⁹ The term "relevant international organizations" refers to international bodies whose membership is open to the relevant bodies of the Parties.

to enter into negotiations on recognition of professional qualifications, licenses, or registration procedures with a view to the achievement of early outcomes.

5. Any arrangement reached between relevant competent bodies pursuant to paragraph 4 shall be consistent with this Article.

Article 8.11: Monopolies and Exclusive Service Suppliers

1. Each Party shall ensure that any monopoly supplier of a service in its territory does not, in the supply of the monopoly service in the relevant market, act in a manner inconsistent with that Party's specific commitments.

2. Where a Party's monopoly supplier competes, either directly or through an affiliated company, in the supply of a service outside the scope of its monopoly rights and which is subject to that Party's specific commitments, the Party shall ensure that such a supplier does not abuse its monopoly position to act in its territory in a manner inconsistent with such commitments.

3. If a Party has reason to believe that a monopoly supplier of a service of the other Party is acting in a manner inconsistent with paragraph 1 or 2, that Party may request the other Party establishing, maintaining, or authorizing such supplier to provide specific information concerning the relevant operations.

4. The provisions of this Article shall also apply to cases of exclusive service suppliers, where a Party, formally or in effect:

- (a) authorizes or establishes a small number of service suppliers; and
- (b) substantially prevents competition among those suppliers in its territory.

Article 8.12: Business Practices

1. The Parties recognize that certain business practices of service suppliers, other than those falling under Article 8.11, may restrain competition and thereby restrict trade in services.

2. A Party shall, at the request of the other Party, enter into consultations with a view to eliminating practices referred to in paragraph 1. The Party addressed shall accord full and sympathetic consideration to such a request and shall cooperate through the supply of publicly available non-confidential

information of relevance to the matter in question. The Party addressed shall also provide other information available to the requesting Party, subject to its domestic law and to the conclusion of satisfactory agreement concerning the safeguarding of its confidentiality by the requesting Party.

Article 8.13: Payments and Transfers

1. Except under the circumstances envisaged in Article 8.14, a Party shall not apply restrictions on international transfers and payments for current transactions relating to its specific commitments.
2. Nothing in this Chapter shall affect the rights and obligations of the Parties as members of the International Monetary Fund under the *Articles of Agreement of the International Monetary Fund* (hereinafter referred to as the “Articles of Agreement”), including the use of exchange actions which are in conformity with the Articles of Agreement, provided that a Party shall not impose restrictions on any capital transactions inconsistently with its specific commitments regarding such transactions, except under Article 8.14 or at the request of the International Monetary Fund.

Article 8.14: Restrictions to Safeguard the Balance of Payments

1. In the event of serious balance of payments and external financial difficulties or threat thereof, a Party may adopt or maintain restrictions on trade in services on which it has undertaken specific commitments, including on payments or transfers for transactions related to such commitments. It is recognized that particular pressures on the balance of payments of a Party in the process of economic development or economic transition may necessitate the use of restrictions to ensure, *inter alia*, the maintenance of a level of financial reserves adequate for the implementation of its program of economic development or economic transition.
2. The restrictions referred to in paragraph 1:
 - (a) shall not discriminate between the other Party and non-Party;
 - (b) shall be consistent with the Articles of Agreement;
 - (c) shall avoid unnecessary damage to the commercial, economic and financial interests of the other Party;
 - (d) shall not exceed those necessary to deal with the circumstances described in paragraph 1; and

- (e) shall be temporary and be phased out progressively as the situation specified in paragraph 1 improves.

3. In determining the incidence of such restrictions, a Party may give priority to the supply of services which are more essential to its economic or development programs. However, such restrictions shall not be adopted or maintained for the purpose of protecting a particular service sector.

4. Any restrictions adopted or maintained under paragraph 1, or any changes therein, shall be promptly notified to the Committee on Trade in Services.

5. The Party adopting any restrictions under paragraph 1 shall commence consultations with the other Party in order to review the restrictions adopted by it.

Article 8.15: Transparency

1. Each Party shall publish promptly and, except in emergency situations, at the latest by the time of their entry into force, all relevant measures of general application which pertain to or affect the operation of this Chapter. International agreements pertaining to or affecting trade in services to which a Party is a signatory shall also be published.

2. Where publication as referred to in paragraph 1 is not practicable, such information shall be made otherwise publicly available.

3. Each Party shall respond promptly to all requests by the other Party for specific information on any of its measures of general application or international agreements within the meaning of paragraph 1. Each Party shall also use the existing enquiry points or, if they do not exist, establish one or more enquiry points to provide specific information to the other Party, upon request, on all such matters.

Article 8.16: Disclosure of Confidential Information

Nothing in this Chapter shall require any Party to provide confidential information, the disclosure of which would impede law enforcement, or otherwise be contrary to the public interest, or which would prejudice legitimate commercial interests of particular enterprises, public or private.

Article 8.17: Denial of Benefits

1. Subject to prior notification and consultation, a Party may deny the benefits of this Chapter to a service supplier of the other Party if the service supplier is a juridical person owned or controlled by persons of a non-Party, and the denying Party:

- (a) does not maintain:
 - (i) normal economic relations with the non-Party if the denying party is Korea;
 - (ii) diplomatic relations with the non-Party if the denying party is a GCC member state; or
- (b) adopts or maintains measures with respect to the non-Party or a person of the non-Party that prohibit transactions with the juridical person or that would be violated or circumvented if the benefits of this Chapter were accorded to the juridical person.

2. Subject to prior notification and consultation, a Party may deny the benefits of this Chapter:

- (a) to the supply of a service, if it establishes that the service is supplied from or in the territory of a non-Party;
- (b) in the case of the supply of a maritime transport service, if it establishes that the service is supplied:
 - (i) by a vessel registered under the laws of a non-Party; and
 - (ii) by a person which operates and/or uses the vessel in whole or in part but which is of a non-Party;
- (c) to a service supplier of the other Party, if it establishes that the service supplier is a juridical person owned or controlled by persons of a non-Party or of the denying Party that has no substantial business activities in the territory of the other Party.

Article 8.18: Committee on Trade in Services

1. The Parties hereby establish a Committee on Trade in Services (referred to as the “Committee” in this Chapter) that shall meet on the request of either Party or the Joint Committee to consider any matter arising under this Chapter.

2. The Committee's functions shall include:
 - (a) reviewing the implementation and operation of this Chapter;

Where a Party accords such recognition autonomously, it shall afford adequate opportunity for the other Party to demonstrate that such circumstances exist.

Consultations

2. This Annex reflects the Parties' mutual desire of facilitating entry and temporary stay in accordance with their laws and regulations and the commitments in their Schedule of Specific Commitments in this Chapter and of establishing transparent measures affecting the entry and temporary stay covered by their respective Schedule of Specific Commitments, while recognizing the need to ensure border security and to protect the domestic labor force and permanent employment in their respective territories.

3. This Annex shall not apply to measures affecting natural persons of a Party seeking access to the employment market of the other Party, nor shall it apply to measures regarding citizenship, nationality, residence, or employment on a permanent basis.

General Obligations

4. Each Party shall apply its measures related to this Annex in accordance with paragraphs 2 and 3 and, in particular, shall expeditiously apply those measures so as to avoid unduly nullifying or impairing the benefits accruing to the other Party or delaying trade in services under this Chapter.

Grant of Entry and Temporary Stay

5. The Parties may make commitments in respect of entry and temporary stay. Such commitments and the conditions governing them shall be inscribed in Schedule of Specific Commitments referred to in Article 8.7.

6. In accordance with this Annex and subject to each Party's Schedule of Specific Commitments, a Party shall grant entry or extension of temporary stay to natural persons of the other Party to the extent provided for in those commitments made pursuant to paragraph 5, provided that those natural persons:

- (a) follow the granting Party's prescribed application procedures under its relevant laws and regulations; and
- (b) meet all relevant eligibility requirements for entry or extension of temporary stay.

7. Each Party shall ensure that any fees charged by its competent authorities for the processing of an application for the entry and temporary stay do not unduly impair or delay the supply of services under this Chapter.

8. The sole fact that a Party grants entry to a natural person of the other Party pursuant to this Chapter shall not be construed to exempt that natural person from meeting any applicable licensing or other requirements, including any mandatory codes of conduct, to practice a profession or otherwise engage in business activities.

Transparency

9. Further to Article 1.6 (Transparency), each Party shall:

- (a) provide to the other Party such information, to the extent practicable, as will enable the other Party to become acquainted with its measures relating to this Annex;
- (b) no later than one year after the date of entry into force of this Agreement, if possible, prepare, publish, and make available, explanatory information regarding the requirements for entry and temporary stay under this Annex including applicable laws and regulations in such a manner as will enable the categories of natural persons of the other Party specified in the Schedule of Specific Commitments to become acquainted with them; and
- (c) upon modifying or amending a measure that affects the entry and temporary stay of categories of natural persons specified in the Schedule of Specific Commitments, ensure that such modifications or amendments are promptly published and made available in such a manner as will enable natural persons of the other Party to become acquainted with them.

10. Further to Article 1.6 (Transparency), each Party shall establish or maintain appropriate mechanisms to respond to inquiries from interested persons regarding applications and procedures related to the entry and temporary stay.

11. On the request of the applicant, the Party shall endeavor to provide, without undue delay, information on the status of the application or the

decision about the application.

Cooperation

12. The Parties may discuss mutually agreed areas of cooperation to further facilitate the entry and temporary stay in line with their respective laws and regulations, which shall take into consideration areas proposed by either Party during the course of negotiations or other areas as may be identified by the Parties.

Dispute Settlement

13. The relevant authorities of both Parties shall endeavour to resolve any problems that may arise from the implementation and administration of this Annex.

14. Neither Party shall have recourse to dispute settlement under Chapter Fifteen (Dispute Settlement) regarding a refusal to grant entry and temporary stay, or the extension of temporary stay, under this Annex unless:

- (a) the matter involves a pattern of practice; and
- (b) the natural person affected has exhausted all available administrative remedies regarding the particular matter.

15. The remedies referred to in paragraph 14(b) shall be deemed to be exhausted if a final determination in the matter has not been issued by the other Party within a reasonable period of time after the date of the institution of proceedings for the remedy, including any proceedings for review, and the failure to issue that determination is not attributable to delays caused by the natural person concerned.

7. FINANCIAL SERVICES

Headnotes: All financial services are subject to the following provisions.

- (1)——Juridical persons supplying financial services and constituted under Korean law are subject to non-discriminatory limitations on juridical form.²⁴
- (2)——The commitments of Korea are subject to the limitation that in order to establish or acquire a controlling interest in a financial service supplier in Korea, a foreign investor must own or control a financial service supplier that engages in supplying financial services within the same financial services sub-sector in its home country.
- (3)——For greater certainty, nothing in this Agreement limits Korea's ability to require the chief executive of a financial service supplier established under its laws to reside within its territory.
- (4) For prudential reasons within the context of the Annex on Financial Services, Korea shall not be prevented from taking measures including requirements related to parent companies, the minimum capital requirement, minimum operating funds requirement, business worker's license and approval for business activities.
- (5) A financial institution must be established for only one business defined in related law and thus cannot engage in other business activities regulated by other relevant laws.
- (6) Even if Korea permits persons located in its territory, and its nationals wherever located, to purchase financial services from cross-border financial service suppliers of a GCC Member State located in the territory of that GCC Member State, such permission will not mean that Korea is required to permit such suppliers to do business or engage in solicitation in the territory of Korea. Korea may define "doing business" and "solicitation" for the purpose of this obligation, provided that those definitions are not inconsistent with the commitment regarding cross-border supply of financial services undertaken by Korea.
- (7) Without prejudice to other means of prudential regulation on cross-border supply of financial services, Korea may require the registration or authorization of cross-border financial service suppliers of a GCC Member State and of financial instruments. Korea may require a cross-border financial service supplier of a GCC Member State to provide information, solely for informational or statistical purposes, on the financial services it has supplied within the territory of Korea. Korea will protect such business information that is confidential from any disclosure that would prejudice the competitive position of the supplier.

Article 10.10: Limited Tendering

1. If a procuring entity uses limited tendering, it may choose, according to the nature of the procurement, not to apply Article 10.7, Article 10.8, Article 10.9, Article 10.11, Article 10.12, Article 10.13, Article 10.14, or Article 10.15. A procuring entity may use limited tendering only under the following circumstances:

- (a) if, in response to a prior notice, invitation to participate, or invitation to tender:

 - (ii) no tenders were submitted that conform to the essential requirements in the tender documentation;
 - (iii) no suppliers satisfied the conditions for participation; or

provided that the procuring entity does not substantially modify the essential

requirements set out in the notices or tender documentation;

 - (i) the requirement is for a work of art;
 - (ii) the protection of patents, copyrights, or other exclusive rights; or

 - (i) cannot be made for technical reasons such as requirements of interchangeability or interoperability with existing equipment, software, services, or installations procured under the initial procurement, or due to conditions under original supplier warranties; and
 - (ii) would cause significant inconvenience or substantial duplication of costs for the procuring entity;
- (d) for a good purchased on a commodity market or exchange;
- (e) if a procuring entity procures a prototype or a first good or service that is intended for limited trial or that is developed at its request in the course of, and for, a particular contract for research, experiment, study, or original development. Original development of a prototype or a first good or service may include limited production or supply in order to incorporate the results of field testing and to demonstrate that the prototype or the first good or service is suitable for production or supply in quantity to acceptable quality standards, but does not include quantity production or supply to establish commercial viability or to recover research and development costs. Subsequent procurements of these newly developed goods or services, however, shall be subject to this Chapter;
- (f) if additional services that were not included in the initial contract but that were within the objectives of the original tender documentation have, due to unforeseeable circumstances, become necessary to complete the construction services described therein. However, the total value of contracts awarded for additional services shall be reasonable, compared to the value of the initial contract, and in accordance with each Party's laws and legislations;

- (g) for new services consisting of the repetition of similar services which conform to a basic project for which an initial contract was awarded and for which the entity has indicated in the notice of intended procurement concerning the initial service that limited tendering procedures might be used in awarding contracts for such new services;
- (h) for purchases made under exceptionally advantageous conditions that only arise in the very short term, such as from unusual disposals, liquidation, bankruptcy, or receivership, but not for routine purchases from regular suppliers;

- (j) in so far as is strictly necessary if, for reasons of extreme urgency brought about by events unforeseeable by the procuring entity, the good or service could not be obtained in time by means of open or selective tendering; or
- (k) objectively justifiable and exceptional circumstances that are provided for in applicable existing laws and regulations require the conduct of a limited tender.

2. For each contract awarded in accordance with paragraph 1, a procuring entity shall prepare a report in writing, or maintain a record, that includes the name of the procuring entity, the value and kind of good or service procured, and a statement that indicates the circumstances and conditions described in paragraph 1 that justified the use of limited tendering.

Article 10.11: Negotiations

1. A Party may provide for its procuring entities to conduct negotiations in the context of covered procurement if:

- (a) the procuring entity has indicated its intent to conduct negotiations in the notice of intended procurement required under Article 10.7;
- (b) it appears from the evaluation that no tender is obviously the most advantageous in terms of the price or other specific evaluation criteria set out in the notice of intended procurement or tender documentation; and

- (c) there is a need to clarify the terms and conditions.
- 2. A procuring entity shall:
 - (a) ensure that any elimination of suppliers participating in negotiations is carried out in accordance with the evaluation criteria set out in the notice of intended procurement or tender documentation; and

Article 10.12: Technical Specifications

 - (a) set out the technical specifications in terms of performance and functional requirements, rather than design or descriptive characteristics; and
 - (b) base the technical specifications on international standards, if these exist and are applicable, otherwise, on national technical regulations, recognized national standards or building codes.
3. If design or descriptive characteristics are used in the technical specifications, a procuring entity should indicate, if appropriate, that it will consider tenders of equivalent goods or services that demonstrably fulfil the requirements of the procurement by including words such as “or equivalent” in the tender documentation.
4. A procuring entity shall not prescribe technical specifications that require or refer to a particular trademark or trade name, patent, copyright, design, type, specific origin, producer, or supplier, unless there is no other sufficiently precise or intelligible way of describing the procurement requirements and provided that, in these cases, the procuring entity includes words such as “or equivalent” in the tender documentation.
5. For greater certainty, this Article is not intended to preclude a procuring entity from preparing, adopting, or applying technical specifications to promote the conservation of natural resources or the protection of the environment. Such specifications, where applicable, shall be based on international standards.

6. For greater certainty, this Chapter is not intended to preclude a Party, or its procuring entities, from preparing, adopting, or applying technical specifications required to protect sensitive government information, including specifications that may affect or limit the storage, hosting, or processing of such information outside the territory of the Party.

Article 10.13: Tender Documentation

- (d) if the procuring entity will conduct the procurement by electronic means, any authentication and encryption requirements or other requirements related to the submission of information by electronic means;
- (e) if there will be a public opening of tenders, the date, time, and place for the opening, and, if appropriate, the persons authorized to be present;
- (f) any other terms or conditions relevant to the evaluation of tenders; and
- (g) any date for delivery of goods or the supply of services.

2. Subject to any fees if applicable, a procuring entity should make relevant tender documentation publicly available through electronic means or a computer-based telecommunications network openly accessible, to all interested suppliers.

3. In establishing any date for the delivery of goods or the supply of services being procured, a procuring entity shall take into account factors such as the complexity of the procurement, the extent of subcontracting anticipated, and the realistic time required for production, de-stocking and transport of goods from the point of supply or for supply of

services.

4. A procuring entity shall promptly reply to any reasonable request for relevant information by an interested or participating supplier, provided that such information does not give that supplier an advantage over other suppliers.

Modifications

5. If, prior to the award of a contract, a procuring entity modifies the evaluation criteria or requirements set out in a notice of intended procurement or tender documentation provided to a participating supplier, or amends, or re-issues a notice or tender documentation, it shall publish or provide those modifications, or the amended or re-issued notice or tender documentation:

2. If the tender of a supplier is received after the time specified for receiving tenders, the procuring entity shall not penalize that supplier if the delay is due solely to the mishandling on the part of the procuring entity.
3. If a procuring entity provides a supplier with an opportunity to correct unintentional errors of form, the procuring entity shall provide the same opportunity to all participating suppliers.

Awarding of Contracts

4. To be considered for an award, a tender shall be submitted in writing and shall, at the time of opening, comply with the essential requirements set out in the notice and tender documentation and be submitted by a supplier who satisfies the conditions for participation.

Unless a procuring entity determines that it is not in the public interest to award a contract, it shall award the contract to the supplier that the procuring entity has determined to be fully capable of fulfilling the terms of the contract and that, based solely on the evaluation criteria specified in the notice and tender documentation, submits:
 - (a) the most advantageous tender; or
 - (b) if price is the sole criterion, the lowest price.
