Article 2.1: Definitions

For purposes of this Chapter:

commercial samples of negligible value means commercial samples having a value, individually or in the aggregate as shipped, of not more than the amount specified in a Party's laws, regulations, or procedures governing temporary admission, or so marked, torn, perforated, or otherwise treated that they are unsuitable for sale or use except as commercial samples;

Article 2.3: National Treatment

Each Party shall accord national treatment to the goods of the other Party in accordance with Article III of GATT 1994 including its interpretative notes. To this end, Article III of GATT 1994 and its interpretative notes shall, *mutatis mutandis*, be incorporated into and form part of this Agreement.

Section C: Tariff Reduction or Elimination

Article 2.4: Reduction or Elimination of Customs Duties

1. Except as otherwise provided in this Agreement, neither Party shall increase any existing customs duty as specified in its Schedule in Annex 2-A, or adopt any new customs duty, on an originating good.
2. Except as otherwise provided in this Agreement, each Party shall gradually reduce or eliminate its customs duties on originating goods in accordance with its Schedule in Annex 2-A.
3. On the request of either Party, the Parties shall consult to consider accelerating the reduction or elimination of customs duties set out in their Schedules in Annex 2-A. An agreement by the Parties to accelerate the reduction or elimination of a customs duty on a good shall supersede any duty rate or staging category determined pursuant to their Schedules in Annex 2-A for that good when approved by each Party in accordance with its applicable legal procedures.
4. A Party may unilaterally accelerate the reduction or elimination of customs duties set out in its Schedule in Annex 2-A at any time if it so wishes. Such Party shall notify the other Party through a diplomatic note immediately after completion of the internal procedures required for the amendments to

enter into force.

5. If at any moment a Party reduces its most-favored-nation (hereinafter referred to as “MFN”) applied rate of customs duty after the entry into force of this Agreement, that duty rate shall apply as regards trade covered by this Agreement if and for as long as it is lower than the customs duty rate calculated in accordance with its Schedule in Annex 2-A.

6. For greater certainty, a Party may:

- (a) raise a customs duty to the level established in its Schedule in Annex 2-A following a unilateral reduction or elimination; or

Article 2.6: Transposition of Schedules of Tariff Commitments

Each Party shall ensure that the transposition of its Schedule of tariff commitments, undertaken in order to implement Annex 2-A in the nomenclature of the revised HS Code following periodic amendments to the HS Code, is carried out without impairing the tariff commitments set out in Annex 2-A, and in accordance with the agreed transposition guidelines, which are to be adopted by the Committee on Trade in Goods.

Section D: Special Regimes

Article 2.7: Temporary Admission of Goods

1. Each Party shall allow, as provided for in its laws and regulations, goods to be brought into its customs territory conditionally relieved, totally or partially, from payment of import duties and taxes if such goods are brought into its customs territory for a specific purpose, are intended for re-exportation within a specific period, and have not undergone any change except normal depreciation and wastage due to the use made of them.

2. Each Party shall, at the request of the person concerned and for reasons its customs administration considers valid, extend the time limit for duty-free temporary admission provided for in paragraph 1 beyond the period initially fixed.

3. Neither Party shall condition the duty-free temporary admission of a good provided for in paragraph 1, other than to require that the good:

- (a) be used solely by or under the personal supervision of a national or resident of the other Party in the exercise of the business activity, trade, profession, or sport of that person;
- (b) not be sold or leased while in its territory;
- (c) be accompanied by a security or guarantee in an amount no greater than the customs duties, taxes, fees, and charges that would otherwise be owed on entry or final importation, releasable on exportation of the good;
- (d) be capable of identification when imported and exported;
- (e) be exported on the departure of the person referred to in subparagraph (a), or within such other period related to the purpose of the temporary admission as the Party may establish, unless extended;
- (f) be admitted in no greater quantity than is reasonable for its intended use; and
- (g) be otherwise admissible into the Party's territory under its laws and regulations.

4. If any condition that a Party imposes under paragraph 3 has not been

fulfilled, the Party may apply the customs duty and any other charge that would normally be owed on the good in addition to any other charges or penalties provided for under its laws and regulations.

5. Each Party shall permit a good temporarily admitted under this Article to be re-exported through a customs port other than that through which it was admitted.

Article 2.8: Duty-free Entry of Commercial Samples of Negligible Value

Each Party shall grant duty-free entry to commercial samples of negligible value imported from the territory of the other Party, regardless of their origin, but may require that the samples be imported solely for the solicitation of orders for goods, or services provided from the territory, subject to its laws and regulations, of the other Party or a non-Party.

Section E: Non-Tariff Measures

Article 2.9: Application of Non-Tariff Measures

1. A Party shall not adopt or maintain any non-tariff measure on the importation of any good of the other Party or on the exportation of any good destined for the territory of the other Party, except in accordance with its WTO rights and obligations or in accordance with this Agreement.

2. Each Party shall ensure the transparency of its non-tariff measures permitted in paragraph 1 of this Article and shall ensure that any such measures are not prepared, adopted or applied with the view to, or with the effect of, creating unnecessary obstacles to trade between the Parties.

Article 2.10: Import and Export Restrictions

1. Except as otherwise provided in this Agreement, neither Party shall adopt or maintain any prohibition or restriction on the importation of any good of the other Party or on the exportation or sale for export of any good destined

for the territory of the other Party, except in accordance with Article XI of GATT 1994 and its interpretative notes, and to this end Article XI of GATT 1994 and its interpretative notes are incorporated into and made a part of this Agreement, *mutatis mutandis*.

2. Where a Party proposes to adopt an import or export prohibition or restriction on foodstuffs or other products in accordance with paragraph 2 of Article XI of GATT 1994, the Party shall:

- (a) make notification in writing to the extent possible before such proposed prohibition or restriction is to take effect; and
- (b) provide the other Party with an adequate opportunity for consultation with respect to any matter related to the proposed prohibition or restriction through appropriate mechanisms, which may include subcommittees or working groups established by the Joint Committee.

Article 2.11: Technical Consultations on Non-Tariff Measures

1. A Party may request technical consultations with the other Party (hereinafter referred to as “the requested Party”) on a measure the Party considers to be adversely affecting its trade. The request shall be in writing and shall clearly identify the measure and the concerns as to how the measures adversely affect trade between the Party requesting technical consultations (hereinafter referred to as “the requesting Party”) and the requested Party.

2. Where the measures are covered by another Chapter, its Chapter-specific consultation mechanism shall be used, unless otherwise agreed between the Parties.

3. Except as provided in Paragraph 2, the requested Party shall respond and enter into technical consultations within 60 days from the receipt of the written request referred to in paragraph 1, unless otherwise determined by the Parties, with a view to reaching a mutually satisfactory solution within 180 days from the request. Technical consultations may be conducted via any means mutually agreed by the Parties.

4. If the requesting Party considers that the matter is urgent or involves

perishable goods, it may request that technical consultations take place within a shorter time frame than that provided for under paragraph 3.

5. The technical consultations under this Article shall be without prejudice to rights and obligations pertaining to dispute settlement proceedings under Chapter Eight (Dispute Settlement) and the WTO Agreement.

Article 2.12: Import Licensing

1. Each Party shall ensure that all automatic and non-automatic import licensing procedures are implemented in a transparent and predictable manner, and applied in accordance with the *Agreement on Import Licensing Procedures* as contained in Annex 1A to the WTO Agreement (hereinafter referred to in this article as “Import Licensing Agreement”). Neither Party shall adopt or maintain a measure that is inconsistent with the Import Licensing Agreement.

2. Promptly after this Agreement enters into force, each Party shall notify the other Party of its existing import licensing procedures, if any. The notification shall:

- (a) include the information specified in Article 5 of the Import Licensing Agreement; and
- (b) be without prejudice as to whether the import licensing procedure is consistent with this Agreement.

3. Before applying any new or modified import licensing procedure, a Party shall publish the new procedure or modification on an official government Internet site. To the extent possible, the Party shall do so at least 21 days before the new procedure or modification takes effect.

4. Neither Party shall apply an import licensing procedure to a good of the other Party unless the Party has complied with the requirements of paragraph 2 and 3 with respect to that procedure.

Article 2.13: Fees and Formalities Connected with Importation and Exportation

1. Each Party shall ensure, in accordance with Article VIII:1 of GATT 1994 that all fees and charges of whatever character (other than import or export duties, charges equivalent to an internal tax or other internal charge applied consistently with Article III:2 of GATT 1994, and anti-dumping and countervailing duties) imposed on or in connection with import or export are limited in amount to the approximate cost of services rendered and do not represent an indirect protection to domestic goods or a taxation on imports or exports for fiscal purposes.

2. Each Party shall promptly publish details of the fees and charges that it imposes in connection with importation or exportation and shall make such information available on the internet.

3. Neither Party shall require consular transactions, including related fees and charges, in connection with the importation of a good of the other Party. Neither Party shall require that any customs documentation supplied in connection with the importation of any good of the other Party be endorsed, certified or otherwise sighted or approved by the importing Party's overseas representatives, or persons or entities with authority to act on the importing Party's behalf, nor impose any related fees or charges.

Article 2.14: State Trading Enterprises

The rights and obligations of the Parties with respect to state trading enterprises shall be governed by Article XVII of GATT 1994, its interpretative notes, and the Understanding on the Interpretation of Article XVII of GATT 1994, which are incorporated into and made part of this Agreement, *mutatis mutandis*.

Article 2.15: Sanitary and Phytosanitary Measures

1. The objective of this Article is to protect human, animal or plant life or health in the Parties' territories while facilitating trade by minimizing the negative effects on trade between the Parties.

2. This Article shall apply to all Sanitary and Phytosanitary (hereinafter referred to as "SPS") measures of the Parties, which may, directly or indirectly, affect trade between the Parties, taking into account definitions

under Annex A to the *Agreement on the Application of Sanitary and Phytosanitary Measures*, contained in Annex 1A to the WTO Agreement (hereinafter referred to as the “SPS Agreement”).

3. The Parties reaffirm their rights and obligations with respect to each other under the SPS Agreement taking into account relevant decisions of the WTO SPS Committee and international standards, guidelines and recommendations.

4. An exporting Party shall provide timely and appropriate information to an importing Party, where there is a significant change in animal or plant health status or food safety issue in that exporting Party that may affect trade.

5. The Parties shall opportunistically exchange information on SPS matters of mutual interest under this Article and strengthen technical cooperation, capacity building and, upon request, consultation opportunities.

6. For purposes of facilitating implementation and communication on SPS matters of this Article, the Parties shall designate contact points as follows:

- (a) for Korea, the Ministry of Agriculture, Food and Rural Affairs;
and
- (b) for Cambodia, the Ministry of Agriculture, Forestry and Fisheries;

or their respective successors.

7. Neither Party shall have recourse to Chapter Eight (Dispute Settlement) for any matter arising under this Article.

Article 2.16: Technical Regulations, Standards and Conformity Assessment Procedures

1. The Parties reaffirm their existing rights and obligations with respect to each other under the *Agreement on Technical Barriers to Trade*, contained in Annex 1A to the WTO Agreement (hereinafter referred to as the “TBT Agreement”).

2. The Parties recognize the importance of the provisions relating to

transparency in the TBT Agreement. In this respect, the Parties shall take into account relevant decisions and recommendations adopted by the WTO Committee on Technical Barriers to Trade since 1 January 1995 (G/TBT/1/Rev.14) as may be revised, issued by the WTO Committee on Technical Barriers to Trade.

3. The Parties agree to use relevant international standards as a basis for technical regulations and to ensure that central government bodies use relevant international standards or their relevant parts as a basis for their conformity assessment procedures, except where, as duly explained upon request, such international standards or relevant parts would be ineffective or inappropriate means for the fulfillment of the legitimate objectives as provided in Articles 2.4 and 5.4 of the TBT Agreement respectively.

4. In determining whether an international standard, guide, or recommendation within the meaning of Articles 2 and 5, and Annex 3 of the TBT Agreement exists, each Party shall apply the Decision of the Committee on Principles for the Development of International Standards, Guides and Recommendations with relation to Articles 2 and 5, and Annex 3 of the Agreement, adopted on 13 November 2000 by the WTO Committee on Technical Barriers to Trade (Annex 2 to PART 1 of G/TBT/1/Rev.14), and any subsequent development thereof. Such international standards shall include, *inter alia*, but are not limited to, those developed by the International Organization for Standardization (ISO), the International Electrotechnical Commission (IEC), the International Telecommunication Union (ITU) and Codex Alimentarius Commission (CAC).

5. Where a Party detains, at a port of entry, goods including testing samples for conformity assessment exported from the other Party due to a perceived failure to comply with a technical regulation or a conformity assessment procedure, the reasons for the detention shall be promptly notified to the importer or his or her representative.

Article 3.2: Origin Criteria

1. For purposes of this Agreement, a good imported into the territory of a Party shall be deemed to be originating and eligible for preferential tariff treatment if it conforms to the origin requirements under any one of the following:

- (a) a good which is wholly obtained or produced in the territory of the exporting Party as set out and defined in Article 3.3;

- (b) a good which is produced in the territory of the exporting Party exclusively from originating materials; or
- (c) a good which is produced in the territory of the exporting Party using non-originating materials, provided that the good satisfies the applicable requirements set out in Annex 3-A.

2. Except as provided for in Article 3.6, the conditions for acquiring originating status set out in this Chapter must be fulfilled without interruption in the territory of the exporting Party.

Article 3.3: Wholly Obtained or Produced Goods

Within the meaning of Article 3.2.1(a), the following shall be considered to be wholly obtained or produced in the territory of a Party:

- (a) plants and plant products harvested, picked or gathered after being grown there;
- (b) live animals born and raised there;
- (c) goods obtained from live animals referred to in subparagraph (b);
- (d) goods obtained from hunting, trapping, fishing, aquaculture, gathering or capturing conducted there;
- (e) minerals and other naturally occurring substances, not included in subparagraphs (a) through (d), extracted or taken from its soil, waters, seabed or beneath its seabed;
- (f) fish, shellfish, and other marine life taken by vessels registered with the Party and entitled to fly its flag, and other products taken by the Party or a person of that Party, from the waters, seabed or beneath the seabed outside the territorial waters of the Party, provided that the Party has the rights to exploit¹ the natural resources of such waters, seabed and beneath the seabed under international law;

¹ For purposes of determining the origin of fish, shellfish, and other marine life, “rights to exploit” in Article 3.3(f) include those rights of access to the fisheries resources of a coastal state, as accruing from any agreements or arrangements between a Party and the coastal state at the level of governments or duly authorized private entities.

- (g) fish, shellfish, and other marine life taken from the high seas by vessels registered with the Party and entitled to fly its flag;
- (h) goods produced or made on board factory ships registered with a Party and entitled to fly its flag, exclusively from products referred to in subparagraph (f) or (g);

- (k) goods obtained or produced in the territory of the Party solely from goods referred to in subparagraphs (a) through (j).

Article 3.4: Calculation of Regional Value Content

The regional value content (hereinafter referred to as “RVC”) of a good, specified in Annex 3-A, shall be calculated by using either of the following formulas:

- (a) Direct/Build-Up Method

$$RVC = \frac{VOM + \text{Direct labor Cost} + \text{Direct Overhead Cost} + \text{Profit} + \text{Other costs}}{FOB} \times 100\%$$

Where:

- (i) VOM is the value of originating materials, parts or goods that are acquired or self-produced by the producer in the production of the good;

- (ii) direct labour cost includes wages, remuneration and other employee benefits;
- (iii) direct overhead cost is the total overhead expense; and
- (iv) other costs are the costs incurred in placing the good in the ship or other means of transport for export including, but not limited to, domestic transport costs, storage and warehousing, port handling, brokerage fees and service charges.

or

- (b) Indirect/Build-Down Method

$$\text{RVC} = \frac{\text{FOB} - \text{VNM}}{\text{FOB}} \times 100\%$$

VNM means value of non-originating materials, which shall be:

- (i) the CIF value at the time of importation of the materials, parts or goods; or
- (ii) the earliest ascertained price paid for the materials, parts or goods of undetermined origin in the territory of the Party where the working or processing has taken place.

Article 3.5: Treatment for Certain Goods

Notwithstanding Article 3.2, certain goods shall be considered to be originating even if the production process or operation has been undertaken in the Gaeseong Industrial Complex located in the Korean Peninsula, on materials exported from a Party and subsequently re-imported to that Party provided that the conditions set out in Annex 3-B are fulfilled.

Article 3.6: Accumulation

1. Unless otherwise provided for in this Chapter, a good originating in the territory of a Party, which is used in the territory of the other Party as material for a finished good eligible for preferential tariff treatment, shall be considered to be originating in the territory of the latter Party where working or processing of the finished good has taken place.

2. The Parties may agree to review this Article with a view to extending the application of the accumulation set out in paragraph 1 for purposes of qualifying goods as originating goods under this Agreement.

Article 3.7: Non-Qualifying Operations

1. Notwithstanding any provisions in this Chapter, a good shall not be considered to be originating in the territory of a Party if the following operations are undertaken exclusively by itself or in combination in the territory of that Party:

- (a) preserving operations to ensure that the good remains in good condition during transport and storage;
- (b) changes of packaging, breaking-up and assembly of packages;
- (c) simple² washing, cleaning, removal of dust, oxide, oil, paint or other coverings;
- (d) ironing or pressing of textiles;
- (e) simple painting and polishing operations;
- (f) husking, partial or total bleaching, polishing and glazing of cereals and rice;
- (g) operations to color sugar or form sugar lumps;
- (h) simple peeling, stoning, or un-shelling;
- (i) sharpening, simple grinding, or simple cutting;
- (j) sifting, screening, sorting, classifying, grading, or matching;
- (k) simple placing in bottles, cans, flasks, bags, cases, boxes, fixing on cards or boards and all other simple packaging operations;
- (l) affixing or printing marks, labels, logos and other like distinguishing signs on products or their packaging;

² For purposes of this Article, “simple” generally describes an activity which does not need special skills, or machines, apparatus, or equipment especially produced or installed for carrying out the activity.

- (m) simple mixing³ of products, whether or not of different kinds;
- (n) simple assembly of parts of articles to constitute a complete article or disassembly of products into parts;
- (o) simple testing or calibrations; or
- (p) slaughtering of animals⁴.

2. A good originating in the territory of a Party shall retain its initial originating status, when exported from the other Party, where operations undertaken have not gone beyond those referred to in paragraph 1.

Article 3.8: Materials Used in Production

If a non-originating material undergoes further production such that it satisfies the requirement of this Chapter, the material shall be treated as originating when determining the originating status of the subsequently produced good, regardless of whether that material was produced by the producer of the good.

Article 3.9: Direct Consignment

1. Preferential tariff treatment shall be applied to a good satisfying the requirements of this Chapter and which is transported directly between the territories of the exporting Party and the importing Party.

2. Notwithstanding paragraph 1, a good of which transport involves transit through one or more intermediate third countries, other than the territories of the exporting Party and the importing Party, shall be considered to be consigned directly, provided that:

- (a) the good remains under the control of the customs administrations in the intermediate countries; and

³ For purposes of this Article, “simple mixing” generally describes an activity which does not need special skills, or machines, apparatus, or equipment especially produced or installed for carrying out the activity. However, simple mixing does not include chemical reaction. Chemical reaction means a process (including a biochemical process) which result in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule.

⁴ “Slaughtering” means the mere killing of animals and subsequent processes such as cutting, chilling, freezing, salting, drying or smoking, for purposes of preservation for storage and transport.

- (b) the good has not undergone any operation other than unloading and reloading, storing, or any operation required to keep it in good condition.

Article 3.10: De Minimis

1. A good that does not undergo a change in tariff classification shall be considered as originating if:

- (a) for a good, other than that provided for in Chapters 50 through 63 of the Harmonized System, the value of all non-originating materials used in its production that do not undergo the required change in tariff classification does not exceed 10 percent of the FOB value of the good;
- (b) for a good provided for in Chapters 50 through 63 of the Harmonized System, the weight of all non-originating materials used in its production that do not undergo the required change in tariff classification does not exceed 10 percent of the total weight of the good;

and the good specified in subparagraphs (a) and (b) meets all other applicable criteria set forth in this Chapter for qualifying as an originating good.

2. The value of non-originating materials referred to in paragraph 1 shall, however, be included in the value of non-originating materials for any applicable RVC requirement for the good.

Article 3.11: Treatment of Packaging and Packing Materials

1. Packing materials and containers for the transportation and shipment of a good shall not be taken into account in determining the originating status of any good.

2. Packing materials and containers in which a good is packaged for retail sale, which are classified together with the good, shall not be taken into account in determining the originating status of the good, provided that:

- (a) the good is wholly obtained or produced in a Party in accordance with Article 3.2.1(a);
- (b) the good is produced in a Party exclusively from originating materials, in accordance with Article 3.2.1(b); or

- (c) the good is subject to a change in tariff classification or a specific manufacturing or processing operation requirement provided in Annex 3-A.

3. If a good is subject to the RVC requirement, the value of the packaging materials and containers in which the good is packaged for retail sale shall be taken into account as originating materials or non-originating materials of the good, as the case may be, in calculating the RVC of the good.

Article 3.12: Accessories, Spare Parts and Tools

1. For purposes of determining the originating status of a good, accessories, spare parts, tools, and instructional or other information materials presented with the good shall be considered as part of the good and shall be disregarded in determining whether all the non-originating materials used in the production of the good have undergone the applicable change in tariff classification or a specific manufacturing or processing operation set out in Annex 3-A, provided that:

- (a) the accessories, spare parts, or tools, and instructional or other information materials presented with the good are not invoiced separately from the good; and
- (b) the quantities and value of the accessories, spare parts, tools, and instructional or other information materials presented with the good are customary for the good.

2. Notwithstanding paragraph 1, if a good is subject to a RVC criterion as set out in Annex 3-A, the value of the accessories, spare parts, tools, and instructional or other information materials presented with the good shall be taken into account as originating or non-originating materials as the case may be, in calculating the RVC of the good, provided that:

- (a) the accessories, spare parts, or tools, and instructional or other information materials presented with the good are not invoiced separately from the good; and
- (b) the quantities and value of the accessories, spare parts, tools, and instructional or other information materials presented with the good are customary for the good.

Article 3.13: Neutral Elements

In order to determine whether a good originates, it shall not be necessary to determine the origin of the following which might be used in its production and not incorporated into the good:

- (a) fuel and energy;
- (b) tools, dies and moulds;
- (c) spare parts and materials used in the maintenance of equipment and buildings;
- (d) lubricants, greases, compounding materials and other materials used in production or used to operate equipment and buildings;
- (e) gloves, glasses, footwear, clothing, safety equipment and supplies;
- (f) equipment, devices and supplies used for testing or inspecting the good;
- (g) catalysts and solvents; and
- (h) any other goods that are not incorporated into the good but of which use in the production of the good can reasonably be demonstrated to be a part of that production.

Article 3.14: Fungible Goods or Materials

The determination of whether fungible goods or materials are originating shall be made either by physical segregation of each of the fungible goods or materials or, where commingled, by the use of an inventory management method which is recognized in the Generally Accepted Accounting Principles of the exporting Party, and should be used throughout the fiscal year.

Section B: Operational Certification Procedures

Article 3.15: Proof of Origin

1. Any of the following shall be considered as a Proof of Origin:
 - (a) a Certificate of Origin issued by an issuing body in accordance with Article 3.16; or
 - (b) a Declaration of Origin by an approved exporter in accordance with Article 3.17.
2. A Proof of Origin shall:
 - (a) be in writing, or any other medium, including electronic format as notified by an importing Party;
 - (b) specify that the good is originating and meets the requirements of this Chapter; and
 - (c) contain information which meets the minimum information requirements as set out in Annex 3-C.
3. Each Party shall provide that a Proof of Origin remains valid for one year from the date on which it is issued or completed.

Article 3.16: Certificate of Origin

1. A Certificate of Origin shall be issued by the issuing body of an exporting Party upon an application by an exporter, a producer, or their authorized representative.
2. The exporter, producer, or their authorized representative shall apply in writing or by electronic means for a Certificate of Origin, to the issuing body of the exporting Party in accordance with the exporting Party's laws, regulations, and procedures.
3. A Certificate of Origin shall:
 - (a) be in the format set out in Annex 3-D;
 - (b) bear a unique Certificate of Origin number;
 - (c) be in the English language; and

- (d) bear an authorized signature and official seal of the issuing body of the exporting Party. The signature and seal shall be applied manually or electronically.

4. A Certificate of Origin may:

- (a) indicate two or more invoices issued for a single shipment;
or
- (b) contain multiple goods, provided that each good qualifies as an originating good separately in its own right.

5. In circumstances where a Certificate of Origin contains incorrect information, the issuing body of the exporting Party may:

- (a) issue a new Certificate of Origin and invalidate the original Certificate of Origin; or
- (b) make modifications to the original Certificate of Origin by striking out errors and making any additions or corrections. Any changes shall be certified by the authorized signature and official seal of the issuing body of the exporting Party.

6. Each Party shall provide the names, specimen signatures⁵, addresses, and impressions of official seals of its issuing body to the other Party. Any subsequent changes shall be promptly notified. The Parties shall endeavor to establish a secured website to display such information from the last three years, and such website shall be accessible to the Parties.

7. A Certificate of Origin shall be issued prior to or at the time of shipment, or within seven calendar days⁶ after the date of shipment. In exceptional cases where a Certificate of Origin has not been issued prior to or at the time of shipment, or within seven calendar days after shipment due to involuntary errors, omissions, or other valid causes, or in the circumstances referred to in subparagraph 5(a), a Certificate of Origin may be issued retrospectively but no later than one year after the date of shipment. In that case, the Certificate of Origin shall bear the words “ISSUED RETROACTIVELY”.

⁵ The requirement to circulate the specimen signatures is not necessary when the issuing authority has established the website containing relevant information of Certificate of Origin that the importing Party can access.

⁶ For greater certainty, “seven calendar days” shall include the date of shipment itself.

8. In the event of theft, loss, or destruction of an original Certificate of Origin, the exporter, producer, or their authorized representative may apply in writing to the issuing body of the exporting Party for a certified true copy of the original Certificate of Origin. The copy shall:

- (a) be issued no later than one year after the date of issuance of the original Certificate of Origin;
- (b) be based on the application for the original Certificate of Origin;
- (c) contain the same Certificate of Origin number and date as the original Certificate of Origin; and
- (d) be endorsed with the words “CERTIFIED TRUE COPY”.

Article 3.17: Declaration of Origin

1. A Declaration of Origin referred to in Article 3.15.1(b) may be completed by an approved exporter within the meaning of Article 3.19.

2. A Declaration of Origin shall:

- (a) be completed in accordance with Annex 3-C;
- (b) be in the English language;
- (c) bear the name and signature of the certifying person; and
- (d) bear the date on which the Declaration of Origin was completed.

An importing Party shall not deny a claim for preferential tariff treatment for the sole reason that an invoice was not issued by the exporter or producer of a good provided that the good meets the requirements in this Chapter.

Article 3.19: Approved Exporter

1. Each Party shall provide for the authorization of an exporter who exports goods under this Agreement as an approved exporter, in accordance with its laws and regulations. An exporter seeking such authorization must

apply in writing or electronically and must offer to the satisfaction of the competent authority of the exporting Party all guarantees necessary to verify the originating status of the good for which a Declaration of Origin is completed. The competent authority of an exporting Party may grant the status of approved exporter subject to any conditions which it considers appropriate, including the following:

- (a) that the exporter is duly registered in accordance with the laws and regulations of the exporting Party;
- (b) that the exporter knows and understands the rules of origin as set out in this Chapter;
- (c) that the exporter has a satisfactory level of experience in export in accordance with the laws and regulations of the exporting Party;
- (d) that the exporter has a record of good compliance, measured by risk management of the competent authority of the exporting Party;
- (e) that the exporter, in the case of a trader, is able to obtain a declaration by the producer confirming the originating status of the good for which the Declaration of Origin is completed by an approved exporter and the readiness of the producer to cooperate in verification in accordance with Article 3.22 and meet all requirements of this Chapter; and
- (f) that the exporter has a well-maintained bookkeeping and record-keeping system, in accordance with the laws and regulations of the exporting Party.

Annex 3-A
Product Specific Rules

Headnotes to the Schedule

1. Pursuant to Article 3.2, this Annex sets out the conditions required for a good to be treated as an originating good.
2. For greater certainty, the origin criteria of “wholly obtained or produced in the territory of the exporting Party” and “produced in the territory of the exporting Party exclusively from originating materials”, as provided in Article 3.2.1(a) and 3.2.1(b), apply to all tariff lines.
3. For purposes of interpreting the Product-Specific Rules set out in this Annex:
 - (a) section means a section of the Harmonized System;
 - (b) chapter means the first two digits of the tariff classification number under the Harmonized System;
 - (c) heading means the first four digits of the tariff classification number under the Harmonized System; and
 - (d) subheading means the first six digits of the tariff classification number under the Harmonized System.
4. Where a good is subject to alternative Product-Specific Rules, the rule will be considered to be met if the good satisfies one of the alternative Product-Specific Rules.
5. A requirement of a change in tariff classification (hereinafter referred to as “CTC” in this Annex) applies only to non-originating materials.
6. For purposes of this Annex:
 - (a) RVC40 means that the good must have a regional value content (hereinafter referred to as “RVC” in this Annex) of not less than 40 per cent as calculated under Article 3.4;

- (b) CC means that all non-originating materials used in the production of the good have undergone a CTC at the two-digit level of the Harmonized System;
- (c) CTH means that all non-originating materials used in the production of the good have undergone a CTC at the four-digit level of the Harmonized System;
- (d) CTSH means that all non-originating materials used in the production of the good have undergone a CTC at the six-digit level of the Harmonized System; and
- (e) WO means wholly obtained or produced in a Party as provided in Article 3.3. For greater certainty, where the rule for a good is WO, the good can still meet the requirements to be treated as an originating good by being produced in the territory of the exporting Party exclusively from originating materials, as provided Article 3.2.1(b).

7. This Annex is based on the Harmonized System as amended on 1 January 2017 (hereinafter referred to as “HS 2017” in this Annex).

For purposes of this Chapter:

- (a) **customs procedure** means the measures applied by the customs administration to goods and to the means of transport that are subject to its customs laws and regulations; and
- (b) **means of transport** means various types of vessels, vehicles, and aircrafts which enter or leave the customs territory of a Party carrying natural persons, goods, or articles.

Article 4.2: Objectives

The objectives of this Chapter are to:

- (a) ensure predictability, consistency, and transparency in the application of customs laws and regulations of the Parties;
- (b) promote efficient administration of customs procedures of the Parties, and the expeditious clearance of goods;
- (c) simplify customs procedures of the Parties and harmonize them to the extent possible with relevant international standards;
- (d) promote cooperation between the customs administrations; and
- (e) facilitate trade between the Parties, including through a strengthened environment for global and regional supply chains.

Article 4.3: Scope

This Chapter shall apply to customs procedures applied to goods traded between the Parties and to the means of transport which enter or leave the customs territory of each Party.

Article 4.4: Consistency

1. Each Party shall ensure that its customs laws and regulations are consistently implemented and applied throughout its customs territory.
2. In fulfilling the obligation in paragraph 1, each Party shall endeavor to adopt or maintain administrative measures to ensure consistent implementation and application of its customs laws and regulations throughout its customs territory, preferably by establishing an administrative mechanism which assures consistent application of the customs laws and regulations of that Party among its regional customs offices.

Article 4.5: Transparency

1. Each Party shall promptly publish, on the internet to the extent possible, the following information in a non-discriminatory and easily accessible manner in order to enable governments, traders, and other interested persons to become acquainted with them:
 - (a) procedures for importation, exportation, and transit (including port, airport, and other entry-point procedures), and required forms and documents;
 - (b) applied rates of duties and taxes of any kind imposed on or in connection with importation or exportation;
 - (c) fees and charges imposed by or for governmental agencies on or in connection with importation, exportation, or transit;
 - (d) rules for the classification or valuation of products for customs purposes;

 - (h) procedures for appeal or review;

- (i) agreements to which it is party, or parts thereof with any country or countries relating to importation, exportation, or transit; and
- (j) procedures relating to the administration of tariff quotas.

2. In particular, each Party shall make available, and update to the extent possible and as appropriate, the following through the internet:

- (a) a description¹ of its procedures for importation, exportation, and transit, including procedures for appeal or review, that informs governments, traders, and other interested persons of the practical steps needed for importation, exportation, and transit;
- (b) the forms and documents required for importation into, exportation from, or transit through the territory of that Party; and
- (c) contact information for the inquiry points as well as information on how to make inquiry on customs matters as provided for in Article 4.6.

3. To the extent possible, when developing new, or amending existing, customs laws and regulations, each Party shall publish, or otherwise make readily available such proposed new or amended customs laws and regulations and provide a reasonable opportunity for interested persons to comment on the proposed customs laws and regulations, unless such advance notice is precluded.

Article 4.6: Inquiry Points

Each customs administration shall designate one or more inquiry points to answer reasonable inquiry of interested persons concerning customs matters and to facilitate access to forms and documents required for importation, exportation, and transit.

Article 4.7: Customs Procedures

¹ Each Party has the discretion to state on its website the legal limitations of this description.

1. Each customs administration shall ensure that its customs procedures and practices are predictable, consistent, and transparent, and facilitate trade, including through the expeditious clearance of goods.
2. Each customs administration shall ensure that its customs procedures, where possible and to the extent permitted by its customs laws and regulations, conform with the standards and recommended practices of the World Customs Organization.
3. The customs administration shall review its customs procedures with a view to simplifying such procedures to facilitate trade.

Article 4.8: Preshipment Inspection

1. Each Party shall not require the use of preshipment inspections in relation to tariff classification and customs valuation.
2. Without prejudice to the rights of any Party to use other types of preshipment inspection not covered by paragraph 1, each Party is encouraged not to introduce or apply new requirements regarding their use.
3. Paragraph 2 refers to preshipment inspections covered by the Agreement on Preshipment Inspection in Annex 1A to the WTO Agreement, and does not preclude preshipment inspections for sanitary and phytosanitary purposes.

Article 4.9: Advance Rulings

1. Each Party shall, prior to the importation of a good from a Party into its territory, issue a written advance ruling to an importer, exporter, or any person with a justifiable cause, or a representative thereof, who has submitted a written request containing all necessary information, with regard to:
 - (a) tariff classification;
 - (b) whether the good is an originating good in accordance with Chapter Three (Rules of Origin);
 - (c) the appropriate method or criteria, and the application thereof, to be used for determining the customs value under a particular set of facts, in accordance with the Customs Valuation Agreement; and
 - (d) such other matters as the Parties may agree.

2. A Party may require that an applicant have legal representation or registration in that Party. To the extent possible, such requirements shall not restrict the categories of persons eligible to apply for advance rulings, with particular consideration for the specific needs of small and medium enterprises. These requirements shall be clear and transparent and not constitute a means of arbitrary or unjustifiable discrimination^{2, 3}

3. Each Party shall adopt or maintain procedures for issuing advance rulings which:

- (a) specify the information required to apply for an advance ruling;
- (b) provide that each Party may at any time during the course of an evaluation of an application for an advance ruling, request that the applicant provide additional information, which may include a sample of the goods, necessary to evaluate the application;
- (c) ensure that an advance ruling is based on the facts and circumstances presented by the applicant and any other relevant information in the possession of the decision-maker; and
- (d) ensure that the advance ruling includes the relevant facts and the basis for its decision.

4. Each Party shall issue an advance ruling within 90 days on receipt of all necessary information.

5. A Party may decline to issue an advance ruling if the facts and circumstances forming the basis of the advance ruling are the subject of administrative or judicial review. A Party that declines to issue an advance ruling shall promptly notify the applicant in writing, setting forth the relevant facts, circumstances, and the basis for its decision to decline to issue the advance ruling.

² On request of a Party, the Parties may review the requirements of this paragraph in terms of their contribution towards the trade facilitation through the Committee on Rules of Origin and Customs Procedures.

³ Each Party shall ensure that its registration process is transparent, applications are considered in a timely manner, and the decision made on an application, and the reasons for it, are promptly advised to the applicant in writing.

6. A Party may reject a request for an advance ruling where the additional information requested, in writing, in accordance with subparagraph 3(b) is not provided within a reasonable and specified period, which is determined at the time of the request for additional information and the Party requests the additional information from the applicant in writing.

7. Each Party shall establish a validity period for an advance ruling of three years from the date of its issuance.

8. Where a Party revokes, modifies, or invalidates an advance ruling, it shall promptly provide a written notice to the applicant setting out the relevant facts and the basis for its decision, where:

- (a) there is a change in its laws, regulations, or administrative rules;
- (b) incorrect information was provided or relevant information was withheld;
- (c) there is a change in a material fact or circumstances on which the advance ruling was based; or
- (d) the advance ruling was in error.

9. Where a Party revokes, modifies, or invalidates an advance ruling with retroactive effect, it may only do so where the ruling was based on incomplete, incorrect, false, or misleading information.

10. Each Party may make publicly available any information on advance rulings which it considers to be of significant interest to other interested parties, taking into account the need to protect commercially confidential information.

Article 4.10: Release of Goods

1. The customs administration of each Party shall adopt or maintain simplified customs procedures for the efficient release of goods in order to facilitate trade between the Parties. This paragraph shall not require a Party to release a good if its requirements for release have not been met.

2. Pursuant to paragraph 1, each Party shall adopt or maintain procedures that allow the goods to be cleared from customs within a period no longer than that required to ensure compliance with its customs law.

3. For goods selected for further examination, such an examination shall be limited to what is reasonable and necessary, and undertaken and completed without undue delay.

4. Each Party shall adopt or maintain procedures allowing the release of goods, prior to the final determination of customs duties, taxes, fees, and charges if such determination is not done prior to, or upon arrival or as rapidly as possible after arrival and provided that all other regulatory requirements have been met. As a condition for such release, a Party may require a guarantee in accordance with its laws and regulations that does not exceed the amount the Party requires to ensure payment of customs duties, taxes, fees, and charges ultimately due for the goods covered by the guarantee.

5. With a view to preventing avoidable loss or deterioration of perishable goods, and provided that all regulatory requirements have been met, each Party may provide for the release of perishable goods from customs control:

- (a) under normal circumstances in the shortest possible time; and
- (b) in exceptional circumstances where it would be appropriate to do so, outside the business hours of its customs administration.

6. Each Party may give appropriate priority to perishable goods when scheduling any examinations that may be required.

7. Each Party may either arrange or allow an importer to arrange for the proper storage of perishable goods pending their release. Each Party may require that any storage facilities arranged by the importer have been approved or designated by its relevant authorities. The movement of the goods to those storage facilities, including authorizations for the operator moving the goods, may be subject to the approval, where required, of the relevant authorities. Each Party may, where practicable and consistent with domestic legislation, on the request of the importer, provide for any procedures necessary for release to take place at those storage facilities.

Article 4.11: Risk Management

1. Each Party shall adopt or maintain a risk management approach and techniques for customs control.

2. Each Party shall design and apply risk management in a manner so as to avoid arbitrary or unjustifiable discrimination, or disguised restrictions on international trade.

3. Each Party shall concentrate customs control and, to the extent possible other relevant border controls, on high risk consignments and expedite the release of low risk consignments. Each Party may also select, on a random basis, consignments for such controls as part of its risk management.

4. Each Party shall base risk management on the risk assessment through appropriate selectivity criteria. Such selectivity criteria may include, inter alia, HS code, nature and description of the goods, country of origin, country from which the goods were shipped, value of the goods, compliance record of traders, and type of means of transport.

5. The customs administration of each Party shall exchange best practices on risk management techniques.

Article 4.12: Post-clearance Audit

1. With a view to expediting the release of goods, each Party shall adopt or maintain post-clearance audit to ensure compliance with its customs and other related laws and regulations.

2. Each Party shall select a person or a consignment for post-clearance audit in a risk-based manner, which may include appropriate selectivity criteria. Each Party shall conduct post-clearance audits in a transparent manner. Where the person is involved in the audit process and conclusive results have been achieved, the Party shall, without delay, notify the person whose record was audited of the:

- (a) results;
- (b) reasons for the results; and
- (c) person's rights and obligations.

3. The Parties acknowledge that the information obtained in post-clearance audit may be used in further administrative or judicial proceedings.

4. Each Party shall, wherever practicable, use the result of post-clearance audit in applying risk management.

Article 4.13: Time Release Studies

1. Each Party is encouraged to measure the time required for the release of goods by its customs administration periodically and in a consistent manner, and to publish the findings thereof, using tools such as the *Guide to Measure*

the Time Required for the Release of Goods issued by the World Customs Organization with a view to:

- (a) assessing its trade facilitation measures; and
- (b) considering opportunities for further improvement of the time required for the release of goods.

2. Each Party is encouraged to share its experiences in the time release studies referred to in paragraph 1, including methodologies used and bottlenecks identified.

Article 4.14: Review and Appeal

1. Each Party shall provide that any person to whom its customs administration issues an administrative decision⁴ has the right, within its territory, to:

- (a) an administrative appeal to or review by an administrative authority higher than or independent of the official or office that issued the decision; and
- (b) a judicial appeal or review of the decision.

2. Each Party shall allow an exporter or producer to provide information directly to the Party conducting the review and to request that Party to treat that information as confidential in accordance with Article 4.15.

Article 4.15: Confidentiality

Where a Party provides information to the other Party and designates the information as confidential, the Party receiving the information shall maintain the confidentiality of the information, in accordance with its laws and regulations.

⁴ For purposes of this Article, “administrative decision” means a decision with a legal effect that affects the rights and obligations of a specific person in an individual case. It shall be understood that an administrative decision referred to in this Article covers an administrative action within the meaning of Article X of GATT 1994 or failure to take an administrative action or decision as provided for in a Party’s laws and regulations and legal system. For addressing such failure, a Party may maintain an alternative administrative mechanism or judicial recourse to direct the customs administration to promptly issue an administrative decision in place of the right to appeal or review under subparagraph 1(a).

Article 4.16: Customs Cooperation

1. The customs administration of both Parties may, as deemed appropriate, assist each other, in relation to:

- (a) the implementation and operation of this Chapter;
- (b) developing and implementing customs best practice and risk management techniques;
- (c) simplifying and harmonizing customs procedures;
- (d) advancing technical skills and the use of technology;
- (e) application of the WTO Customs Valuation Agreement;
- (f) exchanging FTA implementation statistics, formats and types of which are to be mutually agreed by both Parties; and
- (g) such other customs issues as the Parties may mutually determine.

2. The customs administration of both Parties may, as deemed appropriate, share information and experiences on development of customs administration.

3. Each Party shall, to the extent possible, provide the other Party with timely notice of any significant administrative change, modification of laws or regulations, or similar measures related to its laws or regulations that govern importations or exportations, that is likely to substantially affect the operation of this Chapter. The notice can be made in the English language or the Party's language and will be provided to the contact point designated pursuant to Article 4.17.

Article 4.17: Consultation and Contact Points

1. The customs administration of each Party may at any time request consultations with the customs administration of the other Party on any significant matter arising from the implementation or operation of this Chapter, in cases where there are reasonable grounds or truth provided by the requesting Party.

2. In the event that such consultations fail to resolve any such matter, the requesting Party may refer the matter to the Committee on Rules of Origin and Customs Procedures referred to in Article 4.18 for further consideration.

3. Each customs administration shall designate one or more contact points for purposes of this Chapter. Information on the contact points shall be provided to the other Party and any amendment of the said information shall be notified promptly.

Article 4.18: Committee on Rules of Origin and Customs Procedures

1. The Parties hereby establish a Committee on Rules of Origin and Customs Procedures (hereinafter referred to as the “Committee”) composed of representatives⁵ designated by each Party.

2. The Committee shall ensure the proper functioning of this Chapter and Chapter Three (Rules of Origin) and examine all the issues arising from the application of these Chapters.

3. The functions of the Committee may include:

- (a) reviewing, discussing, proposing and making appropriate recommendations to the Joint Committee, as necessary, on:
 - (i) the effective, uniform and consistent administration of this Chapter and Chapter Three (Rules of Origin); including their interpretations and applications, and the enhancement of cooperation in relation to these Chapters; and
 - (ii) revising Annex 3-A (Product Specific Rules) on the basis of the transposition of the Harmonized System (hereinafter referred to as the “HS”).

- (c) reviewing the possibility of revision and reaching agreement on revision of this Chapter and Chapter Three (Rules of Origin); and
- (d) dealing with other matters referred to the Committee by the Joint Committee.

⁵ For Korea, the representative will be Korea’s customs administration. For Cambodia, there shall be co-leads representing ROO and CPTF.

4. The Committee shall meet every year, or as otherwise agreed, alternating between the Parties.

CHAPTER FIVE TRADE REMEDIES

Section A: Safeguard Measures

Article 5.1: Definitions

For purposes of this Section:

domestic industry means, with respect to an imported good, the producers as a whole of the like or directly competitive good operating in the territory of a Party, or those producers whose collective output of the like or directly competitive good constitutes a major proportion of the total domestic production of that good;

safeguard measure means a measure described in Article 5.2;

serious injury means a significant overall impairment in the position of a domestic industry;

threat of serious injury means serious injury that, on the basis of facts and not merely on allegation, conjecture, or remote possibility, is clearly imminent; and

transition period means, in relation to a particular good, the period from the date of entry into force of this Agreement until three years after the date of completion of tariff reduction or elimination in accordance with that Party's Schedule of tariff commitments in Annex 2-A (Reduction or Elimination of Customs Duties).

Article 5.2: Application of a Safeguard Measure

1. If, as a result of the reduction or elimination of a customs duty under this Agreement, an originating good of the other Party is being imported into the territory of a Party in such increased quantities, in absolute terms or relative to domestic production, and under such conditions so as to substantially cause serious injury or threat of serious injury to the domestic industry producing a like or directly competitive good, the Party may, to the extent necessary to prevent or remedy the serious injury to its domestic industry and to facilitate its domestic industry's adjustment:

- (a) suspend the further reduction of any rate of customs duty on the good provided for under this Agreement; or

- (b) increase the rate of customs duty on the good to a level not to exceed the lesser of:
 - (i) the most-favored-nation (MFN) applied rate of customs duty on the good in effect at the time the safeguard measure is taken; or
 - (ii) the base rate of customs duty specified in the Schedules included in Annex 2-A (Reduction or Elimination of Customs Duties) pursuant to Article 2.4 (Reduction or Elimination of Customs Duties).
2. The Parties understand that neither tariff rate quotas nor quantitative restrictions are permissible forms of a safeguard measure.

Article 5.3: Conditions and Limitations

1. A Party shall notify the other Party in writing on initiation of an investigation described in paragraph 2 and shall consult with the other Party as far in advance as practicable prior to applying a safeguard measure, with a view to reviewing the information arising from the investigation and exchanging views on the safeguard measure.
2. A Party shall apply a safeguard measure only following an investigation by the Party's competent authorities in accordance with Articles 3 and 4.2(c) of the Safeguards Agreement, and to this end, Articles 3 and 4.2(c) of the Safeguards Agreement are incorporated into and made a part of this Agreement, *mutatis mutandis*.
3. In the investigation described in paragraph 2, the Party shall comply with the requirements of Article 4.2(a) of the Safeguards Agreement, and to this end, Article 4.2(a) of the Safeguards Agreement is incorporated into and made a part of this Agreement, *mutatis mutandis*.
4. Each Party shall ensure that its competent authorities complete any such investigation within one year of its date of initiation.
5. Neither Party shall apply a safeguard measure:
- (a) except to the extent, and for such time, as may be necessary to prevent or remedy serious injury and to facilitate adjustment;
 - (b) for a period exceeding two years, except that the period may be extended by up to one year if the competent authorities of the

importing Party determine, in conformity with the procedures specified in this Article, that the measure continues to be necessary to prevent or remedy serious injury and to facilitate adjustment and that there is evidence that the industry is adjusting, provided that the total period of application of a safeguard measure, including the period of initial application and any extension thereof, shall not exceed three years; or

(c) beyond the expiration of the transition period.

6. A Party shall not apply a safeguard measure more than once on the same good until a period of time equal to the duration of the previous safeguard measure, including any extension, has elapsed commencing from the termination of the previous safeguard measure, provided that the period of non-application is at least two years.

7. Where the expected duration of the safeguard measure is over one year, the importing Party shall progressively liberalize it at regular intervals.

8. When a Party terminates a safeguard measure, the rate of customs duty shall be the rate that, according to the Party's Schedule in Annex 2-A (Reduction or Elimination of Customs Duties), would have been in effect but for the safeguard measure.

Article 5.4: Provisional Safeguard Measures

1. In critical circumstances where delay would cause damage that would be difficult to repair, a Party may apply a safeguard measure, which shall take the form of the measures set out in Article 5.2.1(a) or 5.2.1(b), on a provisional basis pursuant to a preliminary determination by its competent authorities that there is clear evidence that imports of an originating good of the other Party have increased as the result of the reduction or elimination of a customs duty under this Agreement, and such imports substantially cause serious injury or threat of serious injury to the domestic industry.

2. Before a Party's competent authorities may make a preliminary determination, the Party shall in accordance with its domestic laws and regulations publish a public notice in its official journal setting forth how interested parties, including importers and exporters, may obtain a non-confidential copy of the application requesting a provisional safeguard measure, and shall to the extent practicable, provide interested parties adequate opportunity after the date it publishes the notice to submit evidence and views regarding the application of a provisional safeguard measure.

3. The applying Party shall notify the other Party before applying a

safeguard measure on a provisional basis, and shall initiate consultations immediately after applying the provisional safeguard measure.

4. The duration of any provisional safeguard measure shall not exceed 200 days, during which time the Party shall comply with the requirements of Articles 5.3.2 and 5.3.3.

5. The Party shall promptly refund any tariff increases if the investigation described in Article 5.3.2 does not result in a finding that the requirements of Article 5.2 are met. The duration of any provisional safeguard measure shall be counted as part of the period described in Article 5.3.5(b).

Article 5.5: Compensation

1. Within 30 days after a Party applies a safeguard measure, the Party shall afford an opportunity for the other Party to consult with it regarding adequate means of trade compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the safeguard measure. The applying Party shall provide such compensation as the Parties mutually agree.

2. If the Parties are unable to agree on compensation through consultations under paragraph 1 within 30 days after the consultations begin, the Party against whose originating good the safeguard measure is applied may suspend the application of concessions with respect to originating goods of the applying Party that have trade effects substantially equivalent to the safeguard measure.

3. The right of suspension referred to in paragraph 2 shall not be exercised for the first two years during which the safeguard measure is in effect, provided that the safeguard measure has been taken as a result of an absolute increase in imports and that such a safeguard measure conforms to the provisions of this Section.

4. The applying Party's obligation to provide compensation under paragraph 1 and the other Party's right to suspend concessions under paragraph 2 shall terminate on the date the safeguard measure terminates.

5. Any compensation shall be based on the total period of application of the provisional safeguard measure and of the safeguard measure.

Article 5.6: Global Safeguard Measures

1. Each Party retains its rights and obligations under Article XIX of GATT

1994 and the Safeguards Agreement. This Agreement does not confer any additional rights or obligations on the Parties with regard to measures taken under Article XIX of GATT 1994 and the Safeguards Agreement.

2. At the request of the other Party, the Party intending to take a global safeguard measure shall provide immediately written notification of all pertinent information on the initiation of a global safeguard investigation, the preliminary determination and the final finding of the investigation.

3. Neither Party shall apply, with respect to the same good, at the same time:

- (a) a provisional safeguard measure or a safeguard measure; and
- (b) a measure under Article XIX of GATT 1994 and the Safeguards Agreement.

Section B: Anti-Dumping and Countervailing Duties

Article 5.7: General Provisions

1. Except as otherwise provided for in this Agreement, each Party retains its rights and obligations under Article VI of GATT 1994, Anti-Dumping Agreement and SCM Agreement with regard to the application of anti-dumping and countervailing duties.

2. The Parties shall ensure as soon as possible, after any imposition of provisional measures and in any case before the final determination, full and meaningful disclosure of all essential facts and considerations which form the basis for the decision to apply measures, without prejudice to Article 6.5 of the Anti-Dumping Agreement and Article 12.4 of the SCM Agreement. Disclosures shall be made in writing, and interested parties shall be allowed sufficient time to make their comments.

3. The Parties shall observe the following practices in anti-dumping or countervailing cases between them in order to enhance transparency in the implementation of the WTO Agreement:

- (a) when dumping margins are established, assessed, or reviewed under Articles 2, 9.3, 9.5, and 11 of the Anti-Dumping Agreement whether on the weighted-to-weighted basis, transaction-to-transaction basis, or weighted-to-transaction basis under Article 2.4.2 of the Anti-Dumping Agreement, all individual margins, whether positive or negative, should be counted toward the

average; and

- (b) the investigating Party shall request an exporter or producer in the territory of the other Party for the timely response to its questionnaires. When the investigating Party finds major deficiency in information in a questionnaire response from relevant exporter or producer received before the deadline or requires clarifications for the purposes of investigation, the investigating Party shall demand missing information or request clarification of information concerning the answers to the questionnaires. This procedure shall not be used to cause unwarranted delays in the investigation or to circumvent the deadlines which are provided in the Party's domestic laws and regulations.

4. If a decision is taken to impose an anti-dumping duty pursuant to Article 9.1 of the Anti-Dumping Agreement, the Party taking such a decision, may apply the 'lesser duty' rule, by imposing a duty which is less than the dumping margin where such lesser duty would be adequate to remove the injury to the domestic industry.

Article 5.8: Notification and Consultations

1. Upon receipt by a Party's competent authorities of a properly documented anti-dumping application with respect to imports from the other Party, and no later than 15 days before initiating an investigation, the Party shall provide written notification to the other Party of its receipt of the application.

2. Upon receipt by a Party's competent authorities of a properly documented countervailing duty application with respect to imports from the other Party, and before initiating an investigation, the Party shall, as appropriate and in conformity with the procedural rules provided for in the domestic laws and regulations of the Party, provide written notification to the other Party of its receipt of the application and afford the other Party a meeting to consult with its competent authorities regarding the application.

3. The Parties affirm their rights and obligations under Annex II of the Anti-Dumping Agreement and in particular its paragraph 5, and under Articles 12.7 and 12.8 of the SCM Agreement. In the event the investigating authorities intend to make a determination on the basis of the facts available pursuant to Article 6.8 of the Anti-Dumping Agreement and Article 12.7 of the SCM Agreement, the investigating authorities shall endeavor to provide a reasoned and adequate explanation of:

- (a) indication of conditions under which the use of facts available is applicable;
- (b) the information which interested parties have failed to submit to the investigating authorities; and
- (c) the facts with which the investigating authorities decided to replace the information referred to in subparagraph (b).

Article 5.9: Undertakings

1. After the importing Party's competent authorities initiate an anti-dumping or countervailing duty investigation, the importing Party shall transmit to the exporting Party's embassy located in the importing Party or the exporting Party's competent authorities written information regarding the importing Party's procedures for requesting its authorities to consider a price undertaking, or an undertaking, including the time frames for offering and concluding any such undertaking.

2. In an anti-dumping investigation, where the importing Party's authorities have made a preliminary affirmative determination of dumping and injury caused by such dumping, the importing Party shall afford due consideration, and adequate opportunity for consultations, to exporters of the exporting Party regarding the proposed price undertaking which, if accepted, may result in suspension of the investigation without imposition of anti-dumping duties, through the means provided for in the importing Party's domestic laws, regulations, and procedures.

3.
