## **Guidelines for Completing an Origin Declaration**

Where the exporter or producer elects the option of using a declaration approach to an origin declaration, the following guidelines will assist with completing the form.

For the purposes of obtaining preferential tariff treatment, this document is to be completed legibly and in full by the exporter and is to be in the possession of the importer at the time the declaration is made. This document may also be completed voluntarily by the producer for use by the exporter. Please print or type. If more space is needed, please use additional pages.

- Field 1: State the full legal name, address (including city and country), telephone number, fax number, e-mail address, reference number (optional) of the exporter.
- Field 2: Complete this Field if the declaration covers multiple shipments of identical goods as described in Field 5 that are imported into Korea or New Zealand for a specified period of up to 12 months (blanket period). "FROM" is the date upon which the declaration becomes applicable to the good covered by the blanket declaration (it may be earlier than the date this declaration is signed). "TO" is the date upon which the blanket period expires. The importation of a good for which preferential tariff treatment is claimed based on this declaration is to occur between these dates.
- Field 3: If one producer, state the full legal name, address (including city and country), telephone number, fax number, e-mail address and reference number (optional) as defined in Field 1, of said producer. If more than one producer is included on the declaration, state "VARIOUS" and attach a list of all producers, including their legal names, addresses (including city and country), telephone numbers, fax numbers, e-mail addresses and reference numbers (optional), cross-referenced to the good(s) described in Field 5. If you wish this information to be confidential, it is acceptable to state "AVAILABLE TO CUSTOMS UPON REQUEST".
- Field 4: State the full legal name, address (including city and country), telephone number, fax number and e-mail address of the importer.
- Field 5: Provide a full description of each good. The description should contain sufficient detail to relate it to the invoice description and to the Harmonized System (HS) description of the good. If the declaration covers a single shipment of a good, it should list the quantity and unit of measurement of each good, including the series number, if possible, as well as the invoice number as shown on the commercial invoice. If the invoice number is not known, indicate another unique reference number, such as the shipping order number, purchase order number, or any other number that can be used to identify the goods.

Field 6: For each good described in Field 5, identify the HS tariff classification to six digits.

Field 7: For each good described in Field 5, state which criterion set out below (A through D) is applicable. The rules of origin are contained in Chapter 3 (Rules of Origin and Origin Procedures) and Annex 3-A (Product Specific Rules of Origin). NOTE: In order to be entitled to preferential tariff treatment, each good is to meet at least one of the criteria below.

#### Preference Criteria

- A The good is “wholly obtained or produced entirely” in the territory of one or both of the Parties, as referred to in Article 3.3 (Wholly Obtained or Produced Goods). NOTE: The purchase of a good in the territory does not necessarily render it “wholly obtained or produced”.
- B The good is produced entirely in the territory of one or both of the Parties exclusively from originating materials. Under this criterion, one or more of the materials shall not fall within the definition of “wholly obtained or produced entirely”, as set out in Article 3.3 (Wholly Obtained or Produced Goods). All materials used in the production of the good must qualify as ‘originating’ by meeting the requirements of Section A of Chapter 3 (Rules of Origin and Origin Procedures).
- C The good is produced entirely in the territory of one or both of the Parties and satisfies the specific rule of origin, set out in Annex 3-A (Product Specific Rules of Origin) that applies to its tariff classification. The rule may include a choice between a change in tariff classification and a value test. The good must also satisfy all other applicable requirements of Section A of Chapter 3 (Rules of Origin and Origin Procedures).
- D The goods are produced entirely in the territory of one or both of the Parties but do not meet the applicable rule of origin, set out in Annex 3-A (Product Specific Rules of Origin) because certain non-originating materials do not undergo the required change in tariff classification.
- E The goods are produced in outward processing zones as agreed on the basis of Annex 3-B (Committee on Outward Processing Zones on the Korean Peninsula).

Field 8: For each good described in Field 5, state “YES” if you are the producer of the good. If you are not the producer of the good, state “NO” followed by (1), (2) or (3), depending on whether this declaration was based upon: (1) your knowledge of whether the good qualifies as an originating good; (2) your reliance on the producer’s written representation (other than an origin declaration) that the good qualifies as an originating good; or (3) a completed and signed origin declaration for the good, voluntarily provided to the exporter by the producer.

- Field 9: For each good described in Field 5, where the good is subject to a Regional Value Content (RVC) requirement, indicate “BD” if the RVC is calculated according to the Build-down method, or “BU” if the RVC is calculated in accordance with the Build-up method as set out in Article 3.4 (Regional Value Content).
- Field 10: Identify the name of the country of origin (“KR” for all originating goods exported to New Zealand; “NZ” for all originating goods exported to Korea).
- Field 11: This Field may be used when there is some observation relating to this declaration, such as, when the good or goods described in Field 5 have been subject to an advance ruling or a ruling on the classification or value of materials. Indicate the issuing authority, the reference number, and the date of issuance.
- Field 12: This Field is to be completed, signed and dated by the exporter. When the declaration is completed by the producer for use by the exporter, it is to be completed, signed and dated by the producer. The date is to be the date the certificate was completed and signed.

#### **Article 7.1 : Definitions**

For the purposes of this Section:

**bilateral safeguard measure** means a measure described in Article 7.2;

**domestic industry** means, with respect to an imported good, the producers as a whole of the like or directly competitive good operating in the territory of a Party, or those whose collective output of the like or directly competitive good constitutes a major proportion of the total domestic production of that good;

**provisional bilateral safeguard measure** means a measure described in Article 7.4;

**serious injury** means a significant overall impairment in the position of a domestic industry;

**threat of serious injury** means serious injury that, on the basis of facts and not merely on allegation, conjecture, or remote possibility, is clearly imminent; and

**transition period** means, in relation to a particular good, the period from the date of entry into force of this Agreement until five years after the date of the elimination or the completion of the reduction period of the customs duties in accordance with that Party's Schedule of tariff commitments in Annex 2-A (Tariff Schedule).

#### **Article 7.2 : Application of a Bilateral Safeguard Measure**

If, as a result of the reduction or elimination of a customs duty under this Agreement, an originating good of the other Party is being imported into the territory of a Party in such increased quantities, in absolute terms or relative to domestic production, and under such conditions as to cause or threaten to cause serious injury to a domestic industry producing a like or directly competitive good, the Party may:

- (a) suspend the further reduction of any rate of customs duty on the good provided for under this Agreement;
- (b) increase the rate of customs duty on the good to a level not to exceed the lesser of:

- (i) the most-favoured-nation (hereinafter referred to as “MFN”) applied rate of duty on the good in effect at the time the bilateral safeguard measure is applied; or
  - (ii) the MFN applied rate of duty on the good in effect on the day immediately preceding the date of entry into force of this Agreement; or
- (c) in the case of a customs duty applied to a good on a seasonal basis, increase the rate of duty to a level that, for each season, does not exceed the lesser of:
- (i) the MFN applied rate of duty on the good in effect for the corresponding season immediately preceding the date of application of the bilateral safeguard measure; or
  - (ii) the MFN applied rate of duty on the good in effect for the corresponding season immediately preceding the date of entry into force of this Agreement.

### **Article 7.3 : Conditions and Limitations**

1. A Party shall apply a bilateral safeguard measure only following an investigation by the Party’s competent authorities in accordance with the procedures and requirements provided for in Articles 3 and 4.2 of the Safeguards Agreement, and to this end, Articles 3 and 4.2 of the Safeguards Agreement are incorporated into and made part of this Agreement, *mutatis mutandis*.

2. A Party shall notify the other Party in writing upon initiation of an investigation described in paragraph 1 and shall consult with the other Party as far in advance of applying a bilateral safeguard measure as practicable, with a view to reviewing the information arising from the investigation and exchanging views on the bilateral safeguard measure.

3. Each Party shall ensure that its competent authorities complete any such investigation within one year of its date of initiation.

4. Neither Party shall apply or maintain a bilateral safeguard measure:

- (a) except to the extent, and for such time, as may be necessary to prevent or remedy serious injury and to facilitate adjustment;
- (b) for a period exceeding two years, except that the period may be extended by up to one year if the competent authorities of the applying Party determine, in conformity with the procedures specified in this Article, that the bilateral safeguard measure continues to be necessary to prevent or remedy serious injury and to facilitate adjustment and that there is evidence that the industry is adjusting, provided that the total period of application of a bilateral safeguard

measure, including the period of initial application and any extension thereof, shall not exceed three years; or

- (c) beyond the expiration of the transition period, except with the consent of the other Party.

5. Neither Party shall apply a bilateral safeguard measure more than once against the same good.

6. No bilateral safeguard measure or provisional bilateral safeguard measure shall be applied against a particular good while a global safeguard measure under Article XIX of GATT 1994 and the Safeguard Agreement in respect of that good is in place. In the event that a global safeguard measure is taken in respect of a particular good, any existing bilateral safeguard measure or provisional bilateral safeguard measure which is taken against that good in accordance with this Section shall be terminated.

7. Where the expected duration of a bilateral safeguard measure is over one year, the applying Party shall progressively liberalise it at regular intervals.

8. When a Party terminates a bilateral safeguard measure, the rate of customs duty shall be the rate that, according to the Party's Schedule to Annex 2-A (Tariff Schedule), would have been in effect but for the bilateral safeguard measure.

#### **Article 7.4 : Provisional Bilateral Safeguard Measure**

1. In critical circumstances where delay would cause damage that would be difficult to repair, a Party may apply a provisional bilateral safeguard measure in accordance with a preliminary determination by its competent authorities that there is clear evidence that imports of an originating good from the other Party have increased as the result of the reduction or elimination of a customs duty under this Agreement, and cause or threaten to cause serious injury to its domestic industry.

2. Before applying a provisional bilateral safeguard measure, the applying Party shall notify the other Party and shall immediately initiate consultations after applying the provisional bilateral safeguard measure.

3. The duration of any provisional bilateral safeguard measure shall not exceed 200 days, during which time the applying Party shall comply with the requirements of Article 7.3.1.

4. The applying Party shall promptly refund any additional customs duties collected as a result of a provisional bilateral safeguard measure if the investigation conducted in accordance with Article 7.3.1 does not result in a finding that the requirements of Article 7.2 have been met. The duration of any provisional measure shall be counted as part of the period described in Article 7.3.4(b).

## **Article 7.5 : Compensation**

1. No later than 30 days after it applies a bilateral safeguard measure, a Party shall afford an opportunity for the other Party to consult with it regarding appropriate trade liberalising compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the bilateral safeguard measure. The applying Party shall provide such compensation as the Parties mutually agree.
2. If the Parties are unable to agree on compensation within 30 days after consultations begin in accordance with paragraph 1, the Party against whose originating good the bilateral safeguard measure is applied may suspend the application of concessions with respect to originating goods of the applying Party that have trade effects substantially equivalent to the bilateral safeguard measure.
3. The applying Party's obligation to provide compensation under paragraph 1 and the other Party's right to suspend concessions in accordance with paragraph 2 shall terminate on the date the bilateral safeguard measure terminates.

## **Article 7.6 : Global Safeguard Measures**

Each Party retains its rights and obligations under Article XIX of GATT 1994 and the Safeguards Agreement and the Agreement on Agriculture. This Agreement shall not confer any additional rights or impose any additional obligations on the Parties with respect to measures applied under Article XIX of GATT 1994 and the Safeguards Agreement or the Agreement on Agriculture, except that a Party applying such a measure under Article XIX of GATT 1994 and the Safeguards Agreement may exclude imports of an originating good of the other Party from the measure if such imports are not a cause of serious injury or threat thereof.

## **Section B: Anti-Dumping and Countervailing Measures**

### **Article 7.7 : Anti-Dumping and Countervailing Measures**

1. Each Party retains its rights and obligations under the WTO Agreement with regard to the application of anti-dumping and countervailing measures. Except as otherwise provided in this Chapter, nothing in this Agreement shall be construed to confer any additional rights or impose any additional obligations on a Party with respect to anti-dumping or countervailing measures.
2. In order to enhance transparency in the implementation of the WTO Agreement:
  - (a) the Parties confirm their current practice of counting toward the average, all individual margins, whether positive or negative, when anti-dumping margins are established on the weighted average-to-weighted average basis or

transaction-to-transaction basis, or weighted average-to-transaction basis, and share their expectation that such practice will continue;<sup>11</sup> and

- (b) the Party making such a decision to impose any anti-dumping duties pursuant to Article 9.1 of the Anti-Dumping Agreement, shall normally apply the “lesser duty” rule, by imposing a duty which is less than the dumping margin where such lesser duty would be adequate to remove the injury to the domestic industry.

#### **Article 7.8 : Notification and Consultations**

1. After receipt by a Party’s competent authorities of a properly documented anti-dumping application relating to imports from the other Party and before proceeding to initiate an investigation, the Party shall give written notice, at the earliest possible opportunity, to the other Party, and immediately after initiating an investigation shall afford the other Party an adequate opportunity to make inquiries and representations regarding the application.
2. As soon as possible after an application for countervailing measures is accepted by the competent authorities of a Party, and in any event before the initiation of an investigation, and if products of the other Party may be subject to such investigation, the other Party shall be invited for consultations with the aim of clarifying the situation and arriving at a mutually agreed solution.

#### **Article 7.9 : Undertakings**

1. After a Party’s competent authorities initiate an anti-dumping or countervailing duty investigation, that Party shall give written notice, which shall include information about the availability of undertakings, to the other Party.
2. In an anti-dumping investigation, where a Party’s competent authorities have made a preliminary affirmative determination of dumping and injury caused by such dumping, that Party shall, to the extent possible, inform exporters of the other Party about the availability of undertakings and extend reasonable consideration to undertakings requested by the exporters of the other Party.
3. In a countervailing duty investigation, where a Party’s competent authorities have made a preliminary affirmative determination of subsidisation and injury caused by such subsidisation, that Party shall inform the other Party, and to the extent possible exporters of the other Party, about the availability of undertakings and extend reasonable consideration to undertakings requested by the other Party or the exporters of the other Party.

---

<sup>11</sup> This is without prejudice to the position each Party takes in the WTO’s Doha Development Agenda negotiations on Rules.

<sup>12</sup> For greater certainty, the scope of application of Articles 8.6 and 8.10 to measures adopted or maintained by a Party affecting the supply of a service in its territory by a covered investment is limited to the scope specified in this Article, subject to any applicable non-conforming measures and exceptions.

#### **Article 8.4 : National Treatment**

#### **Article 8.5 : Most-Favoured-Nation Treatment**

Each Party shall accord to services and service suppliers of the other Party treatment no less favourable than that it accords, in like circumstances, to services and service suppliers of a non-Party.

#### **Article 8.6 : Market Access**

Neither Party shall adopt or maintain, either on the basis of a regional subdivision or on the basis of its entire territory, measures that:

- (a) impose limitations on:
  - (i) the number of service suppliers, whether in the form of numerical quotas, monopolies, exclusive service suppliers, or the requirements of an economic needs test;
  - (ii) the total value of service transactions or assets in the form of numerical quotas or the requirement of an economic needs test;

  - (iv) the total number of natural persons that may be employed in a particular service sector or that a service supplier may employ and who are necessary for, and directly related to, the supply of a specific service in the form of numerical quotas or the requirement of an economic needs test; or
- (b) restrict or require specific types of legal entity or joint venture through which a service supplier may supply a service.

---

<sup>13</sup> This sub-subparagraph does not cover measures of a Party that limit inputs for the supply of services.

### **Article 8.7 : Local Presence**

Neither Party shall require a service supplier of the other Party to establish or maintain a representative office or any form of enterprise, or to be resident, in its territory as a condition for the supply of cross-border trade in services.

### **Article 8.8 : Non-Conforming Measures**

1. Articles 8.4 through 8.7 shall not apply to:
  - (a) any existing non-conforming measure that is maintained by a Party at:
    - (i) the central level of government, as set out by that Party in its Schedule to Annex I; or
    - (ii) a local level of government;
  - (b) the continuation or prompt renewal of any non-conforming measure referred to in subparagraph (a); or
  - (c) an amendment to any non-conforming measure referred to in subparagraph (a) to the extent that the amendment does not decrease the conformity of the measure, as it existed immediately before the amendment, with Articles 8.4 through 8.7.
2. Articles 8.4 through 8.7 shall not apply to any measure that a Party adopts or maintains with respect to sectors, subsectors, or activities as set out in its Schedule to Annex II.

### **Article 8.9: Subsidies**

1. Except as provided for in this Article, subsidies related to trade in services shall not be covered by this Chapter.
2. The Parties shall consider the issue of disciplines on the possible trade distorting effects of subsidies in relation to trade in services in the light of any disciplines agreed under Article XV of GATS, with a view to the incorporation of such disciplines into this Agreement.
3. On the request of a Party that considers it is adversely affected by a subsidy related to trade in services of the other Party, the Parties shall enter into consultations on such matters.

### **Article 8.10 : Domestic Regulation**

1. Each Party shall ensure that all measures of general application affecting trade in services are administered in a reasonable, objective and impartial manner.

2. Where authorisation is required for the supply of a service, the competent authorities of that Party shall:

- (a) in the case of an incomplete application, on the request of the applicant, identify the necessary additional information that is required to complete the application and provide the opportunity to remedy deficiencies within a reasonable timeframe;
- (b) within a reasonable period of time after the submission of an application is considered complete under domestic laws and regulations, inform the applicant of the decision concerning the application;
- (c) on the request of the applicant, provide, without undue delay, information concerning the status of the application under consideration; and
- (d) if an application is terminated or denied, to the maximum extent possible, inform the applicant in writing, and upon request and without undue delay, provide the reasons for such action. Consistent with the denying Party's domestic laws and regulations, the applicant shall have the possibility of resubmitting, at its discretion, a new application.

3. Paragraph 2 shall not apply to authorisation requirements that a Party adopts or maintains with respect to sectors, subsectors, or activities as set out in its Schedules to Annexes I and II.

4. With a view to ensuring that measures adopted or maintained by a Party relating to qualification requirements and procedures, technical standards and licensing requirements do not constitute unnecessary barriers to cross-border trade in services, each Party shall ensure that such measures are:

- (a) based on objective and transparent criteria, such as competence and the ability to supply the service;
- (b) not more burdensome than necessary to ensure the quality of the service; and
- (c) in the case of licensing procedures, not in themselves a restriction on the supply of the service.

5. Each Party shall maintain or institute as soon as practicable, judicial, arbitral or administrative tribunals or procedures which, on the request of an affected services supplier, provide for the prompt review of, and where justified, appropriate remedies for, administrative decisions affecting trade in services. Where such procedures are not

independent of the agency entrusted with the administrative decision concerned, the Party shall ensure that the procedures in fact provide for an objective and impartial review.

6. The provisions of paragraph 5 shall not be construed to require a Party to institute such tribunals or procedures where this would be inconsistent with its constitutional structure or the nature of its legal system.

7. In determining whether a Party is in conformity with its obligations under paragraph 4, account shall be taken of international standards of relevant international organisations applied by that Party.

8. Subject to any measures a Party adopts or maintains with respect to sectors, subsectors, or activities regarding professional services as set out in its Schedules to Annexes I and II, each Party shall provide adequate procedures to verify the competence of professionals of the other Party.

9. If the results of the negotiations related to Article VI:4 of GATS (or the results of any similar negotiations undertaken in other multilateral fora in which both Parties participate) enter into effect, this Article shall be amended, as appropriate, after consultations between the Parties, to bring those results into effect under this Agreement. The Parties shall co-ordinate on such negotiations, as appropriate.

#### **Article 8.11 : Recognition<sup>14</sup>**

1. For the purposes of the fulfilment, in whole or in part, of its standards or criteria for the authorisation, licensing, or certification of services suppliers, and subject to the requirements of paragraph 4, a Party may recognise the education or experience obtained, requirements met, or licenses or certifications granted in the other Party or a non-Party. Such recognition, which may be achieved through harmonisation or otherwise, may be based upon an agreement or arrangement with the country concerned or may be accorded autonomously.

2. Where a Party recognises, autonomously or by agreement or arrangement, the education or experience obtained, requirements met, or licenses or certifications granted in the territory of a non-Party, nothing in Article 8.5 shall be construed to require the Party to accord such recognition to the education or experience obtained, requirements met, or licenses or certifications granted in the territory of the other Party.

3. A Party that is a party to an agreement or arrangement of the type referred to in paragraph 1, whether existing or future, shall afford adequate opportunity for the other Party, upon request, to negotiate its accession to such an agreement or arrangement or to negotiate comparable ones with it. Where a Party accords recognition autonomously, it shall afford adequate opportunity for the other Party to demonstrate that education or experience obtained, requirements met, or licenses or certifications granted in the territory of the other Party should be recognised.

---

<sup>14</sup> For greater certainty, Annex 8-A applies to this Article.

4. Neither Party shall accord recognition in a manner that would constitute a means of discrimination between countries in the application of its standards or criteria for the authorisation, licensing, or certification of service suppliers, or a disguised restriction on trade in services.

#### **Article 8.12 : Education Co-operation**

1. The Parties recognise the importance of education as a factor of social and national development as well as a means for facilitating a closer partnership between the Parties.

2. The Parties shall designate contact points to facilitate dialogue and exchange of information on education co-operation.

3. The Parties shall encourage and facilitate dialogue and co-operation on issues of mutual interest in the field of education to benefit both Parties.

#### **Article 8.13 : Payments and Transfers**

1. A Party shall not apply restrictions on international transfers and payments for current transactions related to cross-border trade in services.

2. Each Party shall permit such payments and transfers relating to the cross-border supply of services to be made in a freely usable currency at the market rate of exchange prevailing at the time of the payment or transfer.

3. Notwithstanding paragraphs 1 and 2, a Party may prevent or delay a payment or transfer through the equitable, non-discriminatory, and good faith application of its domestic laws and regulations relating to:

- (a) bankruptcy, insolvency, or the protection of the rights of creditors;
- (b) issuing, trading, or dealing in securities, futures, options, or derivatives;
- (c) financial reporting or record keeping of transfers when necessary to assist law enforcement or financial regulatory authorities;
- (d) criminal or penal offences;
- (e) ensuring compliance with orders or judgments in judicial or administrative proceedings;
- (f) social security, public retirement or compulsory savings schemes; or
- (g) taxation.

#### **Article 8.14 : Denial of Benefits**

1. Subject to notification<sup>15</sup> to the other Party, a Party may deny the benefits of this Chapter to:

- (a) a service supplier of the other Party where the service is being supplied by an enterprise that is owned or controlled by persons of a non-Party and the enterprise has no substantive business operations in the territory of the other Party; or
- (b) a service supplier of the other Party where the service is being supplied by an enterprise that is owned or controlled by persons of the denying Party and the enterprise has no substantive business operations in the territory of the other Party.

2. A Party that denies benefits pursuant to paragraph 1 shall enter into consultations promptly following notification on the request of the other Party. Such consultations shall be without prejudice to the Parties' rights under Chapter 19 (Dispute Settlement) and under the *WTO Understanding on Rules and Procedures Governing the Settlement of Disputes*.

#### **Article 8.15 : Committee on Services**

1. For the purposes of ensuring the effective implementation and operation of this Chapter, the Parties hereby establish a Committee on Services (hereinafter referred to as "the Committee") to consider any matter arising under this Chapter and Chapter 9 (Temporary Entry of Business Persons).

2. The Committee shall:

- (a) consider any matters related to the implementation of this Chapter and Chapter 9 (Temporary Entry of Business Persons);
- (b) review the implementation and operation of this Chapter and Chapter 9 (Temporary Entry of Business Persons);
- (c) explore measures for the further expansion of cross-border trade in services and movement of business persons between the Parties;
- (d) facilitate dialogue on professional services issues, and review efforts to develop reciprocal recognition outcomes where mutual interests have been identified; and
- (e) take any other action it decides appropriate for the implementation of this Chapter and Chapter 9 (Temporary Entry of Business Persons).

---

<sup>15</sup> A Party shall, to the extent practicable, provide such notification to the other Party prior to denying the benefits of this Chapter.

3. The Committee shall meet within one year of entry into force of this Agreement and subsequently thereafter as mutually agreed by the Parties.

4. The Committee may establish, where appropriate, working groups to facilitate exchanges on specific topics affecting cross-border trade in services, including professional services. Individual working groups may seek input from public bodies or industry representatives.

5. The Committee may meet via teleconference, via video-conference or through any other means as mutually agreed by the Parties. Should the Parties decide to meet in person, the venue for the meetings shall, unless the Parties otherwise decide, alternate between the Parties.

#### **Article 8.16 : Work Programme on Financial Services**

Unless the Parties otherwise agree, the Parties will meet within three years of entry into force of this Agreement to discuss the feasibility and convenience of incorporating financial services into this Agreement.

#### **Article 8.17 : Telecommunication Services**

1. The rights and obligations of the Parties in respect of telecommunications shall be governed by the *Annex on Telecommunications* of GATS, which is hereby incorporated into and made part of this Chapter, *mutatis mutandis*.

2. The Parties affirm their commitment to the principles set forth in the *WTO Basic Telecommunications Reference Paper* as attached in Annex 8-B.

## **ANNEX 8-A**

### **PROFESSIONAL SERVICES**

1. The Parties recognise the value of co-operation to facilitate and enhance trade in professional services, and the importance of ensuring that measures relating to professional qualification and registration requirements and procedures do not constitute unnecessary barriers to trade in professional services between them.
2. The Parties shall designate contact points to facilitate dialogue and exchange of information on professional service issues.
3. The Parties shall encourage and facilitate the establishment of dialogue between or among their regulators and relevant professional services industry bodies in areas of mutual interest, which may include engineering, architectural and veterinary services, with a view to the achievement of early outcomes on recognition of qualifications or professional registration.
4. Such recognition may be achieved through recognition of regulatory outcomes, recognition of qualifications and professional registration awarded by a Party as a means of complying with the regulatory requirements of the other Party (whether accorded unilaterally or by mutual arrangement) or recognition arrangements concluded between the Parties and between industry bodies or through such other means as the Parties may mutually agree.

## ANNEX 8-B

### WTO BASIC TELECOMMUNICATIONS REFERENCE PAPER

The principles set forth in the *WTO Basic Telecommunications Reference Paper* are commitments additional to the *Annex on Telecommunications* of GATS referred to in Article 8.17.

#### REFERENCE PAPER

##### Scope

The following are definitions and principles on the regulatory framework for the basic telecommunications services.<sup>16</sup>

##### Definitions

Users mean service consumers and service suppliers.

Essential facilities<sup>17</sup> mean facilities of a public telecommunications transport network or service that

- (a) are exclusively or predominantly provided by a single or limited number of suppliers; and
- (b) cannot feasibly be economically or technically substituted in order to provide a service.

A major supplier is a supplier which has the ability to materially affect the terms of participation (having regard to price and supply) in the relevant market for basic telecommunications services as a result of:

- (a) control over essential facilities; or
- (b) use of its position in the market.

#### 1. Competitive safeguards

##### 1.1 Prevention of anti-competitive practices in telecommunications

Appropriate measures shall be maintained for the purpose of preventing suppliers who, alone or together, are a major supplier from engaging in or continuing anti-competitive practices.

##### 1.2 Safeguards

---

<sup>16</sup> This applies only to suppliers of basic telecommunications services and not to end-users of such services.

<sup>17</sup> The definition of “essential facilities” will be applied only to the extent consistent with New Zealand’s competition policy regime, which regulates the activities of “dominant supplier”.

The anti-competitive practices referred to above shall include in particular:

- (a) engaging in anti-competitive cross-subsidization;
- (b) using information obtained from competitors with anti-competitive results; and
- (c) not making available to other services suppliers on a timely basis technical information about essential facilities and commercially relevant information which are necessary for them to provide services.

## 2. Interconnection

2.1 This section applies to linking with suppliers providing public telecommunications transport networks or services in order to allow the users of one supplier to communicate with users of another supplier and to access services provided by another supplier.

### 2.2 Interconnection to be ensured

Interconnection with a major supplier will be ensured at any technically feasible point in the network. Such interconnection is provided:

- (a) under non-discriminatory terms, conditions (including technical standards and specifications) and rates and of a quality no less favourable than that provided for its own like services or for like services of non-affiliated service suppliers or for its subsidiaries or other affiliates;
- (b) in a timely fashion, on terms, conditions (including technical standards and specifications) and cost-oriented rates that are transparent, reasonable, having regard to economic feasibility, and sufficiently unbundled so that the supplier need not pay for network components or facilities that it does not require for the service to be provided; and
- (c) upon request, at points in addition to the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities.

### 2.3 Public availability of the procedures for interconnection negotiations

The procedures applicable for interconnection to a major supplier will be made publicly available.

### 2.4 Transparency of interconnection arrangements

It is ensured that a major supplier will make publicly available either its interconnection agreements or a reference interconnection offer.

### 2.5 Interconnection: dispute settlement

A service supplier requesting interconnection with a major supplier will have recourse, either:

- (a) at any time or
- (b) after a reasonable period of time which has been made publicly known

to an independent domestic body, which may be a regulatory body as referred to in paragraph 5 below, to resolve disputes regarding appropriate terms, conditions and rates for interconnection within a reasonable period of time, to the extent that these have not been established previously.

3. Universal service

Any Member has the right to define the kind of universal service obligation it wishes to maintain. Such obligations will not be regarded as anti-competitive per se, provided they are administered in a transparent, non-discriminatory and competitively neutral manner and are not more burdensome than necessary for the kind of universal service defined by the Member.

4. Public availability of licensing criteria

Where a licence is required, the following will be made publicly available:

- (a) all the licensing criteria and the period of time normally required to reach a decision concerning an application for a licence; and
- (b) the terms and conditions of individual licences.

The reasons for the denial of a licence will be made known to the applicant upon request.

5. Independent regulators

The regulatory body is separate from, and not accountable to, any supplier of basic telecommunications services. The decisions of and the procedures used by regulators shall be impartial with respect to all market participants.

6. Allocation and use of scarce resources

Any procedures<sup>18</sup> for the allocation and use of scarce resources, including frequencies, numbers and rights of way, will be carried out in an objective, timely, transparent and non-discriminatory manner. The current state of allocated frequency bands will be made publicly available, but detailed identification of frequencies allocated for specific government uses is not required.

---

<sup>18</sup> Such procedures may be administered by means of a variety of mechanisms, including laws and regulations, public tendering process and consultative processes.

## **CHAPTER 9**

- (c) intra-corporate transferees;

3. Nothing in this Chapter or Chapter 8 (Cross-Border Trade in Services) or 10 (Investment) shall prevent a Party from applying measures to regulate the entry of natural persons of the other Party into, or their temporary stay in, its territory, including those measures necessary to protect the integrity of, and to ensure the orderly movement of natural persons across its borders, provided that such measures are not applied in such a manner as to nullify or impair the commitments made by a Party under this Agreement. The sole fact of requiring a visa for natural persons of certain countries and not for those of others shall not be regarded as nullifying or impairing commitments made by a Party under this Agreement.

#### **Article 9.4 : Grant of Temporary Entry**

1. Each Party shall, in accordance with that Party's Schedule of specific commitments in Annex 9-A or 9-B, grant temporary entry to business persons of the other Party who are otherwise qualified for entry in accordance with Article 9.3.

2. Each Party shall set out in Annexes 9-A and 9-B a Schedule containing its commitments for the entry and temporary stay in its territory of business persons of the other Party. These Schedules of specific commitments shall specify the conditions and limitations for entry and temporary stay, including the requirements and length of stay, for each category of business persons included in each Party's Schedule of specific commitments.

3. Where a Party makes a commitment under paragraphs 1 and 2, that Party shall grant temporary entry or extension of temporary stay to business persons of the other Party provided those business persons:

- (a) follow prescribed application procedures for the immigration formality sought; and
- (b) meet all relevant eligibility requirements for entry to the granting Party.

4. Temporary entry granted pursuant to this Chapter shall not replace the requirements needed to carry out a profession or activity according to the specific laws and regulations in force in the territory of the Party authorising the temporary entry.

5. Any fees imposed in respect of the processing of an immigration formality shall be reasonable and in accordance with domestic laws.

6 Neither Party shall, except as provided for in its Schedule of specific commitments in Annex 9-A or 9-B, require labour market tests or other procedures of similar effect, or impose or maintain any numerical restriction relating to temporary entry as a condition for entry.

#### **Article 9.5 : Transparency**

Each Party shall:

- (a) publish, such as on its immigration website, by the date of entry into force of this Agreement, the requirements for temporary entry under this Chapter, including explanatory material and relevant forms and documents that will enable business persons of the other Party to become acquainted with its requirements; and

- (a) the matter involves a pattern of practice; and
- (b) the business person has exhausted any available administrative remedies regarding the particular matter.

3. The remedies referred to in paragraph 2(b) shall be deemed to be exhausted if a final determination in the matter has not been issued by the relevant competent authority within one year of the institution of an administrative proceeding, and the failure to issue a determination is not attributable to delay caused by the business person.

#### **Article 9.8 : Relation to Other Chapters**

Except for this Chapter, Chapters 1 (Initial Provisions and Definitions), 18 (Institutional Provisions), 19 (Dispute Settlement) to the extent permitted by Article 9.7, 20 (General Provisions and Exceptions) and 21 (Final Provisions), and Articles 17.2 (Publication), 17.4 (Administrative Proceedings) and 17.5 (Notification and Provision of Information), nothing in this Agreement shall impose any obligation on a Party regarding its immigration measures.

## CHAPTER 10 INVESTMENT

### Article 10.1 : Objectives

The objectives of this Chapter are to encourage and promote the flow of investment between the Parties on a mutually advantageous basis, under conditions of transparency within a stable framework of rules to ensure the protection and security of investments by investors of the other Party within each Party's territory, while recognising the right of the Parties to regulate and the responsibility of governments to protect public health, safety and the environment.

### Article 10.2 : Definitions

For the purposes of this Chapter:

**appointing authority** means:

- (a) in the case of arbitration under the ICSID or ICSID Additional Facility Rules in Article 10.20.3(a) and (b), the Secretary-General of ICSID, and in the case of arbitration under the UNCITRAL Rules in Article 10.20.3(c), the Secretary General of the Permanent Court of Arbitration; or
- (b) any person as agreed between the disputing parties;

**claimant** means an investor of a Party that is a party to an investment dispute with the other Party;

**disputing parties** means the claimant and the respondent;

**disputing party** means either the claimant or the respondent;

**enterprise** means an enterprise as defined in Article 1.5 (Definitions), and a branch of an enterprise;

**enterprise of a Party** means an enterprise constituted or organised under the domestic laws of a Party, and a branch located in the territory of a Party and carrying out business activities there;

**ICSID Additional Facility Rules** means the *Rules Governing the Additional Facility for the Administration of Proceedings by the Secretariat of the International Centre for Settlement of Investment Disputes*;

**ICSID Convention** means the *Convention on the Settlement of Investment Disputes between States and Nationals of Other States*, done at Washington, 18 March, 1965;

**investment** means every asset that an investor owns or controls, directly or indirectly, that has the characteristics of an investment, including such characteristics as the commitment of

capital or other resources, the expectation of gain or profit, or the assumption of risk. Forms that an investment may take include:

- (a) an enterprise;
- (b) shares, stocks or other forms of equity participation in an enterprise, including rights derived therefrom;
- (c) bonds, including government issued bonds, debentures, and loans<sup>20</sup> and other forms of debt, and rights derived therefrom;
- (d) futures, options and other derivatives;
- (e) rights under contracts, including turnkey, construction, management, production or revenue-sharing contracts;
- (f) intellectual property rights;
- (g) rights conferred pursuant to law or contract such as concessions, licences, authorisations, and permits;<sup>21 22</sup> and
- (h) other tangible or intangible, movable or immovable property, and related property rights, such as leases, mortgages, liens, and pledges;<sup>23</sup>

**investor of a non-Party** means, with respect to a Party, an investor that attempts to make, is making, or has made an investment in the territory of that Party, that is not an investor of either Party;

**investor of a Party** means a Party or state enterprise thereof, or a national or an enterprise of a Party, that attempts to make, is making, or has made an investment in the territory of the other Party; provided that in any dispute related to an investment of an investor of the Party, a natural person who is a dual national shall be deemed to be exclusively a national of the State of his or her dominant and effective nationality;

**New York Convention** means the *United Nations Convention on the Recognition and Enforcement of Foreign Arbitral Awards*, done at New York, 10 June 1958;

---

<sup>20</sup> Some forms of debt, such as bonds, debentures, and long-term notes, are more likely to have the characteristics of an investment, while other forms of debt such as claims to payment that are immediately due and result from the sale of goods or services, are less likely to have such characteristics.

<sup>21</sup> Whether a particular type of license, authorisation, permit, or similar instrument (including a concession, to the extent that it has the nature of such an instrument) has the characteristics of an investment depends on such factors as the nature and extent of the rights that the holder has under the law of the Party. Among the licenses, authorisations, permits, and similar instruments that do not have the characteristics of an investment are those that do not create any rights protected under domestic law. For greater certainty, the foregoing is without prejudice to whether any asset associated with the license, authorisation, permit, or similar instrument has the characteristics of an investment.

<sup>22</sup> The term “investment” does not include an order or judgment entered in a judicial or administrative action.

<sup>23</sup> For greater certainty, market share, market access, expected gains, and opportunities for profit-making are not, by themselves, investments.

**non-disputing Party** means a Party that is not a party to an investment dispute;

**protected information** means confidential business information or information that is privileged or otherwise protected from disclosure under a Party's domestic laws and regulations, including classified government information;

**respondent** means a Party against which a claim is made under Section B; and

**UNCITRAL Arbitration Rules** means the arbitration rules of the United Nations Commission on International Trade Law, as revised in 2010 or as subsequently agreed between the Parties.

## **Section A : Investment**

### **Article 10.3 : Scope**

1. This Chapter applies to measures adopted or maintained by a Party relating to:
  - (a) investors of the other Party;
  - (b) covered investments; and
  - (c) with respect to Articles 10.11 and 10.13, all investments in the territory of the Party.
2. For greater certainty, the provisions of this Chapter do not bind either Party in relation to any act or fact that took place or any situation that ceased to exist before the date of entry into force of this Agreement.
3. This Chapter shall not apply to services supplied in the exercise of governmental authority, as defined in Article 8.2 (Definitions).
4. This Chapter shall not apply to financial services as defined in Article 8.2 (Definitions).

### **Article 10.4 : Relation to Other Chapters**

1. In the event of any inconsistency between this Chapter and another Chapter, the other Chapter shall prevail to the extent of the inconsistency.
2. A requirement by a Party that a service supplier of the other Party post a bond or other form of financial security as a condition of the cross-border supply of a service does not of itself make this Chapter applicable to measures adopted or maintained by the Party relating to such cross-border supply of the service. This Chapter applies to measures adopted or

maintained by the Party relating to the posted bond or financial security, to the extent that such bond or financial security is a covered investment.

#### **Article 10.5 : National Treatment**

1. Each Party shall accord to investors of the other Party treatment no less favourable than that it accords, in like circumstances, to its own investors with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of investments in its territory.
2. Each Party shall accord to covered investments treatment no less favourable than that it accords, in like circumstances, to investments in its territory of its own investors with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of investments.

#### **Article 10.6 : Most-Favoured-Nation Treatment**

1. Each Party shall accord to investors of the other Party treatment no less favourable than that it accords, in like circumstances, to investors of any non-Party with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of investments in its territory.
2. Each Party shall accord to covered investments treatment no less favourable than that it accords, in like circumstances, to investments in its territory of investors of any non-Party with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of investments.
3. For greater certainty, the treatment referred to in this Article does not encompass international dispute resolution procedures or mechanisms, including those in Section B.

#### **Article 10.7 : Minimum Standard of Treatment<sup>24</sup>**

1. Each Party shall accord to covered investments treatment in accordance with the customary international law minimum standard of treatment, including fair and equitable treatment and full protection and security.
2. For greater certainty, the concepts of fair and equitable treatment and full protection and security set out in paragraph 1 do not require treatment in addition to or beyond that which is required by the customary international law minimum standard of treatment and do not create additional substantive rights. The obligation in paragraph 1 to provide:

---

<sup>24</sup> This Article shall be interpreted in accordance with Annex 10-A.

- (a) “fair and equitable treatment” includes the obligation not to deny justice in criminal, civil, or administrative adjudicatory proceedings in accordance with the general principle of law of due process; and
- (b) “full protection and security” requires each Party to take such measures as may be reasonably necessary in the exercise of its police powers to ensure the protection and security of the investment.

3. A determination that there has been a breach of another provision of this Agreement, or of a separate international agreement, does not establish that there has been a breach of this Article.

#### **Article 10.8 : Treatment in Case of Armed Conflict or Civil Strife**

1. Notwithstanding Article 10.15.5(b), each Party shall accord to investors of the other Party, and to covered investments, treatment no less favourable than that which the Party accords to its own investors and their investments, or investors of any non-Party and their investments, with respect to measures it adopts or maintains relating to losses suffered by investments in its territory owing to war or other armed conflict, or revolt, insurrection, riot, or other civil strife.

2. Notwithstanding paragraph 1, if an investor of a Party, in the situations referred to in paragraph 1, suffers a loss in the territory of the other Party resulting from:

- (a) requisitioning of its covered investment or part thereof by the latter’s forces or authorities; or
- (b) destruction of its covered investment or part thereof by the latter’s forces or authorities, which was not required by the necessity of the situation,

the latter Party shall provide the investor restitution, compensation, or both, as appropriate, for such loss.<sup>25</sup> Any compensation shall be prompt, adequate, and effective in accordance with paragraphs 2 through 4 of Article 10.9.

3. Paragraph 1 does not apply to existing measures relating to subsidies or grants provided by a Party, including government-supported loans, guarantees, and insurance, that would be inconsistent with Article 10.5 but for Article 10.15.5(b).

---

<sup>25</sup> For great certainty, in the event of providing both restitution and compensation, their combined value shall not exceed the loss suffered.

## **Article 10.9 : Expropriation and Compensation<sup>26</sup>**

1. Neither Party shall nationalise or expropriate a covered investment either directly or indirectly through measures equivalent to nationalisation or expropriation (hereinafter referred to as “expropriation”), except:
  - (a) for a public purpose;
  - (b) in a non-discriminatory manner;
  - (c) on payment of prompt, adequate, and effective compensation in accordance with paragraphs 2 through 4; and
  - (d) in accordance with due process of law.
2. Compensation shall:
  - (a) be paid without delay;
  - (b) be equivalent to the fair market value of the expropriated investment immediately before the expropriation took place (hereinafter referred to as “the date of expropriation”)
  - (c) not reflect any change in value occurring because the intended expropriation had become known earlier; and
  - (d) be fully realisable and freely transferable.
3. If the fair market value is denominated in a freely usable currency, the compensation paid shall be no less than the fair market value on the date of expropriation, plus interest at a commercially reasonable rate for that currency, accrued from the date of expropriation until the date of payment.
4. If the fair market value is denominated in a currency that is not freely usable, the compensation paid, converted into the currency of payment at the market rate of exchange prevailing on the date of payment, shall be no less than:
  - (a) the fair market value on the date of expropriation, converted into a freely usable currency at the market rate of exchange prevailing on that date; plus
  - (b) interest, at a commercially reasonable rate for that freely usable currency, accrued from the date of expropriation until the date of payment.
5. This Article does not apply to the issuance of compulsory licenses granted in relation to intellectual property rights in accordance with the TRIPS Agreement, or to the revocation, limitation, or creation of intellectual property rights, to the extent that such issuance,

---

<sup>26</sup> This Article shall be interpreted in accordance with Annex 10-B.

revocation, limitation, or creation is consistent with Chapter 11 (Intellectual Property Rights).<sup>27</sup>

#### **Article 10.10 : Transfers**

1. Each Party shall permit all transfers relating to a covered investment to be made freely and without delay into and out of its territory. Such transfers include:

- (a) contributions to capital, including the initial contribution;
- (b) profits, dividends, interest, capital gains, royalty payments, management fees, and technical assistance and other fees;
- (c) proceeds from the sale of all or any part of a covered investment or from the partial or complete liquidation of a covered investment;
- (d) payments made under a contract entered into by the investor, or a covered investment, including payments made pursuant to a loan agreement;
- (e) payments made pursuant to Articles 10.8 and 10.9;
- (f) payments arising out of the settlement of a dispute; and
- (g) earnings and other remuneration of personnel engaged from abroad in connection with that investment.

2. Each Party shall permit transfers relating to a covered investment to be made in a freely usable currency at the market rate of exchange prevailing at the time of transfer.

3. Notwithstanding paragraphs 1 and 2, a Party may prevent or delay a transfer through the equitable, non-discriminatory, and good faith application of its domestic laws and regulations relating to:

- (a) bankruptcy, insolvency, or the protection of the rights of creditors;
- (b) issuing, trading, or dealing in securities, futures, options, or derivatives;
- (c) financial reporting or record keeping of transfers when necessary to assist law enforcement or financial regulatory authorities;
- (d) criminal or penal offenses;
- (e) ensuring compliance with orders or judgements in judicial or administrative proceedings;

---

<sup>27</sup> For greater certainty, the Parties recognise that, for the purposes of this Article, the term “revocation” of intellectual property rights includes the cancellation or nullification of such rights, and the term “limitation” of intellectual property rights includes exceptions to such rights.

- (f) social security, public retirement or compulsory savings schemes; or
- (g) taxation.

#### **Article 10.11 : Performance Requirements**

1. Neither Party shall, in connection with the establishment, acquisition, expansion, management, conduct, operation, or sale or other disposition of an investment in its territory of an investor of a Party or of a non-Party, impose or enforce any requirement or enforce any commitment or undertaking:<sup>28</sup>

- (a) to export a given level or percentage of goods or services;
- (b) to achieve a given level or percentage of domestic content;
- (c) to purchase, use, or accord a preference to goods produced in its territory, or to purchase goods from persons in its territory;
- (d) to relate in any way the volume or value of imports to the volume or value of exports or to the amount of foreign exchange inflows associated with such investment;
- (e) to restrict sales of goods or services in its territory that such investment produces or supplies by relating such sales in any way to the volume or value of its exports or foreign exchange earnings;
- (f) to transfer a particular technology, a production process, or other proprietary knowledge to a person in its territory; or
- (g) to supply exclusively from the territory of the Party the goods that such investment produces or the services that it supplies to a specific regional market or to the world market.

2. Neither Party shall condition the receipt or continued receipt of an advantage, in connection with the establishment, acquisition, expansion, management, conduct, operation, or sale or other disposition of an investment in its territory of an investor of a Party or of a non-Party, on compliance with any requirement:

- (a) to achieve a given level or percentage of domestic content;
- (b) to purchase, use, or accord a preference to goods produced in its territory, or to purchase goods from persons in its territory;

---

<sup>28</sup> For greater certainty, a condition for the receipt or continued receipt of an advantage referred to in paragraph 2 does not constitute a “commitment or undertaking” for the purposes of this paragraph.

- (c) to relate in any way the volume or value of imports to the volume or value of exports or to the amount of foreign exchange inflows associated with such investment; or
- (d) to restrict sales of goods or services in its territory that such investment produces or supplies by relating such sales in any way to the volume or value of its exports or foreign exchange earnings.

3. Nothing in paragraph 2 shall be construed to prevent a Party from conditioning the receipt or continued receipt of an advantage, in connection with an investment in its territory of an investor of a Party or of a non-Party, on compliance with a requirement to locate production, supply a service, train or employ workers, construct or expand particular facilities, or carry out research and development, in its territory.

4. Paragraph 1(f) does not apply:

- (a) when a Party authorises use of an intellectual property right in accordance with Article 31 of the TRIPS Agreement, or to measures requiring the disclosure of proprietary information that fall within the scope of, and are consistent with, Article 39 of the TRIPS Agreement; or
- (b) when the requirement is imposed or the commitment or undertaking is enforced by a court, administrative tribunal, or competition authority to remedy a practice determined after judicial or administrative process to be anti-competitive under the Party's competition laws.<sup>29</sup>

5. Paragraphs 1(a) through (c), and 2(a) and (b), do not apply to qualification requirements for goods or services with respect to export promotion and foreign aid programmes.

6. Paragraphs 1(b), (c), (f), and (g), and 2(a) and (b), do not apply to government procurement.

7. Paragraphs 2(a) and (b) do not apply to requirements imposed by an importing Party relating to the content of goods necessary to qualify for preferential tariffs or preferential quotas.

8. For greater certainty, paragraphs 1 and 2 do not apply to any commitment, undertaking, or requirement other than those set out in those paragraphs.

9. This Article does not preclude enforcement of any commitment, undertaking, or requirement between private parties, where a Party did not impose or require the commitment, undertaking, or requirement.

---

<sup>29</sup> The Parties recognise that a patent does not necessarily confer market power.

#### **Article 10.12 : Senior Management and Boards of Directors**

1. Neither Party shall require that an enterprise of that Party that is a covered investment appoint to senior management positions natural persons of any particular nationality.
2. A Party may require that a majority of the board of directors, or any committee thereof, of an enterprise of that Party that is a covered investment, be of a particular nationality, or resident in the territory of the Party, provided that the requirement does not materially impair the ability of the investor to exercise control over its investment.

#### **Article 10.13 : Investment and Environment**

Nothing in this Chapter shall be construed to prevent a Party from adopting, maintaining, or enforcing any measure otherwise consistent with this Chapter that it considers appropriate to ensure that investment activity in its territory is undertaken in a manner sensitive to environmental concerns.

#### **Article 10.14 : Denial of Benefits**

1. Subject to notification<sup>30</sup> to the other Party, a Party may deny the benefits of this Chapter to:
  - (a) investors of the other Party and to the investments of that investor where the investment is being made by an enterprise that is owned or controlled by persons of a non-Party and the enterprise has no substantive business operations in the territory of the other Party; or
  - (b) investors of the other Party and to the investments of that investor where the investment is being made by an enterprise that is owned or controlled by persons of the denying Party and the enterprise has no substantive business operations in the territory of the other Party.
2. A Party that denies benefits pursuant to paragraph 1 shall enter into consultations promptly following notification on the request of the other Party. Such consultations shall be without prejudice to the Parties' rights under Chapter 19 (Dispute Settlement) and under the *WTO Understanding on Rules and Procedures Governing the Settlement of Disputes*.

#### **Article 10.15 : Non-Conforming Measures**

1. Articles 10.5, 10.6, 10.11 and 10.12 shall not apply to:

---

<sup>30</sup> A Party shall, to the extent practicable, provide such notification to the other Party prior to denying the benefits of this Chapter.

- (a) any existing non-conforming measure that is maintained by a Party at:
    - (i) the central level of government, as set out by that Party in its Schedule to Annex I; or
    - (ii) a local level of government;
  - (b) the continuation or prompt renewal of any non-conforming measure referred to in subparagraph (a); or
  - (c) an amendment to any non-conforming measure referred to in subparagraph (a) to the extent that the amendment does not decrease the conformity of the measure, as it existed immediately before the amendment, with Articles 10.5, 10.6, 10.11 and 10.12.
2. Articles 10.5, 10.6, 10.11 and 10.12 do not apply to any measure that a Party adopts or maintains with respect to sectors, subsectors, or activities, as set out in its Schedule to Annex II.
3. Neither Party shall, under any measure adopted after the date of entry into force of this Agreement and covered by its Schedule to Annex II, require an investor of the other Party, by reason of its nationality, to sell or otherwise dispose of an investment existing at the time the measure becomes effective.
4. Articles 10.5 and 10.6 do not apply to any measure that is an exception to, or derogation from, a Party's obligations under the TRIPS Agreement, as specifically provided for in that agreement.
5. Articles 10.5, 10.6 and 10.12 do not apply to:
- (a) government procurement; or
  - (b) subsidies or grants provided by a Party, including government-supported loans, guarantees, and insurance.
6. The Parties will endeavour to progressively remove the non-conforming measures.

#### **Article 10.16 : Special Formalities and Information Requirements**

1. Nothing in Article 10.5 shall be construed to prevent a Party from adopting or maintaining a measure that prescribes special formalities in connection with covered investments, such as a requirement that covered investments be legally constituted under the laws or regulations of the Party, provided that such formalities do not materially impair the protections afforded by the Party to investors of the other Party and covered investments pursuant to this Chapter.

2. Notwithstanding Articles 10.5 and 10.6, a Party may require an investor of the other Party or its covered investment to provide information concerning that investment solely for informational or statistical purposes. The Party shall protect any confidential business information from any disclosure that would prejudice the competitive position of the investor or the covered investment. Nothing in this paragraph shall be construed to prevent a Party from otherwise obtaining or disclosing information in connection with the equitable and good faith application of its law.

#### **Article 10.17 : Subrogation**

1. If a Party (or any agency, institution, statutory body or corporation designated by it) makes a payment to an investor of that Party under a guarantee, a contract of insurance or other form of indemnity against non-commercial risks it has granted in respect of an investment, the other Party shall recognise the subrogation or transfer of any right or title in respect of such investment. The subrogated or transferred right or claim shall not be greater than the original right or claim of the investor.

2. Where a Party (or any agency, institution, statutory body or corporation designated by it) has made a payment to an investor of that Party and has taken over rights and claims of the investor, that investor shall not, unless authorised to act on behalf of the Party (or any agency, institution, statutory body or corporation designated by it) making the payment, pursue those rights and claims against the other Party.

### **Section B: Investor State Dispute Settlement**

#### **Article 10.18 : Settlement of Investment Disputes between a Party and an Investor of the other Party**

1. This Section shall apply to disputes between a Party and an investor of the other Party concerning an alleged breach by the former Party of an obligation under Section A directly concerning a covered investment of the investor of that other Party, provided that such breach causes loss or damage to the investor or its investments.

2. This Section shall not apply to investment disputes which have occurred prior to the entry into force of this Agreement.

3. A national possessing the nationality or citizenship of a Party shall not pursue a claim against that Party under this Section. If a national also possesses the nationality or citizenship of a non-Party, he or she shall be deemed to be exclusively a national of the state of his or her dominant and effective nationality.

### **Article 10.19 : Consultation and Negotiation**

1. In the event of an investment dispute, the claimant and the respondent shall, as far as possible, seek to resolve the dispute through consultation and negotiation, which may include the use of non-binding, third-party procedures.
2. The claimant shall deliver to the respondent a written request for consultations setting forth a brief description of facts regarding the measure or measures at issue.
3. For greater certainty, the initiation of consultations and negotiations shall not be construed as recognition of the jurisdiction of the tribunal.

### **Article 10.20 : Submission of a Claim to Arbitration**

1. If an investment dispute has not been resolved within six months of the receipt by the respondent of a written request for consultations pursuant to Article 10.19.2, the claimant, on its own behalf, may submit to arbitration under this Section a claim:
  - (a) that the respondent has breached an obligation under Section A, relating to the management, conduct, operation, or sale or other disposition of a covered investment; and
  - (b) that the claimant has incurred loss or damage by reason of, or arising out of, that breach.
2. At least 90 days before submitting any claim to arbitration under this Section, a claimant shall deliver to the respondent a written notice of its intention to submit the claim to arbitration (hereinafter referred to as a “notice of intent”). The notice of intent shall specify:
  - (a) the name and address of the claimant;
  - (b) for each claim, the provision of Section A alleged to have been breached and any other relevant provisions of this Agreement;
  - (c) the legal and factual basis for each claim; and
  - (d) the relief sought and the approximate amount of damages claimed.
3. A claimant may submit a claim referred to in paragraph 1 under one of the following alternatives:
  - (a) the ICSID Convention and the ICSID *Rules of Procedure for Arbitration Proceedings*, provided that both the respondent and the non-disputing Party are parties to the ICSID Convention;
  - (b) the ICSID Additional Facility Rules, provided that either the respondent or the non-disputing Party is a party to the ICSID Convention;

- (c) the UNCITRAL Arbitration Rules; or
  - (d) if the claimant and respondent agree, to any other arbitration institution or under any other arbitration rules.
4. A claim shall be deemed submitted to arbitration under this Section when the claimant's notice of, or request for, arbitration (thereinafter referred to as "notice of arbitration"):
- (a) referred to in the ICSID Convention is received by the Secretary-General;
  - (b) referred to in the ICSID Additional Facility Rules is received by the Secretary-General;
  - (c) referred to in the UNCITRAL Arbitration Rules, together with the statement of claim referred to in the UNCITRAL Arbitration Rules, are received by the respondent; or
  - (d) referred to under any arbitral institution or arbitral rules selected under paragraph 3(d) is received by the respondent.

A claim asserted by the claimant for the first time after such notice of arbitration is submitted shall be deemed submitted to arbitration under this Section on the date of its receipt under the applicable arbitral rules.

5. The arbitration rules applicable under paragraph 3, and in effect on the date the claim or claims were submitted to arbitration under this Section, shall govern the arbitration except to the extent modified by this Agreement.

6. The claimant shall provide with the notice of arbitration:

- (a) the name of the arbitrator that the claimant appoints; or
- (b) the claimant's written consent for the appointing authority to appoint that arbitrator.

#### **Article 10.21 : Consent of Each Party to Arbitration**

1. Each Party consents to the submission of a claim to arbitration under this Section in accordance with this Agreement.

2. The consent under paragraph 1 and the submission of a claim to arbitration under this Section shall be deemed to satisfy the requirements of:

- (a) Chapter II (Jurisdiction of the Centre) of the ICSID Convention and the ICSID Additional Facility Rules for written consent of the parties to the dispute; and

- (b) Article II of the New York Convention for an “agreement in writing”.

#### **Article 10.22 : Conditions and Limitations on Consent of Each Party**

1. No claim shall be submitted to arbitration under this Section if more than three years and six months have elapsed from the date the claimant first acquired, or should have first acquired, knowledge, whichever is the earlier, of a breach of an obligation under Section A causing loss or damage to the claimant.
2. No claim shall be submitted to arbitration under this Section unless:
  - (a) the claimant consents in writing to arbitration in accordance with the procedures set out in this Agreement; and
  - (b) the notice of arbitration is accompanied by the claimant’s written waiver of any right to initiate or continue before any administrative tribunal or court under the domestic laws of either Party, or other dispute settlement procedures, any proceeding with respect to any measure alleged to constitute a breach referred to in Article 10.20.
3. Notwithstanding paragraph 2(b), the claimant may initiate or continue an action that seeks interim injunctive relief and does not involve the payment of monetary damages before a judicial or administrative tribunal of the respondent, provided that the action is brought for the sole purpose of preserving the claimant’s rights and interests during the pendency of the arbitration.

#### **Article 10.23 : Selection of Arbitrators**

1. Unless the disputing parties otherwise agree, the tribunal shall comprise three arbitrators, one arbitrator appointed by each of the disputing parties and the third, who shall be the presiding arbitrator, appointed by agreement of the disputing parties.
2. The appointing authority shall serve as appointing authority for an arbitration under this Section.
3. If an arbitral tribunal has not been established within 75 days of the date on which the claim was submitted to arbitration, the appointing authority, on the request of either disputing party, shall appoint, at its own discretion, the arbitrator or arbitrators not yet appointed. The appointing authority shall not appoint a national or permanent resident of either Party as the presiding arbitrator unless the disputing parties otherwise agree.
4. For the purposes of Article 39 of the ICSID Convention and Article 7 of Schedule C to the ICSID Additional Facility Rules, and without prejudice to an objection to an arbitrator on a ground other than nationality:

- (a) the respondent agrees to the appointment of each individual member of a tribunal established under the ICSID Convention or the ICSID Additional Facility Rules; and
- (b) a claimant referred to in Article 10.20.1 may submit a claim to arbitration under this Section, or continue a claim, under the ICSID Convention or the ICSID Additional Facility Rules, only on condition that the claimant agrees in writing to the appointment of each individual member of the tribunal.

#### **Article 10.24 : Place of Arbitration**

1. The disputing parties may agree on the legal place of any arbitration under the arbitral rules applicable under Article 10.20.3. If the disputing parties fail to reach agreement, the tribunal shall determine the place in accordance with the applicable arbitral rules, provided that the place shall be in the territory of a State that is a party to the New York Convention.
2. On the request of a disputing party, and unless the disputing parties otherwise agree, the tribunal may determine the location of meetings, including consultations and hearings, taking into consideration appropriate factors, including the convenience of the parties and the arbitrators, the location of the subject matter, and the proximity of evidence. The preceding sentence is without prejudice to any appropriate factors a tribunal may consider under paragraph 1.

#### **Article 10.25 : Interpretation of Agreement**

1. The tribunal shall, on the request of the respondent, request a joint interpretation of the Joint Commission of any provision of this Agreement that is in issue in a dispute. The Joint Commission shall submit in writing any joint decision declaring its interpretation to the tribunal within 60 days of delivery of the request.
2. A joint decision issued under paragraph 1 by the Joint Commission shall be binding on the tribunal, and any award must be consistent with that joint decision. If the Joint Commission fails to issue such a decision within 60 days, the tribunal shall decide the issue on its own account.
3. The non-disputing Party may make oral and written submissions to the tribunal regarding the interpretation of this Agreement. On the request of a disputing party, the non-disputing Party shall resubmit its oral submissions in writing.

#### **Article 10.26 : Conduct of the Arbitration**

1. The tribunal shall have the authority to accept and consider written *amicus curiae* submissions that may assist the tribunal in evaluating the submissions and arguments of the disputing parties from a person or entity that is not a disputing party. In determining whether

to accept such a filing, the tribunal shall consider, among other things, the extent to which the *amicus curiae* has a significant interest in the proceeding. The tribunal shall provide the disputing parties with an opportunity to respond to such written submissions.

2. Without prejudice to a tribunal's authority to address other objections as a preliminary question, such as an objection that a dispute is not within the competence of the tribunal, including an objection to the tribunal's jurisdiction, a tribunal shall address and decide as a preliminary question any objection by the respondent that, as a matter of law, a claim submitted is not a claim for which an award in favour of the claimant may be made under Article 10.30:

- (a) such objection shall be submitted to the tribunal as soon as possible after the tribunal is constituted, and in no event later than the date the tribunal fixes for the respondent to submit its counter-memorial (or, in the case of an amendment to the notice of arbitration, the date the tribunal fixes for the respondent to submit its response to the amendment);
- (b) on receipt of an objection under this paragraph, the tribunal shall suspend any proceedings on the merits, establish a schedule for considering the objection consistent with any schedule it has established for considering any other preliminary question, and issue a decision or award on the objection, stating the grounds therefor;
- (c) in deciding an objection under this paragraph, the tribunal shall assume to be true the claimant's factual allegations in support of any claim in the notice of arbitration (or any amendment thereof) and, in disputes brought under the UNCITRAL Arbitration Rules, the statement of claim referred to in the relevant Article of the UNCITRAL Arbitration Rules. The tribunal may also consider any relevant facts not in dispute; or
- (d) the respondent does not waive any objection as to competence, including an objection to jurisdiction, or any argument on the merits merely because the respondent did or did not raise an objection under this paragraph or make use of the expedited procedure set out in paragraph 3.

3. In the event that the respondent so requests within 45 days of the tribunal being constituted, the tribunal shall decide on an expedited basis an objection under paragraph 2 or any objection that the dispute is not within the tribunal's competence, including an objection that the dispute is not within the tribunal's jurisdiction. The tribunal shall suspend any proceedings on the merits and issue a decision or award on the objection(s), stating the grounds therefor, no later than 150 days after the date of the request. However, if a disputing party requests a hearing, the tribunal may take an additional 30 days to issue the decision or award. Regardless of whether a hearing is requested, a tribunal may, on a showing of extraordinary cause, delay issuing its decision or award by an additional brief period, which may not exceed 30 days.

4. When it decides a respondent's objection under paragraph 2 or 3, the tribunal may, if warranted, award to the prevailing disputing party reasonable costs and attorney's fees

incurred in submitting or opposing the objection. In determining whether such an award is warranted, the tribunal shall consider whether either the claimant's claim or the respondent's objection was frivolous, and shall provide the disputing parties a reasonable opportunity to comment.

5. A respondent shall not assert as a defence, counterclaim, right of set-off, or for any other reason that the claimant has received or will receive indemnification or other compensation for all or part of the alleged damages pursuant to an insurance or guarantee contract.

6. A tribunal may order an interim measure of protection to preserve the rights of a disputing party, or to ensure that the tribunal's jurisdiction is made fully effective, including an order to preserve evidence in the possession or control of a disputing party or to protect the tribunal's jurisdiction. A tribunal shall not order attachment or enjoin the application of a measure alleged to constitute a breach referred to in Article 10.20. For the purposes of this paragraph, an order includes a recommendation.

7. In any arbitration conducted under this Section, on the request of a disputing party, a tribunal shall, before issuing a decision or award on liability, transmit its proposed decision or award to the disputing parties and non-disputing Party. Within 60 days of the tribunal transmitting its proposed decision or award, the disputing parties may submit written comments to the tribunal concerning any aspect of its proposed decision or award. The tribunal shall consider any such comments and issue its decision or award not later than 45 days after the expiration of the 60 day comment period.

8. The interim review procedure of disputing parties for the proposed decision or award in paragraph 7 shall not apply in any arbitration conducted pursuant to this Section for which an appeal has been made available pursuant to paragraph 9.

9. If a separate multilateral agreement enters into force between the Parties that establishes an appellate body for the purposes of reviewing awards rendered by tribunals constituted pursuant to international trade or investment arrangements to hear investment disputes, the Parties shall strive to reach an agreement that would have such appellate body review decisions and awards rendered under this Article and Article 10.30 in arbitrations commenced after the multilateral agreement enters into force between the Parties.

10. Unless the disputing parties otherwise agree, consistent with the applicable arbitration rules, English and Korean shall be the official languages to be used in the entire arbitration proceedings, including all hearings, submissions, decisions, and awards.

#### **Article 10.27 : Transparency of Arbitral Proceedings**

1. Subject to paragraphs 2 through 4, the respondent shall, after receiving the following documents, promptly transmit them to the non-disputing Party and make them publicly available:

- (a) the notice of intent;

- (b) the notice of arbitration;
- (c) pleadings, memorials, and briefs submitted to the tribunal by a disputing party and any written submissions submitted pursuant to Articles 10.25.3 and 10.26.1;
- (d) minutes or transcripts of hearings of the tribunal, where available; and
- (e) orders, awards, and decisions of the tribunal.

2. The tribunal shall conduct hearings open to the public and shall determine, in consultation with the disputing parties, the appropriate logistical arrangements. However, any disputing party that intends to use information designated as protected information in a hearing shall so advise the tribunal. The tribunal shall make appropriate arrangements to protect the information from disclosure which may include closing the hearing for the duration of any discussion of protected information.

3. Nothing in this Section, including paragraph 4(d), requires a respondent to disclose protected information or to furnish or allow access to information that it may withhold in accordance with Article 20.2 (Security Exceptions) or 20.7 (Disclosure of Information).

4. Any protected information that is submitted to the tribunal shall be protected from disclosure in accordance with the following procedures:

- (a) subject to subparagraph (d), neither the disputing parties nor the tribunal shall disclose to any non-disputing Party or to the public any protected information where the disputing party that provided the information clearly designates it in accordance with subparagraph (b);
- (b) any disputing party claiming that certain information constitutes protected information shall clearly designate the information according to any schedule set by the tribunal;
- (c) a disputing party shall, according to any schedule set by the tribunal, submit a redacted version of the document that does not contain the information. Only the redacted version shall be disclosed in accordance with paragraph 1;
- (d) the tribunal, subject to paragraph 3, shall decide any objection by a disputing party regarding the designation of information claimed to be protected information. If the tribunal determines that such information was not properly designated, the disputing party that submitted the information may:
  - (i) withdraw all or part of its submission containing such information; or
  - (ii) agree to resubmit complete and redacted documents with corrected designations in accordance with the tribunal's determination and subparagraph (c)

In either case, the other disputing party shall, whenever necessary, resubmit complete and redacted documents which either remove the information withdrawn under sub-subparagraph (i) by the disputing party that first submitted the information or redesignate the information consistent with the designation under sub-subparagraph (ii) of the disputing party that first submitted the information; and

- (e) On the request of a respondent, the Joint Commission shall consider issuing a decision in writing regarding a determination by the tribunal that information claimed to be protected was not properly designated. If the Joint Commission issues a decision within 60 days of such a request, it shall be binding on the tribunal, and any decision or award issued by the tribunal must be consistent with that decision. If the Joint Commission does not issue a decision within 60 days, and provided that the non-disputing Party submits a written statement to the Joint Commission within that period that it agrees with the tribunal's determination, the tribunal's determination shall remain in effect.

5. Nothing in this Section requires a respondent to withhold from the public information required to be disclosed by its laws.

#### **Article 10.28 : Governing Law**

1. Subject to paragraph 2, when a claim is submitted under Article 10.20.1, the tribunal shall decide the issues in dispute in accordance with this Agreement and applicable rules of international law.

2. A decision of the Joint Commission on the interpretation of a provision of this Agreement under Article 18.2.2 shall be binding on a tribunal, and any decision or award issued by a tribunal must be consistent with that decision.

#### **Article 10.29 : Consolidation**

1. Where two or more claims have been submitted separately to arbitration under Article 10.20.1 and the claims have a question of law or fact in common and arise out of the same events or circumstances, any disputing party may seek a consolidation order in accordance with the agreement of all the disputing parties sought to be covered by the order or the terms of paragraphs 2 through 10.

2. A disputing party that seeks a consolidation order under this Article shall deliver, in writing, a request to the appointing authority and to all the disputing parties sought to be covered by the order and shall specify in the request:

- (a) the names and addresses of all the disputing parties sought to be covered by the order;

- (b) the nature of the order sought; and
- (c) the grounds on which the order is sought.

3. Unless the appointing authority finds within 30 days of receiving a request under paragraph 2 that the request is manifestly unfounded, a tribunal shall be established under this Article.

4. Unless all the disputing parties sought to be covered by the order otherwise agree, a tribunal established under this Article shall comprise three arbitrators:

- (a) one arbitrator appointed by agreement of the claimants;
- (b) one arbitrator appointed by the respondent; and
- (c) the presiding arbitrator appointed by the appointing authority, provided, however, that the presiding arbitrator shall not be a national of either Party.

5. If, within 60 days of the appointing authority receives a request made under paragraph 2, the respondent fails or the claimants fail to appoint an arbitrator in accordance with paragraph 4, the appointing authority, on the request of any disputing party sought to be covered by the order, shall appoint the arbitrator or arbitrators not yet appointed. If the respondent fails to appoint an arbitrator, the appointing authority shall endeavour to appoint a national of the respondent, and if the claimants fail to appoint an arbitrator, the appointing authority shall endeavour to appoint a national of the non-disputing Party.

6. Where a tribunal established under this Article is satisfied that two or more claims that have been submitted to arbitration under Article 10.20.1 have a question of law or fact in common, and arise out of the same events or circumstances, the tribunal may, in the interest of fair and efficient resolution of the claims, and after hearing the disputing parties, by order:

- (a) assume jurisdiction over, and hear and determine together, all or part of the claims;
- (b) assume jurisdiction over, and hear and determine one or more of the claims, the determination of which it believes would assist in the resolution of the others; or
- (c) instruct a tribunal previously established under Article 10.23 to assume jurisdiction over, and hear and determine together, all or part of the claims, provided that:
  - (i) that tribunal, on the request of any claimant not previously a disputing party before that tribunal, shall be reconstituted with its original members, except that the arbitrator for the claimants shall be appointed pursuant to paragraphs 4(a) and 5; and
  - (ii) that tribunal shall decide whether any prior hearing shall be repeated.

7. Where a tribunal has been established under this Article, a claimant that has submitted a claim to arbitration under Article 10.20.1 and that has not been named in a request made under paragraph 2 may make a written request to the tribunal that it be included in any order made under paragraph 6, and shall specify in the request:

- (a) the name and address of the claimant;
- (b) the nature of the order sought; and
- (c) the grounds on which the order is sought.

The claimant shall deliver a copy of its request to the appointing authority.

8. A tribunal established under this Article shall conduct its proceedings in accordance with the UNCITRAL Arbitration Rules, except as modified by this Section.

9. A tribunal established under Article 10.23 shall not have jurisdiction to decide a claim, or a part of a claim, over which a tribunal established or instructed under this Article has assumed jurisdiction.

10. On application of a disputing party, a tribunal established under this Article, pending its decision under paragraph 6, may order that the proceedings of a tribunal established under Article 10.23 be stayed, unless the latter tribunal has already adjourned its proceedings.

### **Article 10.30 : Awards**

1. Where a tribunal makes a final award against a respondent, the tribunal may award, separately or in combination, only:

- (a) monetary damages and any applicable interest; and
- (b) restitution of property, in which case the award shall provide that the respondent may pay monetary damages and any applicable interest in lieu of restitution.

2. For greater certainty, when an investor of a Party submits a claim to arbitration under Article 10.20.1, it may recover only for loss or damage that it has incurred in its capacity as an investor of a Party.

3. A tribunal may also award costs and attorney's fees in accordance with this Section and the applicable arbitration rules.

4. A tribunal shall not award punitive damages.

5. An award made by a tribunal shall have no binding force except between the disputing parties and in respect of the particular case.

6. Subject to paragraph 7 and the applicable review procedure for an interim award, a disputing party shall abide by and comply with an award without delay.

7. A disputing party shall not seek enforcement of a final award until:

(a) in the case of a final award made under the ICSID Convention:

(i) 120 days have elapsed from the date the award was rendered and no disputing party has requested revision or annulment of the award; or

(ii) revision or annulment proceedings have been completed; and

(b) in the case of a final award under the ICSID Additional Facility Rules, the UNCITRAL Arbitration Rules, or the rules selected pursuant to Article 10.20.3(d):

(i) 90 days have elapsed from the date the award was rendered and no disputing party has commenced a proceeding to revise, set aside, or annul the award; or

(ii) a court has dismissed or allowed an application to revise, set aside, or annul the award and there is no further appeal.

8. Each Party shall ensure that an award can be recognised and enforced in its jurisdiction.

9. A claim that is submitted to arbitration under this Section shall be considered to arise out of a commercial relationship or transaction for the purposes of Article I of the New York Convention.

#### **Article 10.31 : Service of Documents**

Delivery of notice and other documents on a Party shall be made to the place named for that Party in Annex 10-D.

## **ANNEX 10-A**

### **CUSTOMARY INTERNATIONAL LAW**

The Parties confirm their shared understanding that “customary international law” generally and as specifically referenced in Article 10.7 results from a general and consistent practice of States that they follow from a sense of legal obligation. With regard to Article 10.7, the customary international law minimum standard of treatment of aliens refers to all customary international law principles that protect the economic rights and interests of aliens.

## **ANNEX 10-B**

### **EXPROPRIATION**

1. An action or a series of actions by a Party cannot constitute an expropriation unless it interferes with a tangible or intangible property right in an investment.
2. Expropriation may be either direct or indirect:
  - (a) direct expropriation occurs when a Party takes an investor's property outright, by nationalisation or other direct expropriation through formal transfer of title or outright seizure; and
  - (b) indirect expropriation occurs when a Party takes an investor's property through an action or a series of actions which have an effect equivalent to direct expropriation, without formal transfer of title or outright seizure.
3. The determination of whether an action or a series of actions by a Party, in a specific fact situation, constitutes an indirect expropriation, requires a case-by-case, fact-based inquiry that considers, among other factors:
  - (a) the economic impact of the government action, although the fact that an action or a series of actions by a Party has an adverse effect on the economic value of an investment, standing alone, does not establish that an indirect expropriation has occurred;
  - (b) whether the government action breaches the government's prior binding written commitment to the investor whether by contract, licence or other legal document; and
  - (c) the character of the government action including its objectives and context.<sup>31</sup>
4. In order to constitute indirect expropriation, the Party's deprivation of the investor's property must be so severe in the light of its purpose that it cannot be reasonably viewed as having been adopted and applied in good faith.
5. Non-discriminatory regulatory actions by a Party that are designed and applied to protect legitimate public welfare objectives, such as public health, safety, the environment, and real estate price stabilisation (through, for example, measures to improve the housing conditions for low-income households), do not constitute indirect expropriations.<sup>32</sup>

---

<sup>31</sup> For actions taken by Korea, a relevant consideration could include whether the investor bears a disproportionate burden such as a special sacrifice that exceeds what the investor or investment should be expected to endure for the public interest.

<sup>32</sup> For greater certainty, the list of "legitimate public welfare objectives" in this paragraph is not exhaustive.

## **ANNEX 10-C**

### **SUBMISSION OF A CLAIM TO ARBITRATION**

#### **Korea**

1. Notwithstanding Article 10.22.2, an investor of New Zealand shall not submit to arbitration under Section B a claim that Korea has breached an obligation under Section A, if the investor has alleged that breach of an obligation under Section A in any proceedings before a court or administrative tribunal of Korea.
2. For greater certainty, where an investor of New Zealand makes an allegation that Korea has breached an obligation under Section A before a court or administrative tribunal of Korea, that election shall be final, and the investor shall not thereafter allege that breach in an arbitration under Section B.

## **ANNEX 10-E**

### **TAXATION AND EXPROPRIATION**

The determination of whether a taxation measure, in a specific fact situation, constitutes an expropriation requires a case-by-case, fact-based inquiry that considers all relevant factors relating to the investment, including the factors listed in Annex 10-B and the following considerations:

- (a) the imposition of taxes does not generally constitute an expropriation. The mere introduction of a new taxation measure or the imposition of a taxation measure in more than one jurisdiction in respect of an investment generally does not in and of itself constitute an expropriation;
- (b) a taxation measure that is consistent within internationally recognised tax policies, principles, and practices should not constitute an expropriation. In particular, a taxation measure aimed at preventing the avoidance or evasion of taxation measures generally does not constitute an expropriation;
- (c) a taxation measure that is applied on a non-discriminatory basis, as opposed to a taxation measure that is targeted at investors of a particular nationality or at specific taxpayers, is less likely to constitute an expropriation; and
- (d) a taxation measure generally does not constitute an expropriation if it was already in force when the investment was made and information about the measure was publicly available.

## **CHAPTER 11**

### **INTELLECTUAL PROPERTY RIGHTS**

#### **Article 11.1 : Definitions**

For the purposes of this Chapter:

**intellectual property** refers to all categories of intellectual property that are the subject of Sections 1 through 7 of Part II of the TRIPS Agreement, namely copyright and related rights; trademarks; geographical indications; industrial designs; patents; layout designs (topographies) of integrated circuits; protection of undisclosed information; and also includes the protection of plant varieties.

#### **Article 11.2 : Basic Principles**

1. The Parties recognise the importance of intellectual property in promoting economic and social development, particularly in the digital economy, technological innovation and trade.
2. The Parties recognise the need to achieve a balance between the rights of right holders and the legitimate interests of users and the community with regard to protected subject matter.

#### **Article 11.3 : General Provisions**

1. Each Party shall provide in its territory to the nationals of the other Party adequate and effective protection and enforcement of intellectual property rights, while ensuring that measures to enforce those rights do not themselves become barriers to legitimate trade.
2. A Party may provide for more extensive protection and enforcement of intellectual property rights under its law than this Chapter requires, provided that the additional protection and enforcement are not inconsistent with this Chapter.
3. The Parties affirm their existing rights and obligations under the TRIPS Agreement and any other multilateral agreement relating to intellectual property to which both Parties are party.
4. In respect of all categories of intellectual property covered by this Chapter, each Party shall accord to the nationals of the other Party treatment no less favourable than that it accords to its own nationals with regard to the protection of intellectual property rights and any benefits derived from such rights.<sup>33</sup>

---

<sup>33</sup> For the purposes of this Chapter, a 'national' of a Party shall include, in respect of the relevant right, any person of that Party that would meet the criteria for eligibility for protection of that right provided for in the agreements referred to in Article 11.5.1 and the TRIPS Agreement.

5. The obligation provided for in paragraph 4 is subject to:
- (a) the limitations and exceptions provided in the TRIPS Agreement and those multilateral agreements concluded under the auspices of World Intellectual Property Organization (hereinafter referred to as “WIPO”); and
  - (b) the relevant reservations permitted by those multilateral agreements concluded under the auspices of WIPO.
6. Each Party shall establish and maintain transparent intellectual property rights regimes and systems that:
- (a) provide certainty over the protection and enforcement of intellectual property rights;
  - (b) minimise the administrative costs required for businesses to comply with its intellectual property system; and
  - (c) facilitate international trade through the dissemination of ideas, technology and creative works.
7. The Parties shall be free to establish their own regime for the exhaustion of intellectual property rights.

#### **Article 11.4 : Trademarks**

1. Neither Party shall require, as a condition of registration, that trademarks be visually perceptible, nor shall either Party deny registration of a trademark solely on the grounds that its sign is composed of a sound or a scent.<sup>34</sup>
2. Each Party shall provide that trademarks shall include collective marks and certification marks.
3. Each Party shall provide that the owner of a registered trademark shall have the exclusive right to prevent all third parties not having the owner’s consent from using in the course of trade identical or similar signs, at least for goods or services that are identical or similar to those goods or services with respect to which the owner’s trademark is registered, where such use would result in a likelihood of confusion. In the case of the use of an identical sign, for identical goods or services, the likelihood of confusion shall be presumed.
4. Each Party may provide limited exceptions to the rights conferred by a trademark, such as fair use of descriptive terms, provided that such exceptions take account of the legitimate interests of the owner of the trademark and of third parties.

---

<sup>34</sup> A Party may require an adequate description, which can be represented graphically, of the trademark.

5. Neither Party shall require, as a condition for determining that a trademark is a well-known mark, that the trademark has been registered in the territory of that Party or in another jurisdiction. Additionally, neither Party shall deny remedies or relief with respect to well-known marks solely because of the lack of:

- (a) a registration;
- (b) inclusion on a list of well-known marks; or
- (c) prior recognition of the trademark as well-known.

6. Article 6bis of the *Paris Convention for the Protection of Industrial Property*, done on 20 March 1883 shall apply, *mutatis mutandis*, to goods or services that are not identical or similar to those identified by a well-known trademark,<sup>35</sup> whether registered or not, provided that use of that trademark in relation to those goods or services would indicate a connection between those goods or services and the owner of the trademark, and provided that the interests of the owner of the trademark are likely to be damaged by such use.

7. Each Party shall provide for appropriate measures to refuse or cancel the registration and prohibit the use of a trademark that is identical or similar to a well-known trademark, for related goods or services, if the use of that trademark is likely to cause confusion, or mistakes, or deception, risk of association of the trademark with a well-known trademark, or constitutes unfair exploitation of the reputation of the well-known trademark.

8. Each Party shall provide a system for the registration of trademarks in which the reasons for a refusal to register a trademark shall be communicated in writing and may be provided electronically to the applicant, who will have the opportunity to contest such refusal and to appeal a final refusal judicially. Each Party shall provide that third parties may oppose the registration of a trademark. Each Party shall provide a publicly available electronic database of trademark applications and trademark registrations.

9. Each Party shall provide that initial registration and each renewal of a registration of a trademark shall be for a term of no less than 10 years.

10. Neither Party shall require recordation of trademark licenses to establish the validity of the license, to assert any rights in a trademark, or for other purposes.

11. Each Party shall provide a system that permits owners to assert rights in trademarks and interested parties to challenge rights in trademarks through administrative or judicial means, or both.

---

<sup>35</sup> For the purposes of determining whether a trademark is well-known, neither Party shall require that the reputation of the trademark extend beyond the sector of the public that normally deals with the relevant goods and services.

## Article 11.5 : Copyright and Related Rights

1. Each Party shall comply with Articles 1 through 21 of the *Berne Convention for the Protection of Literary and Artistic Works*, done at 24 July 1971 (hereinafter referred to as the “Berne Convention”) and the Appendix thereto. However, the Parties shall not have rights or obligations under this Agreement in respect of the rights conferred under Article *6bis* of the Berne Convention or the rights derived therefrom.
2. Each Party shall provide that authors,<sup>36</sup> producers of phonograms, and broadcasting organisations<sup>37</sup> have the right to authorise or prohibit all reproduction of their works, phonograms and broadcasts<sup>38</sup> in any manner or form.
3. Each Party shall provide performers with the right to prohibit the reproduction of a fixation of a performance<sup>39</sup> where such fixation has been made without the authorisation of the performer.
4. Each Party may provide for limitations or exceptions to the rights described in paragraphs 2 and 3 in certain special cases that do not conflict with a normal exploitation of the work and do not unreasonably prejudice the legitimate interests of the right holder.
5. Each Party shall provide adequate legal protection and effective legal remedies against the circumvention of effective technological measures that are used by copyright and related rights holders in connection with the exercise of their rights under each Party’s domestic laws and that restrict acts, in respect of their works, which are not authorised by the copyright and related rights holders concerned or permitted by law.
6. Each Party may provide for exceptions and limitations to measures implementing paragraph 5 in accordance with its domestic laws and the relevant international agreements to which it is party.
7. Each Party shall provide for adequate and effective legal protection against any person knowingly performing any of the following acts knowing, or having reasonable grounds to know, that by doing so, it will induce, enable, facilitate or conceal an infringement of any copyright or related rights as provided by the domestic laws of the Party:

---

<sup>36</sup> A Party may provide that an author includes a person by whom the arrangements necessary for the making of a phonogram are undertaken.

<sup>37</sup> For the purpose of this Chapter, authors, performers, producers of phonograms and broadcasting organisations refer also to any successors in title.

<sup>38</sup> With respect to the protection of phonograms, a Party may apply the criterion of fixation instead of the criterion of publication. With respect to the protection of broadcasts, a Party may protect broadcasts only if the headquarter of the broadcasting organisation is situated in the other Party’s territory and the broadcast was transmitted from a transmitter situated in the other Party’s territory.

<sup>39</sup> With respect to this Chapter, a “performance” means a performance fixed in a phonogram unless otherwise specified.

- (a) the removal or alteration of any electronic rights management information<sup>40</sup> without authority; or
- (b) the distribution, importation for distribution, broadcasting, communication or making available to the public, without authority, of works or copies of the works or other subject matter protected under this Chapter knowing that electronic rights management information has been removed or altered without authority.

#### **Article 11.6 : Enforcement**

1. Each Party shall ensure that the measures, procedures and remedies are available under the Parties' legislation so as to permit effective action against any act of infringement of intellectual property rights covered by this Chapter.
2. Each Party shall provide for effective enforcement procedures to curtail repetitive copyright and related rights infringement by means of the internet.

#### **Article 11.7 : Contact Points**

The Parties shall designate contact points to facilitate communications between the Parties on any matter covered by this Chapter, and provide details of such contact points to the other Party. The Parties shall notify each other promptly of any amendments to the details of their contact points.

#### **Article 11.8 : Exchange of Information**

1. A Party shall, on the request of the other Party, provide information relating to:

  - (b) changes to, and developments in, the implementation of intellectual property systems aimed at promoting the effective and efficient registration or grant of intellectual property rights; and
  - (c) developments in approaches to intellectual property rights enforcement.
2. Any information provided under this Article shall be conveyed through the contact points referred to in Article 11.7.

---

<sup>40</sup> For the purposes of this Chapter, "rights management information" means any information provided by right holders which identifies the work or other subject matter covered by this Chapter, the author or any other right holder, or information about the terms and conditions of use of the work or other subject matter, and any numbers or codes that represent such information.

2. The Parties shall encourage and facilitate the development of contacts and co-operation between the Parties' respective government agencies, educational institutions, and other organisations with an interest in the field of intellectual property rights.
3. A Party shall, on the request of the other Party, give due consideration to any specific co-operation proposal made by the other Party relating to the protection or enforcement of intellectual property rights.
4. Any proposal for co-operation shall be conveyed through the contact points referred to in Article 11.7.

### **Article 11.10 : Genetic Resources, Traditional Knowledge and Folklore**

Subject to each Party's international obligations, each Party may establish appropriate measures to protect genetic resources, traditional knowledge and traditional cultural expressions or folklore.

### **Article 11.11 : Consultations**

1. A Party may at any time request consultations with the other Party with a view to seeking a timely and mutually satisfactory resolution in relation to any intellectual property issue, including enforcement, within the scope of this Chapter.
2. Such consultations shall be conducted through the Parties' designated contact points, and shall commence within 30 days of the receipt of the request for consultations, unless the Parties mutually determine otherwise. In the event that consultations fail to resolve any such issue, the requesting Party may refer the issue to the Joint Commission for consideration.
3. Any action taken pursuant to paragraphs 1 and 2 is without prejudice to the rights and obligations of the Parties under Chapter 19 (Dispute Settlement) or under the *WTO Understanding on Rules and Procedures Governing the Settlement of Disputes*.

3. The Parties recognise that anti-competitive business conduct may frustrate the benefits arising from this Agreement. 2. For the purposes of this Chapter, “covered procurement” means procurement for governmental purposes:
  - (a) of goods, services, or any combination thereof:

#### *Valuation*

5. In estimating the value of a procurement for the purposes of ascertaining whether it is a covered procurement, a procuring entity shall:

With respect to any measure regarding covered procurement, a Party, including its procuring entities, shall accord immediately and unconditionally to the goods and services of the other Party and to the suppliers of the other Party offering the goods or services of either Party, treatment no less favourable than the treatment the Party, including its procuring entities, accords to domestic goods, services and suppliers.

2. With respect to any measure regarding covered procurement, a Party, including its procuring entities, shall not:

- (a) treat a locally established supplier less favourably than another locally established supplier on the basis of the degree of foreign affiliation or ownership; or
- (b) discriminate against a locally established supplier on the basis that the goods or services offered by that supplier for a particular procurement are goods or services of the other Party.

### *Use of Electronic Means*

3. When conducting covered procurement by electronic means, a procuring entity shall:

- (a) ensure that the procurement is conducted using information technology systems and software, including those related to authentication and encryption of information, that are generally available and interoperable with other generally available information technology systems and software; and
- (b) maintain mechanisms that ensure the integrity of requests for participation and tenders, including establishment of the time of receipt and the prevention of inappropriate access.

#### *Conduct of Procurement*

4. A procuring entity shall conduct covered procurement in a transparent and impartial manner that:

- (a) is consistent with this Chapter, using methods such as open tendering, selective tendering and limited tendering;
- (b) avoids conflicts of interest; and
- (c) prevents corrupt practices.

#### *Rules of Origin*

5. For the purposes of covered procurement, a Party shall not apply rules of origin to goods or services imported from or supplied from the other Party that are different from the rules of origin the Party applies at the same time in the normal course of trade to imports or supplies of the same goods or services from the same Party.

#### *Offsets*

6. With regard to covered procurement, a Party, including its procuring entities, shall not seek, take account of, impose, or enforce any offset.

#### *Measures Not Specific to Procurement*

7. Paragraphs 1 and 2 shall not apply to:

- (a) customs duties and charges of any kind imposed on, or in connection with, importation;
- (b) the method of levying such duties and charges; or
- (c) other import regulations or formalities and measures affecting trade in services, other than measures governing covered procurement.

### **Article 13.5 : Exceptions to the Chapter**

1. Nothing in this Chapter shall be construed to prevent any Party from taking any action or not disclosing any information which it considers necessary for the protection of its essential security interests relating to the procurement of arms, ammunition or war materials, or to procurement indispensable for national security or for national defence purposes.
2. Subject to the requirement that such measures are not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination between the Parties where the same conditions prevail, or a disguised restriction on trade between the Parties, nothing in this Chapter shall be construed to prevent a Party from adopting or maintaining measures:
  - (a) necessary to protect public morals, order, or safety;
  - (b) necessary to protect human, animal or plant life or health;
  - (c) necessary to protect intellectual property; or
  - (d) relating to goods or services of persons with disabilities, of philanthropic or not for profit institutions, or of prison labour.
3. The Parties understand that paragraph 2(b) includes environmental measures necessary to protect human, animal or plant life or health.

### **Article 13.6 : Disclosure of Information**

#### *Provision of Information to Parties*

1. On the request of the other Party, a Party shall provide promptly any information necessary to determine whether a procurement was conducted fairly, impartially and in accordance with this Chapter, including information on the characteristics and relative advantages of the successful tender. In cases where release of the information would prejudice competition in future tenders, the Party that receives that information shall not disclose it to any supplier, except after consultation with, and obtaining agreement of, the Party that provided the information.

#### *Non-Disclosure of Information*

2. Notwithstanding any other provision of this Chapter, a Party, including its procuring entities, shall not provide to any particular supplier information that might prejudice fair competition between suppliers.<sup>41</sup>
3. Nothing in this Chapter shall be construed to require a Party, including its procuring entities, authorities and review bodies, to disclose confidential information where disclosure:

---

<sup>41</sup> Nothing in this paragraph shall be construed to require New Zealand to withhold information from disclosure in a manner contrary to the *Official Information Act 1982*, or any successor legislation.

- (a) would impede law enforcement;
- (b) might prejudice fair competition between suppliers;
- (c) would prejudice the legitimate commercial interests of particular persons, including the protection of intellectual property; or
- (d) would otherwise be contrary to the public interest.

### **Article 13.7 : Publication of Information on Procurement Measures**

Each Party shall promptly publish:

- (a) its measures relating to government procurement covered by this Chapter; and
- (b) any modifications to such measures in the same manner as the original publication.

### **Article 13.8 : Qualification of Suppliers**

#### *Registration Systems and Qualification Procedures*

1. A Party, including its procuring entities, may maintain a supplier registration system under which interested suppliers are required to register and provide certain information.
2. Each Party shall ensure that:
  - (a) its procuring entities make efforts to minimise differences in their qualification procedures; and
  - (b) where its procuring entities maintain registration systems, the entities make efforts to minimise differences in their registration systems.
3. A Party, including its procuring entities, shall not adopt or apply any registration system or qualification procedure with the purpose or the effect of creating unnecessary obstacles to the participation of suppliers of the other Party in its procurement.

#### *Selective Tendering*

4. Where a procuring entity intends to use selective tendering, the entity shall:
  - (a) include in the notice of intended procurement at least the information specified in Article 13.11.2(a), (b), (f), (g), (j), and (k) and invite suppliers to submit a request for participation; and

- (b) provide, by the commencement of the time-period for tendering, at least the information specified in Article 13.11.2(c), (d), (e), (h), and (i) to the qualified suppliers that it notifies as specified in Article 13.12.4(b).

5. A procuring entity shall allow all qualified suppliers to participate in a particular procurement, unless the procuring entity states in the notice of intended procurement any limitation on the number of suppliers that will be permitted to tender and the criteria for selecting the limited number of suppliers.

6. Where the tender documentation is not made publicly available from the date of publication of the notice referred to in paragraph 4, a procuring entity shall ensure that those documents are made available at the same time to all the qualified suppliers selected in accordance with paragraph 5.

#### *Multi-Use Lists*

7. A procuring entity may maintain a multi-use list of suppliers, provided that a notice inviting interested suppliers to apply for inclusion on the list is:

- (a) published annually;
- (b) where published by electronic means, made available continuously; and
- (c) published in the appropriate medium listed in Annex 13-A.

8. The notice provided for in paragraph 7 shall include:

- (a) a description of the goods or services, or categories thereof, for which the list may be used;
- (b) the conditions for participation to be satisfied by suppliers for inclusion on the list and the methods that the procuring entity will use to verify that a supplier satisfies the conditions;
- (c) the name and address of the procuring entity and other information necessary to contact the entity and obtain all relevant documents relating to the list;
- (d) the period of validity of the list and the means for its renewal or termination, or where the period of validity is not provided, an indication of the method by which notice will be given of the termination of use of the list; and
- (e) an indication that the list may be used for procurement covered by this Chapter.

9. Notwithstanding paragraph 7, where a multi-use list will be valid for three years or less, a procuring entity may publish the notice referred to in paragraph 7 only once, at the beginning of the period of validity of the list, provided that the notice:

- (a) states the period of validity and that further notices will not be published; and
- (b) is published by electronic means and is made available continuously during the period of its validity.

10. A procuring entity shall allow suppliers to apply at any time for inclusion on a multi-use list and shall include on the list all qualified suppliers within a reasonably short period of time.

11. Where a supplier that is not included on a multi-use list submits a request for participation in a procurement based on a multi-use list and all required documents, within the time-period provided for in Article 13.12, a procuring entity shall examine the request. The procuring entity shall not exclude the supplier from consideration in respect of the procurement on the grounds that the entity has insufficient time to examine the request, unless, in exceptional cases, due to the complexity of the procurement, the entity is not able to complete the examination of the request within the time-period allowed for the submission of tenders.

#### *Information on Procuring Entity Decisions*

12. A procuring entity shall promptly inform any supplier that submits a request for participation in a procurement or application for inclusion on a multi-use list of the procuring entity's decision with respect to the request or application.

13. Where a procuring entity rejects a supplier's request for participation in a procurement or application for inclusion on a multi-use list, ceases to recognise a supplier as qualified, or removes a supplier from a multi-use list, the entity shall promptly inform the supplier and, on the request of the supplier, promptly provide the supplier with a written explanation of the reasons for its decision.

### **Article 13.9 : Conditions for Participation**

1. A procuring entity shall limit any conditions for participation in a procurement to those that are essential to ensure that a supplier has the legal and financial capacities and the commercial and technical abilities to undertake the relevant procurement.

2. In establishing the conditions for participation, a procuring entity:

- (a) shall not impose the condition that, in order for a supplier to participate in a procurement, the supplier has previously been awarded one or more contracts by a procuring entity of a given Party; and
- (b) may require relevant prior experience where essential to meet the requirements of the procurement.

3. In assessing whether a supplier satisfies the conditions for participation, a procuring entity shall:

- (a) evaluate the financial capacity and the commercial and technical abilities of a supplier on the basis of that supplier's business activities both inside and outside the territory of the Party of the procuring entity; and
- (b) base its evaluation on the conditions that the procuring entity has specified in advance in notices or tender documentation.

4. Where there is supporting evidence, a Party, including its procuring entities, may exclude a supplier on grounds such as:

- (a) bankruptcy;
- (b) false declarations;
- (c) significant or persistent deficiencies in performance of any substantive requirement or obligation under a prior contract or contracts;
- (d) final judgments in respect of serious crimes or other serious offences;
- (e) professional misconduct or acts or omissions that adversely reflect on the commercial integrity of the supplier; or
- (f) failure to pay taxes.

#### **Article 13.10 : Limited Tendering**

1. Provided that it does not use this provision for the purposes of avoiding competition among suppliers or in a manner that discriminates against suppliers of the other Party or protects domestic suppliers, a procuring entity may use limited tendering and may choose not to apply Articles 13.8, 13.9, 13.11, 13.12, 13.14, and 13.15 only under any of the following circumstances:

- (a) where,
  - (i) no tenders were submitted or no suppliers requested participation;
  - (ii) no tenders that conform to the essential requirements of the tender documentation were submitted;
  - (iii) no suppliers satisfied the conditions for participation; or
  - (iv) the tenders submitted have been collusive,

provided that the requirements of the tender documentation are not substantially modified;

- (b) where the goods or services can be supplied only by a particular supplier and no reasonable alternative or substitute goods or services exist for any of the following reasons:
  - (i) the requirement is for a work of art;
  - (ii) the protection of patents, copyrights or other exclusive rights; or
  - (iii) due to an absence of competition for technical reasons;
- (c) for additional deliveries by the original supplier of goods or services that were not included in the initial procurement, where a change of supplier for such additional goods or services:
  - (i) cannot be made for economic or technical reasons such as requirements of interchangeability or interoperability with existing equipment, software, services or installations procured under the initial procurement; and
  - (ii) would cause significant inconvenience or substantial duplication of costs for the procuring entity;
- (d) insofar as is strictly necessary where, for reasons of extreme urgency brought about by events unforeseeable by the procuring entity, the goods or services could not be obtained in time using open tendering or selective tendering;
- (e) for goods purchased on a commodity market;
- (f) where a procuring entity procures a prototype or a first good or service that is developed at its request in the course of, and for, a particular contract for research, experiment, study or original development. Original development of a first good or service may include limited production or supply in order to incorporate the results of field testing and to demonstrate that the good or service is suitable for production or supply in quantity to acceptable quality standards, but does not include quantity production or supply to establish commercial viability or to recover research and development costs;
- (g) for purchases made under exceptionally advantageous conditions that only arise in the very short term in the case of unusual disposals such as those arising from liquidation, receivership or bankruptcy, but not for routine purchases from regular suppliers; or
- (h) where a contract is awarded to a winner of a design contest provided that:

- (i) the contest has been organised in a manner that is consistent with the principles of this Chapter, in particular relating to the publication of a notice of intended procurement; and
- (ii) the participants are judged by an independent jury with a view to a design contract being awarded to a winner.

2. A procuring entity shall prepare a report in writing on each contract awarded under paragraph 1. The report shall include the name of the procuring entity, the value and kind of goods or services procured and a statement indicating the circumstances and conditions described in paragraph 1 that justified the use of limited tendering.

## **Article 13.11 : Notices**

### *Notice of Intended Procurement*

1. For each covered procurement, a procuring entity shall publish a notice of intended procurement in the appropriate paper or electronic medium listed in Annex 13-A except in the circumstances described in Article 13.10. Such medium shall be widely disseminated and such notices shall remain readily accessible to the public, at least until expiration of the time-period indicated in the notice. The notices shall, for procuring entities covered under Annex 13-A, be accessible by electronic means free of charge through a single point of access during the entire period established for tendering.

2. Except as otherwise provided in this Chapter, each notice of intended procurement shall include:

- (a) the name and address of the procuring entity and other information necessary to contact the procuring entity and obtain all relevant documents relating to the procurement, and their cost and terms of payment, if any;
- (b) a description of the procurement, including the nature and the quantity of the goods or services to be procured or, where the quantity is not known, the estimated quantity;
- (c) for recurring contracts, an estimate, if possible, of the timing of subsequent notices of intended procurement;
- (d) a description of any options;
- (e) the time-frame for delivery of goods or services or the duration of the contract;
- (f) the procurement method that will be used and whether it will involve negotiation or electronic auction;

- (g) where applicable, the address and the final date for the submission of requests for participation in the procurement;
- (h) the address and the final date for the submission of tenders;
- (i) the language or languages in which tenders or requests for participation may be submitted, if they may be submitted in a language other than an official language of the Party of the procuring entity;
- (j) a list and brief description of any conditions for participation of suppliers, including any requirements for specific documents or certifications to be provided by suppliers in connection therewith, unless such requirements are included in tender documentation that is made available to all interested suppliers at the same time as the notice of intended procurement; and
- (k) where, pursuant to Article 13.8, a procuring entity intends to select a limited number of qualified suppliers to be invited to tender, the criteria that will be used to select them and, where applicable, any limitation on the number of suppliers that will be permitted to tender.

#### *Summary Notice*

3. For each case of intended procurement, a procuring entity shall publish a summary notice that is readily accessible, at the same time as the publication of the notice of intended procurement, in English. The summary notice shall contain at least the following information:

- (a) the subject-matter of the procurement;
- (b) the final date for the submission of tenders or, where applicable, the final date for the submission of requests for participation in the procurement or for inclusion on a multi-use list; and
- (c) the address from which documents relating to the procurement may be requested.

#### *Notice of Planned Procurement*

4. Procuring entities are encouraged to publish in the appropriate paper or electronic medium listed in Annex 13-A as early as possible in each fiscal year a notice regarding their future procurement plans (hereinafter referred to as "notice of planned procurement"). The notice of planned procurement should include the subject-matter of the procurement and the planned date of the publication of the notice of intended procurement.

## **Article 13.12 : Time-Periods**

### *General*

1. A procuring entity shall, consistent with its own reasonable needs, provide sufficient time for suppliers to prepare and submit requests for participation and responsive tenders, taking into account such factors as:

- (a) the nature and complexity of the procurement;
- (b) the extent of subcontracting anticipated; and
- (c) the time necessary for transmitting tenders by non-electronic means from foreign as well as domestic points where electronic means are not used.

2. Such time-periods, including any extension of the time-periods, shall be the same for all interested or participating suppliers.

### *Deadlines*

3. A procuring entity that uses selective tendering shall establish that the final date for the submission of requests for participation shall not, in principle, be less than 25 days from the date of publication of the notice of intended procurement. Where a state of urgency duly substantiated by the procuring entity renders this time-period impracticable, the time-period may be reduced to not less than 10 days.

4. Except as provided for in paragraphs 5 through 8, a procuring entity shall establish that the final date for the submission of tenders shall be not less than 40 days from the date on which:

- (a) in the case of open tendering, the notice of intended procurement is published;  
or
- (b) in the case of selective tendering, the entity notifies suppliers that they will be invited to submit tenders, whether or not it uses a multi-use list.

5. A procuring entity may reduce the time-period for tendering established in accordance with paragraph 4 to not less than 10 days where:

- (a) the procuring entity has published a notice of planned procurement as described in Article 13.11.4 at least 40 days and not more than 12 months in advance of the publication of the notice of intended procurement, and the notice of planned procurement contains:
  - (i) a description of the procurement;
  - (ii) the approximate final dates for the submission of tenders or requests for participation;

- (iii) a statement that interested suppliers should express their interest in the procurement to the procuring entity;
  - (iv) the address from which documents relating to the procurement may be obtained; and
  - (v) as much of the information that is required for the notice of intended procurement under Article 13.11.2 as is available;
- (b) the procuring entity, for recurring contracts, indicates in an initial notice of intended procurement that subsequent notices will provide time-periods for tendering based on this paragraph; or
  - (c) a state of urgency duly substantiated by the procuring entity renders the time-period for tendering established in accordance with paragraph 4 impracticable.
6. A procuring entity may reduce the time-period for tendering established in accordance with paragraph 4 by five days for each one of the following circumstances:
- (a) the notice of intended procurement is published by electronic means;
  - (b) all the tender documentation is made available by electronic means from the date of the publication of the notice of intended procurement; or
  - (c) the entity accepts tenders by electronic means.
7. The use of paragraph 6, in conjunction with paragraph 5, shall in no case result in the reduction of the time-period for tendering established in accordance with paragraph 5 to less than 10 days from the date on which the notice of intended procurement is published.
8. Notwithstanding any other provision in this Article, where a procuring entity purchases commercial goods or services, or any combination thereof, it may reduce the time-period for tendering established in accordance with paragraph 4 to not less than 13 days, provided that it publishes by electronic means, at the same time, both the notice of intended procurement and the tender documentation. In addition, where the entity accepts tenders for commercial goods or services by electronic means, it may reduce the time-period established in accordance with paragraph 4 to not less than 10 days.

### **Article 13.13 : Technical Specifications**

1. A procuring entity shall not prepare, adopt or apply any technical specification or prescribe any conformity assessment procedure with the purpose or the effect of creating unnecessary obstacles to international trade.
2. In prescribing the technical specifications for the goods or services being procured, a procuring entity shall, where appropriate:

- (a) set out the technical specification in terms of performance and functional requirements, rather than design or descriptive characteristics; and
- (b) base the technical specification on international standards, where such standards exist, or otherwise on national technical regulations, recognised national standards or building codes.

3. Where design or descriptive characteristics are used in the technical specifications, a procuring entity should indicate, where appropriate, that it will consider tenders of equivalent goods or services that demonstrably fulfil the requirements of the procurement by including words such as "or equivalent" in the tender documentation.

4. A procuring entity shall not prescribe technical specifications that require or refer to a particular trademark or trade name, patent, copyright, design, type, specific origin, producer or supplier, unless there is no other sufficiently precise or intelligible way of describing the procurement requirements and provided that, in such cases, the entity includes words such as "or equivalent" in the tender documentation.

5. A procuring entity shall not seek or accept, in a manner that would have the effect of precluding competition, advice that may be used in the preparation or adoption of any technical specification for a specific procurement from a person that may have a commercial interest in the procurement.

6. For greater certainty, a Party, including its procuring entities, may, in accordance with this Article, prepare, adopt, or apply technical specifications to promote the conservation of natural resources or protect the environment.

#### **Article 13.14 : Tender Documentation**

1. A procuring entity shall make available to suppliers tender documentation that includes all information necessary to permit suppliers to prepare and submit responsive tenders. Unless already provided in the notice of intended procurement, such documentation shall include a complete description of:

- (a) the procurement, including the nature and the quantity of the goods or services to be procured or, where the quantity is not known, the estimated quantity and any requirements to be fulfilled, including any technical specifications, conformity assessment certification, plans, drawings or instructional materials;
- (b) any conditions for participation of suppliers, including a list of information and documents that suppliers are required to submit in connection with the conditions for participation;
- (c) all evaluation criteria the entity will apply in the awarding of the contract, and, except where price is the sole criterion, the relative importance of such criteria;

- (d) where the procuring entity will conduct the procurement by electronic means, any authentication and encryption requirements or other requirements related to the submission of information by electronic means;
- (e) where the procuring entity will hold an electronic auction, the rules, including identification of the elements of the tender related to the evaluation criteria, on which the auction will be conducted;
- (f) where there will be a public opening of tenders, the date, time and place for the opening and, where appropriate, the persons authorised to be present;
- (g) any other terms or conditions, including terms of payment and any limitation on the means by which tenders may be submitted, such as whether on paper or by electronic means; and
- (h) any dates for the delivery of goods or the supply of services.

2. In establishing any date for the delivery of goods or the supply of services being procured, a procuring entity shall take into account such factors as the complexity of the procurement, the extent of subcontracting anticipated and the realistic time required for production, de-stocking and transport of goods from the point of supply or for supply of services.

3. The evaluation criteria set out in the notice of intended procurement or tender documentation may include, among others, price and other cost factors, quality, technical merit, environmental characteristics and terms of delivery.

4. A procuring entity shall promptly:

- (a) make available tender documentation to ensure that interested suppliers have sufficient time to submit responsive tenders;
- (b) provide, on request, the tender documentation to any interested supplier; and
- (c) reply to any reasonable request for relevant information by any interested or participating supplier, provided that such information does not give that supplier an advantage over other suppliers.

### *Modifications*

5. Where, prior to the award of a contract, a procuring entity modifies the criteria or requirements set out in the notice of intended procurement or tender documentation provided to participating suppliers, or amends or re-issues a notice or tender documentation, it shall transmit in writing all such modifications or amended or re-issued notice or tender documentation:

- (a) to all suppliers that are participating at the time of the modification, amendment or re-issuance, where such suppliers are known to the entity, and in all other cases, in the same manner as the original information was made available; and
- (b) in adequate time to allow such suppliers to modify and re-submit amended tenders, as appropriate.

## **Article 13.15 : Treatment of Tenders and Awarding of Contracts**

### *Treatment of Tenders*

1. A procuring entity shall receive, open and treat all tenders under procedures that guarantee the fairness and impartiality of the procurement process, and the confidentiality of tenders.
2. A procuring entity shall not penalise any supplier whose tender is received after the time specified for receiving tenders if the delay is due solely to mishandling on the part of the procuring entity.
3. Where a procuring entity provides a supplier with an opportunity to correct unintentional errors of form between the opening of tenders and the awarding of the contract, the procuring entity shall provide the same opportunity to all participating suppliers.

### *Awarding of Contracts*

4. To be considered for an award, a tender shall be submitted in writing and shall, at the time of opening, comply with the essential requirements set out in the notices and tender documentation and be from a supplier that satisfies the conditions for participation.
5. Unless a procuring entity determines that it is not in the public interest to award a contract, the entity shall award the contract to the supplier that the entity has determined to be capable of fulfilling the terms of the contract and that, based solely on the evaluation criteria specified in the notices and tender documentation, has submitted:
  - (a) the most advantageous tender; or
  - (b) where price is the sole criterion, the lowest price.
6. Where a procuring entity receives a tender with a price that is abnormally lower than the prices in other tenders submitted, it may verify with the supplier that it satisfies the conditions for participation and is capable of fulfilling the terms of the contract.
7. A procuring entity shall not use options, cancel a procurement or modify awarded contracts in a manner that circumvents the obligations under this Chapter.

## **Article 13.16 : Post-Award Information**

### *Information Provided to Suppliers*

1. A procuring entity shall promptly inform participating suppliers of the entity's contract award decisions and, on the request of a supplier, shall do so in writing. Subject to Article 13.6 a procuring entity shall, on request, provide an unsuccessful supplier with an explanation of the reasons why the entity did not select its tender and the relative advantages of the successful supplier's tender.

### *Publication of Award Information*

2. No later than 72 days after the award of each contract covered by this Chapter, a procuring entity shall publish a notice in the appropriate paper or electronic medium listed in Annex 13-A. Where the entity publishes the notice only in an electronic medium, the information shall remain readily accessible for a reasonable period of time. The notice shall include at least the following information:

- (a) a description of the goods or services procured;
- (b) the name and address of the procuring entity;
- (c) the name and address of the successful supplier;
- (d) the value of the successful tender or the highest and lowest offers taken into account in the award of the contract;
- (e) the date of award; and
- (f) the type of procurement method used, and in cases where limited tendering was used in accordance with Article 13.10, a description of the circumstances justifying the use of limited tendering.

### *Maintenance of Documentation, Reports and Electronic Traceability*

3. Each procuring entity shall, for a period of at least three years from the date it awards a contract, maintain:

- (a) the documentation and reports of tendering procedures and contract awards relating to covered procurement, including the reports required under Article 13.10; and
- (b) data that ensure the appropriate traceability of the conduct of covered procurement by electronic means.

### **Article 13.17 : Domestic Review of Supplier Complaints**

1. Each Party shall ensure that its entities accord impartial and timely consideration to any complaints from suppliers regarding an alleged breach of measures implementing this Chapter arising in the context of a procurement in which they have, or have had, an interest. Where appropriate, a Party may encourage suppliers to seek clarification from its entities with a view to facilitating the resolution of any such complaints.
2. Each Party shall provide suppliers of the other Party with non-discriminatory, timely, transparent and effective access to an administrative or judicial body competent to hear or review complaints of alleged breaches of the procuring Party's laws, regulations, procedures and practices regarding procurement in the context of procurements in which they have, or have had, an interest.
3. Each Party shall make information on complaint mechanisms generally available.
4. Each Party shall adopt or maintain procedures that provide for:
  - (a) rapid interim measures to preserve the supplier's opportunity to participate in the procurement. Such interim measures may result in suspension of the procurement process. The procedures may provide that overriding adverse consequences for the interests concerned, including the public interest, may be taken into account when deciding whether such measures should be applied. Just cause for not acting shall be provided in writing; and
  - (b) where a review body has determined that there has been a breach or a failure as referred to in paragraph 1, corrective action or compensation for the loss or damages suffered, which may be limited to either the costs for the preparation of the tender or the costs relating to the challenge, or both.

### **Article 13.18 : Use of Electronic Communications in Procurement**

1. The Parties shall seek to provide opportunities for government procurement to be undertaken through the internet.
2. In order to facilitate commercial opportunities for its suppliers under this Chapter, each Party shall maintain a single electronic portal for access to comprehensive information on government procurement supply opportunities in its territory, and information on measures relating to government procurement shall be made available. The contact point or points from whom suppliers can obtain information on government procurement shall either be specified in Annex 13-A, or be set out in the information on the single electronic portal.
3. The Parties shall encourage, to the extent possible, the use of electronic means for the provision of tender documents and receipt of tenders.
4. The Parties shall endeavour to ensure that policies and procedures for the use of electronic means in procurement are adopted that:

- (a) protect documentation from unauthorised and undetected alteration; and
- (b) provide appropriate levels of security for data on, and passing through, the procuring entity's network.

5. Each Party shall encourage its entities to publish as early as possible in the fiscal year information regarding the entities' indicative procurement plans on the electronic portal referred to in paragraph 2.

#### **Article 13.19 : Amendments, Modifications and Rectifications of Annex**

1. Where a Party proposes to make minor rectifications or other modifications of a purely formal or minor nature to Annex 13-A, it shall notify the other Party in writing. Such rectifications or modifications shall become effective 30 days from the date of notification, unless there is an objection from the other Party. The other Party shall not be entitled to compensatory adjustments.

2. Where a Party proposes to make a modification to Annex 13-A on the grounds that government control or influence over an entity has been effectively eliminated as a result of corporatisation and commercialisation or privatisation, it shall notify the other Party in writing. The proposed modification shall become effective 30 days from the date of notification, unless there is an objection from the other Party. The other Party shall not be entitled to compensatory adjustments.

3. Where the other Party objects to a proposed modification or rectification, it shall notify the modifying Party of its objection in writing within 30 days of the notification of the proposed modification or rectification and include the reason for its objection.

4. The Parties shall seek to resolve any objection through technical consultations, which shall be without prejudice to the rights and obligations of the Parties under Chapter 19 (Dispute Settlement).

5. Where a Party proposes to make an amendment for reasons other than those stated in paragraphs 1 and 2, it shall notify the other Party in writing and provide appropriate compensatory adjustments in order to maintain a level of coverage comparable to that existing prior to the amendment. The proposed amendment shall become effective in accordance with Article 21.4 (Amendments).

6. The Joint Commission shall by decision update Annex 13-A to reflect any amendment, modification or rectification that has become effective in accordance with paragraphs 1 through 5.

## **ANNEX 13-A**

#### **Article 19.13 : Implementation**

1. Where the arbitration panel has made findings and rulings in accordance with Article 19.11.8, the responding Party shall immediately comply with the findings and rulings of the arbitration panel. Where it is not practicable to comply immediately, the responding Party shall comply with the findings and rulings within a reasonable period of time. Such reasonable period of time shall, whenever possible, be mutually agreed by the Parties.

2. Where the Parties are unable to agree on the reasonable period of time within 45 days of the presentation of the final report, either Party may refer the matter to the original

arbitration panel, in accordance with Article 19.8.8, which shall determine the reasonable period of time following consultation with the Parties.

3. The arbitration panel shall provide its report to the Parties within 45 days of the date on which the arbitration panel is established, in accordance with Article 19.8.8, to consider the matter referred to in paragraph 2. The report shall contain the ruling of the arbitration panel as to the reasonable period of time and the reasons for its ruling. Prior to making this ruling, the arbitration panel shall seek written submissions from the Parties, and if requested by either Party, hold a meeting with the Parties where each Party will be given an opportunity to present its submission.

#### **Article 19.14 : Compliance within Reasonable Period of Time**

1. The responding Party shall notify the complaining Party in writing before the end of the reasonable period of time of the measures that it has taken to comply with the arbitration panel's findings and rulings, or that it does not intend to comply.

2. Where there is disagreement as to the existence, or consistency with this Agreement, of measures taken within a reasonable period of time to comply with the findings and rulings of the arbitration panel, such dispute shall be decided through recourse to the dispute settlement procedures in this Chapter, including wherever possible by resort to the original arbitration panel, in accordance with Article 19.8.8.

3. The arbitration panel shall provide its report to the Parties within 45 days of the date on which the arbitration panel is established to consider the matter referred to in paragraph 2. When the arbitration panel considers that it cannot provide its report within this timeframe, it shall inform the Parties in writing of the reasons for the delay together with an estimate of the period within which it will submit its report. Any delay shall not exceed a further period of 30 days unless the Parties otherwise agree.

#### **Article 19.15 : Compensation and Suspension of Benefits in Case of Non-Compliance**

1. If the responding Party, before the expiry of the reasonable period of time, fails to notify any measure taken to comply with the arbitration panel's findings and rulings, or notifies in writing that it does not intend to comply with the arbitration panel's findings and rulings, or if the arbitration panel established under Article 19.14.2 rules that no measure taken to comply with its findings and rulings exists, or that the measure notified under Article 19.14.1 is inconsistent with that Party's obligations under this Agreement, the responding Party shall, if so requested, enter into negotiations with the complaining Party within 10 days of the receipt of such request with a view to reaching a mutually satisfactory agreement on any necessary compensatory adjustment.

2. If no agreement on compensation is reached within 30 days of the receipt of the request under paragraph 1, the complaining Party may at any time thereafter provide written notification to the responding Party that it intends to suspend the application to the responding Party of benefits of equivalent effect. The notification shall specify the level of benefits that

the complaining Party intends to suspend. The complaining Party shall have the right to begin suspending those benefits 30 days after the receipt of such notification. However, the right to suspend benefits arising under this paragraph shall not be exercised if an arbitration panel has been established under paragraph 4 and has not yet provided its report.

3. In considering what benefits to suspend pursuant to paragraph 2:

- (a) the complaining Party shall first seek to suspend benefits in the same sector or sectors as that affected by the measure or other matter that the arbitration panel has found to be not in conformity with this Agreement or to have caused nullification or impairment; and
- (b) the complaining Party may suspend benefits in other sectors if it considers that it is not practicable or effective to suspend benefits in the same sector or sectors. The communication in which it announces such a decision shall indicate the reasons on which the decision is based.

4. Within 30 days of the receipt of the notification made under paragraph 2, if the responding Party objects to the level of suspension proposed, the responding Party may, by means of written notification addressed to the complaining Party, request the establishment of an arbitration panel to consider whether the benefits intended to be suspended by the complaining Party are of equivalent effect.

5. Except as otherwise provided in this Article, such matters shall be decided through recourse to the dispute settlement procedures in this Chapter, including wherever possible by resort to the original arbitration panel established in accordance with Article 19.8. Where an arbitration panel is reconvened pursuant to this paragraph, it shall reconvene within 15 days of the date of such request. An arbitration panel established under this Article shall provide a single final report containing its findings and rulings on the matter to the Parties within 45 days of the date that the arbitration panel is established. If the arbitration panel finds that the level of benefits intended to be suspended by the complaining Party is not of equivalent effect, the complaining Party shall modify the level of suspension of benefits accordingly.

6. Where the right to suspend concessions has been exercised under this Article, if the responding Party considers that the level of benefits suspended by the complaining Party is not of equivalent effect, it may by means of written notification addressed to the complaining Party request the establishment of an arbitration panel to consider the matter. The procedures in paragraph 5 shall apply. The complaining Party may continue to suspend benefits while the arbitration panel considers the matter.

7. Compensation and suspension of benefits shall be temporary. Neither compensation nor the suspension of benefits shall be preferred to full compliance with the findings and rulings of the arbitration panel. Compensation and suspension of benefits shall only be applied by the complaining Party until the measure found to be inconsistent with the obligations of this Agreement has been withdrawn or amended so as to bring it into conformity with this Agreement, or the Parties have otherwise reached agreement on a resolution of the dispute.

#### **Article 19.16 : Review**

1. Where the Parties disagree on the existence or consistency with this Agreement of measures taken to comply with the obligation in Article 19.13.1, such dispute shall be decided by recourse to an arbitration panel requested for this purpose by means of written notification by either Party.
2. Such request may only be made after the earlier of:
  - (a) the expiry of the reasonable period of time; or
  - (b) the date of receipt of a notification by the responding Party to the complaining Party that it has complied with its obligations in Article 19.13.
3. Except as otherwise provided in this Article, such matter shall be decided through recourse to the dispute settlement procedures in this Chapter, including wherever possible by resort to the original arbitration panel established in accordance with Article 19.8.
4. Where an arbitration panel is reconvened pursuant to this paragraph, it shall reconvene within 15 days of the date of such request. The arbitration panel shall provide its initial report to the Parties within 60 days of the date on which it is established, and its final report 15 days thereafter. When the arbitration panel considers that it cannot provide its report within this timeframe it shall inform the Parties in writing of the reasons for the delay together with an estimate of the period within which it will provide its report. Any delay shall not exceed a further period of 15 days unless the Parties otherwise agree.
5. If the arbitration panel finds that the responding Party has complied with its obligations in Article 19.13, the complaining Party shall promptly reinstate any benefits it has suspended under the Article 19.15.

#### **Article 19.17 : Expenses**

Unless the arbitration panel decides otherwise because of the particular circumstances of the case, each Party shall bear the cost of its appointed arbitrator and its own expenses. The cost of the chair of the arbitration panel and other expenses associated with the conduct of arbitration panel proceedings shall be borne by the Parties in equal shares.

## ANNEX 19-A

1. These rules shall be read consistently with the provisions of this Chapter.

#### *Notifications*

2. Any written submission, request, notice or other document shall be delivered by a Party or the arbitration panel by delivery against receipt, registered post, courier, facsimile or electronic transmission or any other means of telecommunication that provides a record of the sending thereof.
3. Each Party shall provide to the other Party and to each of the arbitrators a copy of all its written communications related to the arbitral proceedings, including any written submissions, request, notice, or other document. A copy of the written communications shall also be provided in electronic format.
4. Minor errors of a clerical nature in any written submission, request, notice or other document related to the arbitration panel proceedings may be corrected by delivery of a new document clearly indicating the changes.
5. If the last day for delivery of a document falls on a non-business day of a Party, the document may be delivered on the next business day.

#### *Commencing the Arbitration*

6. Unless the Parties otherwise agree, they shall meet with the arbitration panel within seven days following the establishment of an arbitration panel in order to determine such matters that the Parties or the arbitration panel deem appropriate, including the remuneration and expenses that shall be paid to the chair of the arbitration panel, which normally shall conform to the WTO standards. Unless the Parties otherwise agree, this meeting shall not be required to be in person and can be conducted by any means, including via tele-conference, via video-conference or through computer links.

#### *Timetable*

7. After consulting the Parties, the arbitration panel shall, as soon as practicable and whenever possible within 15 days of the establishment of the arbitration panel, fix the timetable for the arbitration panel process.
8. In determining the timetable for the arbitration panel process, the arbitration panel shall provide sufficient time for the Parties to prepare their respective submissions. The arbitration panel shall set precise deadlines for written submissions by the Parties and the Parties shall respect those deadlines. In their written submissions, the Parties shall set out the facts of the case and their arguments.

9. Unless the Parties otherwise agree, an arbitration panel may, in consultation with the Parties, modify any time period established pursuant to these rules and make such other procedural or administrative adjustments as may be required in the arbitration panel proceedings.

#### *Operation of Arbitration Panels*

10. The chair of the arbitration panel shall preside at all of its meetings. The arbitration panel may delegate to the chair authority to make administrative and procedural decisions.

11. Except as otherwise provided in these rules, the arbitration panel may conduct its activities by any means, including telephone, facsimile transmissions, or computer links. Only members of the arbitration panel may take part in the deliberations of the arbitration panel.

12. The drafting of any decision and ruling shall remain the exclusive responsibility of the arbitration panel.

13. Where a procedural question arises that is not covered by these rules, the arbitration panel may adopt an appropriate procedure that is not inconsistent with this Agreement.

14. The arbitration panel may, in consultation with the Parties, retain such number of assistants or designated note-takers as may be required for the arbitration panel proceedings.

15. The arbitration panel's deliberations shall be confidential. The members of the arbitration panel and any persons retained by the arbitration panel under paragraph 14 shall maintain the confidentiality of arbitration panel proceedings and deliberations.

#### *Hearings*

16. The chair shall fix the date and time of the hearing in consultation with the Parties and the other members of the arbitration panel.<sup>46</sup> The chair shall notify in writing to the Parties the date, time and location of the hearing. Unless there is an objection by a Party, the arbitration panel may decide not to convene a hearing.

17. Unless the Parties otherwise agree, the hearing shall be held in the territory of the responding Party. The responding Party shall be in charge of the logistical administration of arbitration panel proceedings, in particular the organisation of hearings, unless otherwise agreed.

18. The arbitration panel may convene additional hearings if the Parties so agree.

---

<sup>46</sup> Except where, in accordance with Article 19.8.8, an arbitration panel comprises only of the chair of the original arbitration panel.

19. All arbitrators shall be present at all hearings.<sup>47</sup>

20. No later than five days before the date of a hearing, each Party shall deliver to the other Party and the arbitration panel a list of the names of representatives or advisers who will be attending the hearing.

21. Hearings shall be open to the public, unless the Parties otherwise agree. The date, time and location of the hearing shall also be made publicly available by the Party in charge of the logistical administration of the arbitration panel proceedings. Part of the hearing may nevertheless be held in closed session, if the arbitration panel, on application by either Party, so decides for good reasons. In particular, hearings shall be held in closed session when the submissions and arguments of a Party contain confidential commercial information.

22. Each hearing shall be conducted by the arbitration panel in a manner that ensures that the complaining Party and the responding Party are afforded equal time for arguments, replies and counter-replies.

23. The arbitration panel may direct questions to either Party at any time during the hearing.

24. Each Party shall make available to the arbitration panel and to the other Party written versions of their oral statements within a specified number of days following the hearing which shall be fixed by the arbitration panel under paragraph 7.

#### *Questions in Writing*

25. The arbitration panel may at any time during the arbitration panel proceedings address questions in writing to either or both of the Parties. In the event that the arbitration panel addresses questions to one Party only, the arbitration panel shall provide a copy of the written questions to the other Party.

26. A Party to whom the arbitration panel addresses written questions shall deliver a copy of any written reply to the other Party and to the arbitration panel in accordance with the timetable established by the arbitration panel under paragraph 7. The other Party shall be given the opportunity to provide written comments on the reply within five days after the date of receipt.

#### *Confidentiality*

27. The Parties shall maintain the confidentiality of the arbitration panel's hearings to the extent that the arbitration panel holds the hearing in closed session under paragraph 21.

28. Each Party shall:

---

<sup>47</sup> Except where, in accordance with Article 19.8.8, an arbitration panel comprises only of the chair of the original arbitration panel.

- (a) unless the Parties otherwise agree, treat as confidential any information or technical advice submitted to the arbitration panel by any individual or body in accordance with a request by the arbitration panel pursuant to Article 19.10; and
- (b) treat as confidential any information submitted by the other Party to the arbitration panel which that Party has designated as confidential.

29. Where a Party submits a confidential version of its written submissions to the arbitration panel, it shall also, on the request of the other Party, provide a non-confidential summary of the information contained in its submissions that could be disclosed to the public, no later than 15 days after the hearing.

30. Nothing in these rules shall preclude either Party from disclosing statements of its own positions to the public.

#### *No ex parte Communications*

31. The arbitration panel shall not meet or contact a Party in the absence of the other Party.

32. Neither Party shall contact any arbitrator in relation to the dispute in the absence of the other Party.

33. No arbitrator shall discuss an aspect of the subject matter of the arbitration panel proceedings with a Party in the absence of the other Party.

#### *Amicus curiae Submissions*

34. The arbitration panel shall have the authority to accept and consider *amicus curiae* submissions from any persons and entities in the territory of the Parties and from interested persons and entities outside the territory of the Parties.

35. Any such submissions shall:

- (a) be made within a specified number of days following the establishment of the arbitration panel which shall be fixed by the arbitration panel under paragraph 7;
- (b) be concise and in no case longer than 15 typed pages, including any annexes; and
- (c) be directly relevant to the factual and legal issue under consideration by the arbitration panel.

36. The submission shall contain a description of the person, whether natural or legal, making the submission, including its nationality or place of establishment, the nature of its

activities and the source of its financing, and specify the nature of the interest that that person has in the arbitration panel proceedings.

37. The arbitration panel shall promptly provide to the Parties copies of any *amicus curiae* submission received by it and list in its ruling all the *amicus curiae* submissions that it has received that conform to the provisions of the above rules. The arbitration panel shall not be obliged to address in its ruling the factual or legal arguments made in such submissions.

#### *Computation of Time*

38. Where anything under this Chapter or these rules is to be done, or the arbitration panel requires anything to be done, within a number of days after, before or of a specified date or event, the specified date or the date on which the specified event occurs shall not be included in calculating that number of days.

39. Where a Party receives a document on a date other than the date on which this document is received by the other Party, any period of time that is calculated on the basis of the date of receipt of that document shall be calculated from the last date of receipt of that document.

## CHAPTER 20 GENERAL PROVISIONS AND EXCEPTIONS

### Article 20.1 : General Exceptions

1. For the purposes of Chapters 2 (Market Access for Goods), 3 (Rules of Origin and Origin Procedures), 4 (Customs Procedures and Trade Facilitation), 5 (Sanitary and Phytosanitary Measures), 6 (Technical Barriers to Trade), 11 (Intellectual Property Rights) and 14 (Agriculture, Forestry and Fisheries Co-operation), Article XX of GATT 1994, including its interpretive notes, is incorporated into and made part of this Agreement, *mutatis mutandis*. The Parties understand that the measures referred to in Article XX(b) of GATT 1994 include environmental measures to protect human, animal or plant life or health, and that Article XX(g) of GATT 1994 applies to measures relating to the conservation of living and non-living exhaustible natural resources.

2. For the purposes of Chapters 8 (Cross-Border Trade in Services), 9 (Temporary Entry of Business Persons), and 10 (Investment), Article XIV of GATS, including its footnotes, is incorporated into and made part of this Agreement, *mutatis mutandis*. The Parties understand that the measures referred to in Article XIV(b) of GATS include environmental measures to protect human, animal or plant life or health.

3. For the purposes of this Agreement, subject to the requirement that such measures are not applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination between the Parties where like conditions prevail, or a disguised restriction on trade in goods or services and investment, nothing in this Agreement shall be construed to prevent the adoption or enforcement by a Party of measures necessary to protect national works or specific sites of historical or archaeological value, or to support creative arts<sup>48</sup> of national value which is customarily practiced.

### Article 20.2 : Security Exceptions

1. Nothing in this Agreement shall be construed:
  - (a) to require a Party to furnish or allow access to any information the disclosure of which it considers contrary to its essential security interests;
  - (b) to prevent a Party from taking any action which it considers necessary for the protection of its essential security interests:

---

<sup>48</sup> “Creative arts” include: the performing arts – including theatre, dance and music – visual arts and craft, literature, film and video, language arts, creative on-line content, indigenous traditional practice and contemporary cultural expression, and digital interactive media and hybrid art work, including those that use new technologies to transcend discrete art form divisions. The term encompasses those activities involved in the presentation, execution and interpretation of the arts; and the study and technical development of these art forms and activities.

- (i) relating to the traffic in arms, ammunition and implements of war and to such traffic in other goods and materials or relating to the supply of services as carried on, directly or indirectly, for the purposes of supplying or provisioning a military establishment,
  - (ii) taken in time of war or other emergency in international relations; or
  - (iii) relating to fissionable and fusionable materials or the materials from which they are derived; or
  - (c) to prevent a Party from taking any action in pursuance of its obligations under the *United Nations Charter* for the maintenance of international peace and security.
2. The Joint Commission shall be informed, to the fullest extent possible, of measures taken under paragraphs 1(b) and (c) and of their termination.

### **Article 20.3 : Measures to Safeguard the Balance of Payments**

1. When a Party is in serious balance of payments and external financial difficulties or under threat thereof, or when in exceptional circumstances, payments and capital movements between the Parties cause or threaten to cause serious difficulties for the operation on monetary policy or exchange rate policy in either Party, it may:
- (a) in the case of trade in goods, in accordance with GATT 1994 and the *WTO Understanding on the Balance-of-Payments Provisions* of GATT 1994, adopt restrictive import measures;
  - (b) in the case of services, adopt or maintain restrictions on trade in services on which it has undertaken specific commitments, including on payments or transfers for transactions related to such commitments; or
  - (c) in the case of investments, adopt or maintain restrictions with regard to payments relating to the transfer of proceeds from investment.
2. Restrictions adopted or maintained under paragraph 1(b) or (c) shall:
- (a) be consistent with the *Articles of Agreement of the International Monetary Fund*;
  - (b) avoid unnecessary damage to the commercial, economic and financial interests of the other Party;
  - (c) not exceed those necessary to deal with the circumstances described in paragraph 1;

- (d) be temporary, and be phased out progressively as the situation specified in paragraph 1 improves;
- (e) not exceed a period of one year; however, if extremely exceptional circumstances arise such that a Party seeks to extend such measures, the Party will co-ordinate in advance with the other Party concerning the implementation of any proposed extension; and
- (f) be applied on a national treatment basis and such that the other Party is treated no less favorably than any non-Party.

3. In determining the incidence of such restrictions, the Parties may give priority to economic sectors which are more essential to their economic development. However, such restrictions shall not be adopted or maintained for the purposes of protecting a particular sector.

4. Any restrictions adopted or maintained by a Party under paragraph 1, or any changes therein, shall be promptly notified to the other Party.

5. The Party adopting or maintaining any restrictions under paragraph 1 shall promptly commence consultations in relation to the measures or any extension thereof on the request of the other Party.

#### **Article 20.4 : Prudential Measures**

Notwithstanding any other provisions of this Agreement, a Party shall not be prevented from taking measures for prudential reasons, including for the protection of investors, depositors, policy holders or persons to whom a fiduciary duty is owed by a financial service supplier, or to ensure the integrity and stability of the financial system. Where such measures do not conform with the provisions of this Agreement, they shall not be used as a means of avoiding a Party's commitments or obligations under this Agreement.

#### **Article 20.5 : Taxation Exception**

1. Except as provided in this Article, nothing in this Agreement shall apply to taxation measures.

2. This Agreement shall grant rights or impose obligations with respect to taxation measures in accordance with subparagraphs (a) through (d):

- (a) Article 2.3 (National Treatment) and such other provisions of this Agreement as are necessary to give effect to that Article shall apply to taxation measures to the same extent as does Article III of GATT 1994;

- (b) Article 2.12 (Export Duties, Taxes, or Other Charges) shall apply to taxation measures;
- (c) Article 8.4 (National Treatment) shall apply to taxation measures on income, on capital gains, on the taxable capital of corporations or on the value of an investment or property<sup>49</sup> (but not on the transfer of that investment or property) that relate to the purchase or consumption of particular services, except that nothing in this subparagraph shall prevent a Party from conditioning the receipt or continued receipt of an advantage relating to the purchase or consumption of particular services on requirements to provide the service in its territory;<sup>50</sup>
- (d) Articles 8.4 (National Treatment), 8.5 (Most-Favoured-Nation Treatment), 10.5 (National Treatment), and 10.6 (Most-Favoured-Nation Treatment) shall apply to all taxation measures, other than those on income, on capital gains, on the taxable capital of corporations, on the value of an investment or property<sup>51</sup> (but not on the transfer of that investment or property), or taxes on estates, inheritances, gifts and generation-skipping transfers.

3. Notwithstanding paragraph 2, nothing in the Articles referred to in paragraph 2 shall apply to:

- (a) any most-favoured-nation obligation with respect to an advantage accorded by a Party in accordance with a tax convention;
- (b) a non-conforming provision of any existing taxation measure;
- (c) the continuation or prompt renewal of a non-conforming provision of any existing taxation measure;
- (d) an amendment to a non-conforming provision of any existing taxation measure to the extent that the amendment does not decrease its conformity, at the time of the amendment, with any of those Articles;
- (e) the adoption or enforcement of any taxation measure aimed at ensuring the equitable or effective imposition or collection of taxes including any taxation measure that differentiates between persons based on their place of residence or

---

<sup>49</sup> This is without prejudice as to the methodology used to determine the value of such investment or property under Parties' respective domestic laws.

<sup>50</sup> For greater certainty, this subparagraph provides that a Party's tax deduction and tax credit rules in respect of the taxes referred to in this subparagraph, that relate to the expenses incurred for purchasing or consuming services covered in this subparagraph from service suppliers, shall not discriminate between a national service supplier and the service suppliers of the other Party.

<sup>51</sup> This is without prejudice as to the methodology used to determine the value of such investment or property under Parties' respective domestic laws.

incorporation, provided that the taxation measure does not arbitrarily discriminate between persons, goods or services of the Parties;<sup>52</sup> or

- (f) a provision that conditions the receipt, or continued receipt of an advantage relating to the contributions to, or income of, a pension trust, superannuation fund, or other arrangement to provide pension, superannuation, or similar benefits on a requirement that the Party maintain continuous jurisdiction, regulation, or supervision over such trust, fund, or other arrangement.

4. Without prejudice to the rights and obligations of the Parties under paragraphs 2(a) and (b), and Articles 10.11.2 through 10.11.4 shall apply to taxation measures.

5. Article 10.9 (Expropriation and Compensation) shall apply to taxation measures. However, no investor may invoke Article 10.9 (Expropriation and Compensation) as the basis for a claim where it has been determined pursuant to this paragraph that the measure is not an expropriation. An investor that seeks to invoke Article 10.9 (Expropriation and Compensation) with respect to a taxation measure must first refer to the competent authorities, at the time that it gives its notice of intent under Article 10.20 (Submission of a Claim to Arbitration), the issue of whether that taxation measure is not an expropriation. If the competent authorities do not agree to consider the issue or, having agreed to consider it, fail to agree that the measure is not an expropriation within a period of six months of such referral, the investor may submit its claim to arbitration under Article 10.20 (Submission of a Claim to Arbitration).

6. Nothing in this Agreement shall affect the rights and obligations of the Parties under any tax convention.

7. For the purposes of this Article, “tax convention” means a convention for the avoidance of double taxation or other international taxation agreement in force between the Parties.

8. In the event of any inconsistency relating to a taxation measure between this Agreement and any such tax convention, that convention shall prevail to the extent of the inconsistency.

9. In the case of a tax convention between the Parties, the competent authorities under that convention shall have sole responsibility for determining whether any inconsistency exists between this Agreement and that convention.

10. For the purposes of this Article, taxation measures shall not include any:

- (a) customs duties as defined in Article 1.5 (Definitions);
- (b) any measures listed in exceptions (b) and (c) of the definition of customs duties in Article 1.5 (Definitions); or

---

<sup>52</sup> The Parties understand that this paragraph must be interpreted by reference to the footnote to Article XIV(d) of GATS as if the Article was not restricted to services or direct taxes.

- (c) import duties.

#### **Article 20.6 : Treaty of Waitangi**

1. Provided that such measures are not used as a means of arbitrary or unjustified discrimination against persons of the other Party or as a disguised restriction on trade in goods and services, nothing in this Agreement shall preclude the adoption by New Zealand of measures it deems necessary to accord more favourable treatment to Maori in respect of matters covered by this Agreement including in fulfilment of its obligations under the *Treaty of Waitangi*.
2. The Parties agree that the interpretation of the *Treaty of Waitangi*, including as to the nature of the rights and obligations arising under it, shall not be subject to the dispute settlement provisions of this Agreement. Chapter 19 (Dispute Settlement) shall otherwise apply to this Article. An arbitration panel established under Article 19.8 (Establishment of an Arbitration Panel) may be requested by Korea to determine only whether any measure referred to in paragraph 1 is inconsistent with its rights under this Agreement.

#### **Article 20.7 : Disclosure of Information**

Nothing in this Agreement shall be construed to require either Party to furnish or allow access to information the disclosure of which it considers would:

- (a) be contrary to the public interest as determined by its domestic laws;
- (b) be contrary to any of its domestic laws, including but not limited to those protecting personal privacy or the financial affairs and accounts of individual customers of financial institutions;
- (c) impede law enforcement; or
- (d) prejudice legitimate commercial interests of particular enterprises, public or private.

#### **Article 20.8 : Confidentiality**

Where a Party provides information to the other Party in accordance with this Agreement and designates the information as confidential, the Party receiving the information shall maintain the confidentiality of the information. The information shall be used only for the purposes specified by the Party providing the information. It shall not be disclosed without the specific written permission of the Party providing the information, except to the extent that the disclosure or use is necessary to comply with the domestic legal requirements of the receiving Party, including for the purposes of judicial proceedings.

## **CHAPTER 21 FINAL PROVISIONS**

The Annexes, Appendices, and footnotes to this Agreement shall constitute an integral part of this Agreement.

This Agreement shall enter into force 30 days after the date the Parties exchange written notifications certifying that they have completed their respective applicable legal requirements and procedures, or on such other date as the Parties may agree in writing.

### **Article 21.3 : Termination**

1. This Agreement shall terminate 180 days after the date that either Party notifies the other Party in writing that it wishes to terminate the Agreement.
2. Within 30 days of the delivery of a notification under paragraph 1, either Party may make a written request to the other Party to enter into consultations regarding whether any provision of this Agreement should terminate on a date later than that provided under paragraph 1. The consultations shall begin no later than 30 days after the Party delivers its request. If no agreement is reached within 180 days of the delivery of notification under paragraph 1, this Agreement shall terminate.

### **Article 21.4 : Amendments**

1. The Parties may agree, in writing, to amend this Agreement. An amendment shall enter into force after the Parties exchange written notifications certifying that they have completed their respective applicable legal requirements and procedures, on such date as the Parties may agree.
2. Unless otherwise provided in this Agreement, if any provision of the WTO Agreement or any other international agreement to which both Parties are party that is incorporated into or referred to in this Agreement is amended, the Parties shall consult on whether to amend this Agreement.

**Article 21.5 : Accession**

This Agreement is open to accession or association, on terms to be agreed between the Parties, by any member of the WTO, or by any other State or separate customs territory.

  - (a) Sector, refers to the sector for which the entry is made;
  - (b) Obligation Concerned, specifies the obligation(s) referred to in paragraph 1 that, pursuant to Articles 8.8.1(a) and 10.15.1(a), does not apply to the non-conforming aspects of the law, regulation, or other measures, as set out in paragraph 3;
  - (c) Level of Government,<sup>53</sup> indicates the level of government maintaining the scheduled measure(s);
  - (d) Measures,<sup>54</sup> identifies the laws, regulations, or other measures for which the entry is made. A measure cited in the Measures element:
    - (i) means the measure as amended, continued, or renewed as of the date of entry into force of this Agreement; and
    - (ii) includes any subordinate measure adopted or maintained under the authority of and consistent with the measure; and

---

<sup>53</sup> If none is specified, the measure is maintained at the central level of government.

<sup>54</sup> For greater certainty, a change in the level of government at which a measure is administered or enforced does not, by itself, decrease the conformity of the measure with the obligations referred to in Article 8.8.1 and Article 10.15.1.

- (e) Description, sets out commitments, if any, for liberalisation on the date of entry into force of this Agreement, and the remaining non-conforming aspects of the measure for which the entry is made.

3. In the interpretation of a Schedule entry, all elements of the entry shall be considered. An entry shall be interpreted in light of the relevant Articles of the Chapters against which the entry is made. To the extent that:

- (a) the Measures element is qualified by a liberalisation commitment from the Description element, the Measures element as so qualified shall prevail over all other elements; and
- (b) the Measures element is not so qualified, the Measures element shall prevail over all other elements, unless any discrepancy between the Measures element and the other elements considered in their totality is so substantial and material that it would be unreasonable to conclude that the Measures element should prevail, in which case the other elements shall prevail to the extent of that discrepancy.

4. In accordance with Articles 8.8.1(a) and 10.15.1(a) and subject to Articles 8.8.1(c) and 10.15.1(c), the Articles of this Agreement specified in the Obligations Concerned element of an entry do not apply to the non-conforming aspects of the law, regulation, or other measure identified in the Measures element of that entry.

5. Where Korea maintains a measure that requires that a service provider be a citizen, permanent resident, or resident of its territory as a condition to the provision of a service in its territory, a Schedule entry for that measure taken with respect to Article 8.4 (National Treatment), 8.5 (Most-Favoured-Nation Treatment), or 8.7 (Local Presence) shall operate as a Schedule entry with respect to Article 10.5 (National Treatment), 10.6 (Most-Favoured-Nation Treatment), or 10.11 (Performance Requirements) to the extent of that measure.

6. A “foreign person” means a foreign national or an enterprise organised under the laws of another country.

7. For greater certainty, Articles 8.4 (National Treatment) and 8.7 (Local Presence) are separate disciplines and a measure that is only inconsistent with Article 8.7 (Local Presence) need not be reserved against Article 8.4 (National Treatment).

| Description:           | <p><u>Cross-Border Trade in Services</u></p> <p>The existing regulation broadly states that only juridical persons that have obtained authorisation from the Minister of Land, Infrastructure and Transport may supply railroad transportation services. In practice, however, only juridical persons of Korean nationality (of which shares are 100 per cent owned by the shareholders with Korean nationality) established by a Korean national may supply railroad transportation services on railroad routes constructed on or before 30 June, 2005.</p> <p>Only juridical persons that have obtained authorisation from the Minister of Land, Infrastructure and Transport may supply railroad transportation services on railroad routes constructed on or after 1 July, 2005. Such authorisation is subject to an economic needs test.</p> <p>Only the central or local level of government, or the Korea Rail Network Authority may supply rail construction services and maintain and repair government-owned rail facilities (including high-speed rail). However, juridical persons that meet the criteria in the <i>Private Investment in Social Infrastructure Act</i> may supply rail construction services.</p> |

Description:

Cross-Border Trade in Services

A person that supplies architectural services, engineering services, integrated engineering services, urban planning and landscape architectural services, or surveying services must establish an office in Korea.

For greater certainty, this entry does not apply to the supply of services by a foreign licensed architect through a joint contract with a Korean-licensed architect who registered in architectural profession and established an architect's office.

Only a local government may establish a *gong-yeong-domae-sijang* (public wholesale market).

Only producers' organisations or public interest corporations prescribed in the *Enforcement Decree of the Act on Distribution and Price Stabilization of Agricultural and Fishery Products* may establish a *gong-pan-jang* (joint wholesale market).

For greater certainty, Articles 8.4 (National Treatment) and 8.6 (Market Access) do not prevent Korea from adopting or maintaining any measure with respect to the administration of the WTO Tariff-Rate-Quota.

license for a signal transmission network business operator, audio cable operator or a program provider that is not engaged in *jong-hap-pyeon-sung* (multi-genre programming), home shopping, or *bo-do* (news reporting) is granted through *deung-rok* (registration).

A foreign government, foreign person, or deemed foreign person shall not hold:

- (a) an equity interest in a terrestrial broadcaster, relay-only cable operator, or program provider that is engaged in *jong-hap-pyeon-sung* (multi-genre programming) or *bo-do* (news reporting);
- (b) in the aggregate more than 33 percent of the total issued stocks or equity interest of a satellite broadcasting operator; or
- (c) in the aggregate more than 49 percent of the total issued stocks or equity interest of a cable system operator, a signal transmission network business operator, or a program provider that is not engaged in *jong-hap-pyeon-sung* (multi-genre programming) or *bo-do* (news reporting).

For transparency purposes, no single person (including “specially related person” under Article 3 of the *Enforcement Decree of the Broadcasting Act*) may hold in the aggregate more than 30 percent of the total issued stocks or equity interest of a terrestrial broadcaster or a program provider that is engaged in *jong-hap-pyeon-sung* (multi-genre programming) or *bo-do* (news reporting), unless such broadcaster primarily provides religious or missionary content. Such limitations do not apply to the Government of Korea and a corporation established by a special law (e.g., Mun-hwa Broadcasting Corporation (MBC), which is established under the *Foundation for Broadcast Culture Act*).

A terrestrial broadcaster, program provider, cable system operator, or satellite broadcasting operator must include Korean content of at least the ratio publicly notified by the Korea Communications Commission, within the limit referred to in the following subparagraphs:

- (a) in the case of a terrestrial broadcaster or program provider that uses terrestrial broadcasting to provide its programming, not less than 60

percent but not more than 80 percent of the quarterly programming hours per channel;

- (b) in the case of a cable system operator or a satellite broadcasting operator, not less than 40 percent but not more than 70 percent of the quarterly programming hours per channel; and
- (c) in the case of a program provider that does not use terrestrial broadcasting to provide its programming, not less than 20 percent but not more than 50 percent of the quarterly programming hours per channel.

A broadcaster must include domestically produced movies, animations and popular music of at least the ratio publicly notified by the Korea Communications Commission, within the limit referred to in the following subparagraphs:

- (a) movies: not less than 20 percent but not more than 40 percent of the yearly programming hours of the channel concerned;
- (b) animations: not less than 30 percent but not more than 50 percent of the yearly programming hours of the channel concerned; and
- (c) popular music: not less than 50 percent but not more than 80 percent of the yearly programming hours of the channel concerned.

However, a broadcaster engaged in specialised programming pertaining to religion or education must include domestically produced movies and animations of at least the ratio publicly notified by the Korea Communications Commission, within the limit of not more than 40 percent of the yearly programming hours of movies or animations of the channel concerned.

Korea shall permit no more than 60 percent of a terrestrial broadcaster's, cable system operator's, satellite broadcasting operator's, or program provider's quarterly programming hours of foreign content per genre to be foreign content of a single country (single-country content ceiling).

For the purposes of this entry:

- (a) "program provider engaged in *jong-hap-pyeon-sung*" (multi-genre programming) means a

program provider that offers a combination of news, entertainment, drama, movies, music programming, etc.;

- (b) “deemed foreign person” means a juridical person organised under Korean law in which a foreign government or a foreign person holds in the aggregate more than 50 percent of the juridical person’s total issued stocks or equity interest, or whose largest shareholder is a foreign government or a foreign person; and
- (c) a “satellite broadcasting operator” includes an operator that uses or leases capacity on a satellite registered in a foreign country.

NEW ZEALAND  
EXPLANATORY NOTE

1. The Schedule of New Zealand to this Annex sets out, pursuant to Articles 8.8 (Non-Conforming Measures) and 10.15 (Non-Conforming Measures), New Zealand's existing measures that are not subject to some or all of the obligations imposed by:

- (a) Article 8.4 (National Treatment) or 10.5 (National Treatment);
- (b) Article 8.5 (Most-Favoured-Nation Treatment) or 10.6 (Most-Favoured-Nation Treatment);
- (c) Article 8.6 (Market Access);
- (d) Article 8.7 (Local Presence);
- (e) Article 10.11 (Performance Requirements); or
- (f) Article 10.12 (Senior Management and Board of Directors);

For greater certainty, Article 8.6 (Market Access) refers to non-discriminatory measures.

2. Article 8.4 (National Treatment) and Articles 8.7 (Local Presence) are separate disciplines and a measure that is only inconsistent with Article 8.7 (Local Presence) need not be reserved against Articles 8.4 (National Treatment).

3. Each entry in New Zealand's Schedule sets out the following elements:

- (a) Sector, refers to the sector in which the entry is made;
- (b) Obligations Concerned, specifies the obligation(s) referred to in paragraph 1;
- (c) Measures, identifies the measures for which the entry is made. A measure cited in the Measures element:
  - (i) means the measure as amended, continued, or renewed as of the date of entry into force of this Agreement; and
  - (ii) includes any subordinate measure adopted or maintained under the authority of and consistent with the measure; and
- (d) Description, sets out the non-conforming measure to which the entry applies.

4. In accordance with Articles 8.8 (Non-Conforming Measures) and 10.15 (Non-Conforming Measures), the Articles of this Agreement specified in the Obligations Concerned element of an entry do not apply to the laws, regulations, procedures, requirements or practices identified in the Description element of that entry.

5. All elements of the entry shall be considered in their totality for the purposes of its interpretation.

Measure: *Dairy Industry Restructuring Act 2001*

Description: Cross Border Trade in Services and Investment

The *Dairy Industry Restructuring Act 2001* (DIRA) and regulations provide for the New Zealand government to acquire, free of charge, and without condition, a copy of a regulated database held by the Livestock Improvement Corporation Ltd (LIC) in the event of its demutualisation or certain other events.

Furthermore, should LIC be liquidated or removed from New Zealand's register of companies or the New Zealand government receives a copy of the database as specified above, the New Zealand government may determine arrangements for the database to be managed by another dairy industry entity. In doing so, it may take into account nationality and residency considerations, including in relation to senior management and composition of the board of directors.

In addition, the DIRA sets out data reporting obligations to the LIC applying to those engaged in herd testing of dairy cattle.

The DIRA also provides for access to the data held in the core database to be denied if access is not beneficial, or is harmful, to the New Zealand dairy industry, which could take into account nationality or residency considerations and the intended use of the data. Conditions may also be applied to data use.

The DIRA restricts who may hold shares in LIC, and this regime may not be amended without the consent of the responsible Minister

## KOREA

### EXPLANATORY NOTE

1. The Schedule of Korea to this Annex sets out, pursuant to Articles 8.8 (Non-Conforming Measures) and 10.15 (Non-Conforming Measures), the specific sectors, subsectors, or activities for which Korea may maintain existing, or adopt new or more restrictive, measures that do not conform with obligations imposed by:

- (a) Article 8.4 (National Treatment) or 10.5 (National Treatment);
- (b) Article 8.5 (Most-Favoured-Nation Treatment) or 10.6 (Most-Favoured-Nation Treatment);
- (c) Article 8.6 (Market Access);
- (d) Article 8.7 (Local Presence);
- (e) Article 10.11 (Performance Requirements); or
- (f) Article 10.12 (Senior Management and Boards of Directors).

2. Each Schedule entry sets out the following elements:

- (a) Sector, refers to the sector for which the entry is made;
- (b) Obligation Concerned, specifies the obligation(s) referred to in paragraph 1 that, pursuant to Articles 8.8.2 and 10.15.2, do not apply to sectors, subsectors, or activities set out in the Schedule;
- (c) Description, sets out the scope of the sectors, sub-sectors, or activities covered by the entry; and
- (d) Existing Measures, identifies, for transparency purposes, existing measures that apply to the sectors, subsectors, or activities covered by the entry.

3. In accordance with Articles 8.8.2 and 10.15.2, the Articles of this Agreement specified in the Obligations Concerned element of an entry do not apply to the sectors, subsectors, and activities identified in the Description element of that entry.

4. A “foreign person” means a foreign national or an enterprise organised under the laws of another country.

5. For greater certainty, Articles 8.4 (National Treatment) and 8.7 (Local Presence) are separate disciplines and a measure that is only inconsistent with Article 8.7 (Local Presence) need not be reserved against Article 8.4 (National Treatment).

## SCHEDULE OF KOREA

---

Sector: All Sectors

Obligations Concerned: National Treatment (Article 10.5)  
Performance Requirements (Article 10.11)

Description: Investment

1. Korea reserves the right to adopt, with respect to the establishment or acquisition of an investment, any measure that is necessary for the maintenance of public order pursuant to Article 4 of the *Foreign Investment Promotion Act* (2012) and Article 5 of the *Enforcement Decree of the Foreign Investment Promotion Act* (2013), provided that Korea promptly provides written notice to New Zealand that it has adopted such a measure and that the measure:

- (a) is applied in accordance with the procedural requirements set out in the *Foreign Investment Promotion Act* (2012), *Enforcement Decree of the Foreign Investment Promotion Act* (2013), and other applicable law;
- (b) is adopted or maintained only where the investment poses a genuine and sufficiently serious threat to the fundamental interests of society;
- (c) is not applied in an arbitrary or unjustifiable manner;
- (d) does not constitute a disguised restriction on investment; and
- (e) is proportional to the objective it seeks to achieve.

2. Without prejudice to any claim that may be submitted to arbitration pursuant to Article 10.18 (Settlement of Investment Disputes between a Party and an Investor of the other Party), a claimant may submit to arbitration under Section B of Chapter 10 (Investment) a claim that:

- (a) Korea has adopted a measure for which it has provided notice pursuant to paragraph 1; and

- (b) the claimant or, as the case may be, an enterprise of Korea that is a juridical person that the claimant owns or controls directly or indirectly, has incurred loss or damage by reason of, or arising out of, the measure.

In the event of such a claim, Section B of Chapter 10 (Investment) shall apply, *mutatis mutandis*, and all references in Section B of Chapter 10 (Investment) to a breach, or to an alleged breach, of an obligation under Section A of Chapter 10 (Investment) shall be understood to refer to the measure, which would constitute a breach of an obligation under Section A of Chapter 10 (Investment) but for this entry. However, no award may be made in favour of the claimant, if Korea establishes to the satisfaction of the tribunal that the measure satisfies all the conditions listed in subparagraphs (a) through (e) of paragraph 1.

Existing Measures:

*Foreign Investment Promotion Act* (Law No. 11535, December 11, 2012), Article 4

*Enforcement Decree of the Foreign Investment Promotion Act* (Presidential Decree No. 24638, June 28, 2013), Article 5

Obligations Concerned: Market Access (Article 8.6)

Description: Cross-Border Trade in Services

Korea reserves the right to adopt or maintain any measure that is not inconsistent with Korea's obligations under Article XVI of GATS as set out in *Korea's Schedule of Specific Commitments* under GATS (*GATS/SC/48*, *GATS/SC/48/Suppl.1*, *GATS/SC/48/Suppl.1/Rev.1*, *GATS/SC/48/Suppl.2*, *GATS/SC/48/Suppl.3*, and *GATS/SC/48/Suppl.3/Rev.1*).

For the purposes of this entry only, Korea's Schedule is subject to the following modifications:

- (a) for any sector and subsector with regard to which Korea's Annex I contains an entry (other than an entry with regard to "All Sectors") that does not list Market Access as one in the Obligations Concerned element, "None" is inscribed in the Market Access column for modes 1, 2, and 3, and "Unbound except as indicated in the Horizontal Commitments section" is inscribed for mode 4;
- (b) for any sector and subsector with regard to which Korea's Annex I contains an entry (other than an entry with regard to "All Sectors") that lists a limitation to the Market Access obligation, that limitation is inscribed in the Market Access column with regard to the appropriate mode of supply; and
- (c) for any sector and subsector listed in Appendix II-A, Korea's Schedule is modified as indicated in that Appendix.

These modifications shall not affect any limitation relating to subparagraph (f) of paragraph 2 of Article XVI of GATS inscribed in the Market Access column of Korea's Schedule.

For greater certainty, an entry of "None" in the Market Access column of Korea's Schedule shall not be construed to alter the application of Article 8.7 (Local Presence) as modified by Article 8.8 (Non-Conforming Measures).

Korea reserves the right to adopt or maintain any measure with respect to the provision of international maritime passenger transportation services, maritime cabotage, and the operation of Korean vessels, including the following measures:

a person that supplies international maritime passenger transportation services must obtain a license from the Minister of Oceans and Fisheries, which is subject to an economic needs test.

Without prejudice to the scope of activities which may be considered as cabotage under the relevant national legislation, maritime cabotage is reserved for Korean vessels, which are assumed to cover transportation of passengers or goods between a port or point located in the entire Korean peninsula or any adjacent Korean islands and another port or point located in the entire Korean peninsula or any adjacent Korean islands, including on its continental shelf as provided in the *United Nations Convention on the Law of the Sea*, and traffic originating and terminating in the same port or point located in the entire Korean peninsula and any adjacent Korean islands.

“Korean vessel” means:

- (a) a vessel owned by the Korean government, a state enterprise, or an institution established under the Ministry of Oceans and Fisheries;
- (b) a vessel owned by a Korean national;
- (c) a vessel owned by an enterprise organised under the *Korean Commercial Code*; or
- (d) a vessel owned by an enterprise organised under foreign law that has its principal office in Korea and whose *dae-pyo-ja* (for example, a chief

executive officer, president, or similar principal senior officer) is a Korean national. In the event there is more than one, all *dae-pyo-ja* must be Korean nationals.

For greater certainty, measures relating to the landside aspects of port activities are subject to the application of Article 20.2 (Security Exceptions).

### EXPLANATORY NOTE

1. The Schedule of New Zealand to this Annex sets out, pursuant to Articles 8.8 (Non-Conforming Measures) and 10.15 (Non-Conforming Measures), the specific sectors, subsectors, or activities for which New Zealand may maintain existing, or adopt new or more restrictive, measures that do not conform with obligations imposed by:

- (a) Article 8.4 (National Treatment) or 10.5 (National Treatment);
- (b) Article 8.5 (Most-Favoured-Nation Treatment) or 10.6 (Most-Favoured-Nation Treatment);
- (c) Article 8.6 (Market Access);
- (d) Article 8.7 (Local Presence);
- (e) Article 10.11 (Performance Requirements); or
- (f) Article 10.12 (Senior Management and Boards of Directors).

For greater certainty, Article 8.6 (Market Access) refers to non-discriminatory measures.

2. Articles 8.4 (National Treatment) and 8.7 (Local Presence) are separate disciplines and a measure that is only inconsistent with Article 8.7 (Local Presence) need not be reserved against Article 8.4 (National Treatment).

3. Each entry in New Zealand's Schedule sets out the following elements:

- (a) Sector, refers to the sector in which the entry is made;
- (b) Obligations Concerned, specifies the obligation(s) referred to in paragraph 1;
- (c) Description, sets out the nature or scope of the non-conforming measures in the sectors, sub-sectors or activities covered by the entry; and
- (d) Existing measure, is included for transparency purposes. The measures stipulated therein are not exhaustive.

4. In accordance with Articles 8.8 (Non-Conforming Measures) and 10.15 (Non-Conforming Measures), the Articles of this Agreement specified in the Obligations Concerned element of an entry do not apply to the sectors, subsectors, and activities identified in the Description element of that entry.

5. Where an inconsistency arises in relation to the interpretation of an entry, the Description element of the entry shall prevail to the extent of the inconsistency.
