CHAPTER TWO TRADE IN GOODS

Article 2.1: Definitions

For purposes of this Chapter:

consular transactions means requirements that goods of a Party intended for export to the territory of the other Party must first be submitted to the supervision of the consul of the importing Party in the territory of the exporting Party for the purpose of obtaining consular invoices or consular visas for commercial invoices, certificates of origin, manifests, shippers' export declarations, or any other customs documentation required on or in connection with importation; and

import licensing means an administrative procedure requiring the submission of an application or other documentation (other than that required for customs purposes) to the relevant administrative body as a prior condition for importation into the territory of the importing Party.

Article 2.2: Objectives

The Parties shall liberalize trade in goods under this Agreement, in conformity with Article XXIV of GATT 1994.

Article 2.3: Scope and Coverage

Except as otherwise provided for in this Agreement, this Chapter shall apply to trade in goods between the Parties.

Article 2.4: Reduction or Elimination of Customs Duties

1. Except as otherwise provided in this Agreement, each Party shall reduce or eliminate its customs duties on originating goods of the other Party in accordance with its respective Schedule of Tariff Commitments reflected in Annex 2-A.

2. In accordance with the WTO Agreement, originating goods of the other Party shall be eligible, at the time of importation, for the most-favored-nation (MFN) applied rate of customs duty for those goods in a Party, where that MFN

applied rate is lower than the preferential rate of customs duty provided for in that Party's Schedule of Tariff Commitments. Subject to each Party's laws and regulations, each Party shall provide that an importer may apply for a refund of any excess duty paid for a good if the importer did not make a claim for the lower MFN rate applicable at the time of importation.

3. Except as otherwise provided in this Agreement, neither Party shall increase any existing customs duty, or adopt any new customs duty, on originating goods of the other Party, as provided in its Schedule of Tariff Commitments.

Article 2.5: Acceleration of Tariff Commitments

1. A Party may, at any time, unilaterally improve or accelerate its tariff commitments set out in its Schedule of Tariff Commitments. Such Party shall inform the other Party as early as practicable before the new preferential rate of customs duty takes effect.

2. Upon request of a Party, the Parties will consult to consider accelerating the reduction or elimination of customs duties set out in their respective Schedule of Tariff Commitments. An agreement by the Parties to accelerate the reduction or elimination of a customs duty on a good shall supersede any duty rate or staging category determined pursuant to their respective Schedules of Tariff Commitments reflected in Annex 2-A.

3. Following a unilateral improvement or acceleration of its tariff commitments referred to in Paragraph 1, a Party may raise its preferential customs duty to a level not in excess of that set out in its Schedule of Tariff Commitments for that year. Such Party shall inform the other Party of the date from which the new preferential rate of customs duty comes into effect as early as practicable before such date.

Article 2.6: Classification of Goods

The classification of goods in trade between the Parties shall be in conformity with the Harmonized System (HS).

Article 2.7: Agricultural Export Subsidies

The Parties reaffirm their commitments made in the 2015 Ministerial Decision on Export Competition, adopted in Nairobi, including elimination of scheduled export subsidy entitlements for agriculture goods.

Article 2.9: Temporary Admission of Goods

1. Each Party shall allow, as provided for in its laws and regulations, goods to be brought into its customs territory conditionally relieved, totally or partially, from payment of import duties and taxes, if such goods:

- (a) are brought into its customs territory for a specific purpose;
- (b) are intended for re-exportation within a specific period; and
- (c) have not undergone any change, except normal depreciation and wastage due to the use made of them.

2. Each Party shall, at the request of the person concerned and for reasons its customs authority considers valid, extend the time limit for duty-free temporary admission provided for in paragraph 1 beyond the period initially fixed.

3. Neither Party shall condition the duty-free temporary admission of a good provided for in paragraph 1, other than to require that the good:

- (a) be used solely by or under the personal supervision of a national or resident of the other Party in the exercise of the business activity, trade, profession, or sport of that person;
- (b) not be sold or leased while in its territory;
- (c) be accompanied by a security or guarantee in an amount no greater than the customs duties, taxes, fees, and charges that would otherwise be owed on entry or final importation, releasable on exportation of the good;
- (d) be capable of identification when imported and exported;
- (e) be exported on the departure of the person referred to in subparagraph (a), or within such other period related to the

purpose of the temporary admission as the Party may establish, unless extended;

(f) be admitted in no greater quantity than is reasonable for its intended use; and

(g) be otherwise admissible into the Party's territory under its laws and regulations.

4. If any condition that a Party imposes under paragraph 3 has not been fulfilled, the Party may apply the customs duty and any other charge that would normally be owed on the good in addition to any other charges or penalties provided for under its laws and regulations.

5. Each Party shall permit a good temporarily admitted under this Article to be re-exported through a customs port other than that through which it was admitted.

Article 2.10: Customs Valuation

For purposes of determining the customs value of goods traded between the Parties, Article VII of GATT 1994 and Part I of the Customs Valuation Agreement shall apply and are hereby incorporated into and made part of this Agreement, *mutatis mutandis*.

Article 2.11: Quantitative Restrictions and Non-Tariff Measures

1. Except as otherwise provided in this Agreement, neither Party shall adopt or maintain any prohibition or restriction other than duties, taxes, or other charges, whether made effective through quotas, import or export licenses, or other measures, on the importation of any good of the other Party or on the exportation of any good destined for the territory of the other Party, except in accordance with its rights and obligations under the relevant provisions under the WTO Agreement. To this end, Article XI of GATT 1994 shall apply and is hereby incorporated into and made part of this Agreement, *mutatis mutandis*.

2. In this regard, a Party shall not adopt or maintain any non-tariff measure on the importation of any good of the other Party or on the exportation of any good destined for the territory of the other Party, except in accordance with its WTO rights and obligations or in accordance with this Agreement.

3. Each Party shall ensure the transparency of its non-tariff measures permitted under paragraph 2 and shall ensure that any such measures are not

prepared, adopted, or applied with the view to or with the effect of creating unnecessary obstacles to trade between the Parties.

Article 2.12: Import Licensing

1. With respect to the rights and obligations of the Parties concerning import licensing, the *Agreement on Import Licensing Procedures* in Annex 1A to the WTO Agreement shall apply and is hereby incorporated into and made part of this Agreement, *mutatis mutandis*.

2. Within 30 days after the date of entry into force of this Agreement, each Party shall notify the other Party of its existing import licensing procedures¹, if any. The notification shall:

- (a) include the information specified in Article 5 of the Import Licensing Agreement; and
- (b) be without prejudice as to whether the import licensing procedure is consistent with this Agreement.

3. Before applying any new or modified import licensing procedure, a Party shall notify the other Party of the new procedure or modification, and to the extent possible, publish in an official government website at least 20 days before the new procedure or modification takes effect.

Article 2.13: Fees and Formalities

1. Each Party shall ensure, in accordance with Article VIII:1 of GATT 1994, that all fees and charges of whatever character (other than import or export duties, and other than taxes within the purview of Article III of GATT 1994, and any additional customs duty collected as a result of a measure consistent with Chapter Three (Trade Remedies)) imposed on or in connection with importation or exportation are limited in amount to the approximate cost of services rendered and do not represent an indirect protection to domestic goods or a taxation on imports or exports for fiscal purposes.

2. Each Party shall promptly publish details of the fees and charges that it imposes in connection with importation or exportation and shall make such information available on the internet.

¹ Existing import licensing procedures being referred to in this paragraph are those which have not yet been notified to the WTO at the date of entry into force of this Agreement.

3. Neither Party shall require consular transactions, including related fees and charges, in connection with the importation of a good of the other Party.

Article 2.14: National Treatment on Internal Taxation and Regulation

Each Party shall accord national treatment to the goods of the other Party in accordance with Article III of GATT 1994. To this end, Article III of GATT 1994 shall be incorporated into and shall form part of this Agreement, *mutatis mutandis*.

Article 2.15: Agricultural Safeguard Measures

1. Notwithstanding Article 2.4, a Party may apply an agricultural safeguard measure only up to the end of that particular year when it was imposed, in the form of a higher import duty on an originating agricultural good listed in that Party's Schedule to Annex 2-B, consistent with paragraphs 2 through 7 if the aggregate volume of imports of that good in any year exceeds a trigger level as set out in its Schedule to Annex 2-B.

2. The duty under paragraph 1 shall not exceed the lesser of:

- (a) the prevailing most-favored-nation (MFN) applied rate;
- (b) the MFN applied rate of duty in effect on the day immediately preceding the date of entry into force of this Agreement; or
- (c) the duty rate set out in the applying Party's Schedule to Annex 2-B.

3. The duties each Party applies under paragraph 1 shall be set according to the maximum duty that may be applied each year for each such good in the Party's Schedule to Annex 2-B.

4. Neither Party may apply or maintain an agricultural safeguard measure and at the same time apply or maintain, with respect to the same good:

- (a) a bilateral transitional safeguard measure under Chapter Three (Trade Remedies);
- (b) a measure under Article XIX of GATT 1994 and the Safeguards Agreement; or
- (c) a measure under any agricultural safeguard provisions of the

Agreement on Agriculture in Annex 1A to the WTO Agreement.

5. A Party shall implement any agricultural safeguard measure in a transparent manner. Within 60 days after imposing a measure, the Party applying the measure shall notify the other Party in writing and provide the other Party with relevant data concerning the measure. On the written request of the other Party, a Party shall consult with the other Party within 45 days upon receipt of the written request regarding the application of the measure.

6. The implementation and operation of this Article may be the subject of discussion and review in the Committee on Trade in Goods under Article 2.20.

7. Neither Party shall apply or maintain an agricultural safeguard measure on an originating agricultural good if the period specified in the agricultural safeguard provisions of the Party's Schedule to Annex 2-B has expired.

1. The Parties affirm their existing rights and obligations with respect to each other under the *Agreement on the Application of Sanitary and Phytosanitary Measures* in Annex 1A to the WTO Agreement.

2. Neither Party shall have recourse to Chapter Nine (Dispute Settlement) for any matter arising under this Article.

Article 2.17: Technical Barriers to Trade

The Parties affirm their existing rights and obligations with respect to each other under the *Agreement on Technical Barriers to Trade*, in Annex 1A to the WTO Agreement.

Article 2.18: Modification of Concessions

In exceptional circumstances, where a Party faces unforeseen difficulties in implementing its tariff commitments, that Party may, subject to an agreement with the other Party, modify or withdraw a concession contained in its schedule of tariff commitments. In order to reach such agreement, a Party shall engage in negotiations with the other Party. In such negotiations, the Party proposing to modify or withdraw a concession shall maintain a level of reciprocal and mutually advantageous concessions no less favorable to the other Party than that provided for in this Agreement prior to such negotiations, which may include compensatory adjustments with respect to other goods. The mutually agreed outcome of the negotiations, including any compensatory adjustments, shall be

incorporated into this Agreement in accordance with Article 12.2 (Amendments).

Article 2.19: Contact Points

The Parties shall exchange contact details of focal points for this Chapter in order to facilitate the communication and the exchange of information.

Article 2.20: Committee on Trade in Goods

1. The Parties hereby establish a Committee on Trade in Goods composed of government representatives of each Party.
2. The Committee on Trade in Goods may consider any matter arising under this Chapter, including Annex 2-A.
3. The functions of the Committee on Trade in Goods shall include:
 - (a) monitoring the implementation and administration of this Chapter, including utilization of their respective preferences, and undertaking consultations, as appropriate;
 - (b) preparing technical amendments, including the transposition of the Tariff Elimination or Reduction Schedules according to the amendments in the HS;
 - (c) reviewing and making appropriate recommendations to the Joint Committee on matters arising from the implementation and administration of the Chapter;
 - (d) addressing matters related to trade in goods between the Parties, especially those related to quantitative restrictions, non-tariff measures, and, if appropriate, referring such matters to the Joint Committee for its consideration; and
 - (e) carrying out other functions as may be delegated by the Joint Committee or agreed by the Parties.
4. The Committee on Trade in Goods shall strengthen their cooperation to facilitate the exchange of information between the competent authorities of the Parties, for purposes of carrying out the functions under paragraph 3.

5. The Committee on Trade in Goods shall meet at least once a year or as otherwise agreed. Meetings may be conducted in person or by any technological means available to the Parties.

6. The Committee on Trade in Goods shall report to the Joint Committee on the results of its meetings.

CHAPTER THREE TRADE REMEDIES

Section A: Safeguard Measures

Article 3.1: Definitions

For purposes of this Section:

bilateral transitional safeguard measure means a measure described in Article 3.2;

domestic industry means, with respect to an imported good, the producers as a whole of the like or directly competitive good operating in the territory of a Party, or those whose collective output of the like or directly competitive good constitutes a major proportion of the total domestic production of that good;

serious injury means a significant overall impairment in the position of a domestic industry;

substantial cause means a cause that is important and not less than any other cause;

threat of serious injury means serious injury that, on the basis of facts and not merely on allegation, conjecture, or remote possibility, is clearly imminent; and

transition period means, in relation to a particular good, the period from the date of entry into force of this Agreement until three years after the date of completion of tariff reduction or elimination in accordance with a Party's schedule of tariff commitments in Annex 2-A (Reduction or Elimination of Customs Duties).

Article 3.2: Application of a Bilateral Transitional Safeguard Measure

1. If, as a result of the reduction or elimination of a customs duty under this Agreement, an originating good of the other Party is being imported into the territory of a Party in such increased quantities, in absolute terms or relative to domestic production, and under such conditions that the imports of such originating good from the other Party constitute a substantial cause of serious injury, or threat

thereof, to a domestic industry producing a like or directly competitive good in the territory of the importing Party, the Party may take a bilateral transitional safeguard measure in the form of:

- (a) suspending the further reduction of any rate of customs duty on the good provided for under this Agreement; or
- (b) increasing the rate of customs duty on the good to a level not to exceed the lesser of:
 - (i) the most-favored-nation (MFN) rate of duty applied at the time the bilateral transitional safeguard measure is taken; or
 - (ii) the MFN rate of duty applied on the day immediately preceding the date of the entry into force of this Agreement.

Article 3.3: Conditions and Limitations

1. A Party shall notify the other Party in writing on the initiation of an investigation described in paragraph 2 and shall consult with the other Party as far in advance as practicable prior to applying a bilateral transitional safeguard measure, with a view to reviewing the information arising from the investigation and exchanging views on the bilateral transitional safeguard measure.

2. A Party shall apply a bilateral transitional safeguard measure only following an investigation by the Party's competent authorities in accordance with Articles 3 and 4.2(c) of the Safeguards Agreement, which are incorporated into and made part of this Agreement, *mutatis mutandis*.

3. In the investigation described in paragraph 2, the Party shall comply with the requirements of Articles 4.2(a) and 4.2(b) of the Safeguards Agreement, which are incorporated into and made a part of this Agreement, *mutatis mutandis*.

4. Each Party shall ensure that its competent authorities complete any such investigation within one year from the date of its initiation.

5. Neither Party shall apply a bilateral transitional safeguard measure:

- (a) except to the extent, and for such time, as may be necessary to prevent or remedy serious injury and to facilitate adjustment;

- (b) for a period exceeding two years, except that the period may be extended by up to one year if the competent authorities of the importing Party determine, in conformity with the procedures specified in this Article, that the measure continues to be necessary to prevent or remedy serious injury to facilitate adjustment and that there is evidence that the industry is adjusting, provided that the total period of application of a bilateral transitional safeguard measure, including the period of initial application and any extension thereof, shall not exceed three years; or
- (c) beyond the expiration of the transition period.

6. A Party may apply a bilateral transitional safeguard measure more than once against the same good, if deemed necessary, provided that at least two years has elapsed since the completion of the period of application of a bilateral transitional safeguard measure on the import of that product.

7. Where the expected duration of the bilateral transitional safeguard measure is over one year, the importing Party shall progressively liberalize it at regular intervals.

8. When a Party terminates a bilateral transitional safeguard measure, the customs duty rate shall be the rate that, according to the Party's Schedule in Annex 2-A (Reduction or Elimination of Customs Duties), would have been in effect but for the measure.

Article 3.4: Provisional Measures

1. In critical circumstances where delay would cause damage that would be difficult to repair, a Party may apply a bilateral transitional safeguard measure on a provisional basis pursuant to a preliminary determination by its competent authorities that there is clear evidence that imports of an originating good from the other Party have increased as the result of the reduction or elimination of a customs duty under this Agreement, and such imports constitute a substantial cause of serious injury, or threat thereof, to the domestic industry.

2. Before a Party's competent authorities may make a preliminary determination, the Party shall publish a public notice setting out how interested parties, including importers and exporters, may obtain a non-confidential copy of the application requesting a provisional safeguard measure, and shall provide interested parties at least 20 days after the date it publishes the notice to submit

evidence and views regarding the application of a provisional measure. A Party may not apply a provisional measure until at least 45 days after the date its competent authorities initiate an investigation.

3. The applying Party shall notify the other Party before applying a provisional safeguard measure, and, on the request of the other Party, shall initiate consultations after applying the measure.

4. The duration of any provisional measure shall not exceed 200 days, during which time the Party shall comply with the requirements of Articles 3.3.2 and 3.3.3.

5. The applying Party shall promptly refund any tariff increase if the investigation described in Article 3.3.2 does not result in a finding that the requirements of Article 3.2 are met. The duration of any provisional measure shall be counted as part of the period described in Article 3.3.5(b).

Article 3.5: Compensation

1. No later than 30 days after it applies a bilateral transitional safeguard measure, the applying Party shall afford an opportunity for the other Party to consult with it regarding appropriate trade liberalizing compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the bilateral transitional safeguard measure. The applying Party shall provide such compensation as the Parties mutually agree.

2. If the Parties are unable to agree on compensation through consultations under paragraph 1 within 30 days from the beginning of the consultations, the Party against whose originating good the bilateral transitional safeguard measure is applied may suspend the application of concessions with respect to originating goods of the applying Party that have trade effects substantially equivalent to the safeguard measure.

3. The applying Party's obligation to provide compensation under paragraph 1 and the other Party's right to suspend concessions under paragraph 2 shall terminate on the date the bilateral transitional safeguard measure terminates.

4. Any compensation shall be based on the total period of application of the bilateral transitional safeguard measure, which includes the provisional safeguard measures under Article 3.4.

5. The right of suspension referred to in paragraph 2 shall not be exercised for the first 24 months during which a bilateral transitional safeguard measure is in effect, provided that the bilateral transitional safeguard measure has been applied as a result of an absolute increase in imports and that the bilateral transitional safeguard measure conforms to the provisions of this Agreement.

Article 3.6: Global Safeguard Measures

1. Each Party retains its rights and obligations under Article XIX of GATT 1994 and the Safeguards Agreement. This Agreement does not confer any additional rights or obligations on the Parties with regard to actions taken under Article XIX of GATT 1994 and the Safeguards Agreement. In taking measures under these WTO provisions, a Party shall, in accordance with WTO rules, exclude imports of an originating product from the other Party if such imports do not in and of themselves cause or threaten to cause serious injury.

2. Upon request of the other Party, the Party intending to take safeguard measures shall promptly provide written notification of all pertinent information on the initiation of a safeguard investigation, the preliminary determination, and the final finding of the investigation.

3. Neither Party shall apply, with respect to the same good, at the same time:

- (a) a bilateral transitional safeguard measure; and
- (b) a measure under Article XIX of GATT 1994 and the Safeguards Agreement.

Section B: Anti-Dumping and Countervailing Duties

Article 3.7: General Provisions

1. Except as otherwise provided for in this Agreement, each Party retains its rights and obligations under the WTO Agreement with regard to the application of anti-dumping and countervailing duties.

2. The Parties shall ensure, immediately after any imposition of provisional measures and in any case before the final determination, full and meaningful disclosure of all essential facts and considerations which form the basis for the

decision to apply measures, without prejudice to Article 6.5 of the Anti-Dumping Agreement and Article 12.4 of the SCM Agreement. Disclosures shall be made in writing, and interested parties shall be allowed sufficient time to make their comments.

3. The Parties shall observe the following practices in anti-dumping or countervailing cases between them in order to enhance transparency in the implementation of the WTO Agreement:

- (a) when dumping margins are established, assessed, or reviewed under Articles 2, 9.3, 9.5, and 11 of the Anti-Dumping Agreement regardless of the comparison bases under Article 2.4.2 of the Anti-Dumping Agreement, all individual margins, whether positive or negative, should be counted toward the average;
- (b) if a decision is taken to impose an anti-dumping duty pursuant to Article 9.1 of the Anti-Dumping Agreement, the Party taking such a decision may apply the 'lesser duty' rule, by imposing a duty which is less than the dumping margin where such lesser duty would be adequate to remove the injury to the domestic industry; and
- (c) the investigating Party shall request an exporter or producer in the territory of the other Party for the timely response to its questionnaires. When the investigating Party finds major deficiency in information in a questionnaire response from relevant exporter or producer received before the deadline or requires clarifications for the purposes of investigation, the investigating Party shall demand missing information or request clarification of information concerning the answers to the questionnaires. This procedure shall not be used to cause unwarranted delays in the investigation or to circumvent the deadlines which are provided in the Party's laws and regulations. The Parties may make preliminary and final determinations on the basis of the facts available pursuant to the Anti-Dumping Agreement and SCM Agreement.

Article 3.8: Notification and Consultations

1. Upon receipt by a Party's competent authorities of a properly documented anti-dumping application with respect to imports from the other Party, and no later than 15 days before initiating an investigation, the Party shall provide written notification to the other Party of its receipt of the application and afford the other

Party a meeting or other similar opportunities regarding the application, consistent with the Party's laws and regulations.

2. Upon receipt by a Party's competent authorities of a properly documented countervailing duty application with respect to imports from the other Party, and before initiating an investigation, the Party shall provide written notification to the other Party of its receipt of the application and afford the other Party a meeting to consult with its competent authorities regarding the application.

Article 3.9: Undertakings

1. After a Party's competent authorities initiate an anti-dumping or countervailing duty investigation, the Party shall transmit to the other Party's embassy or competent authorities written information regarding the Party's procedures for requesting its authorities to consider an undertaking on price including the timeframes for offering and concluding any such undertaking, if practicable.

2. In an anti-dumping investigation, where a Party's competent authorities have made a preliminary affirmative determination of dumping and injury caused by such dumping, the Party shall afford due consideration and adequate opportunity for consultations to exporters of the other Party regarding proposed price undertakings which, if accepted, may result in suspension of the investigation without imposition of anti-dumping duties, through the means provided for in the Party's laws, regulations, and procedures.

3. In a countervailing duty investigation, where a Party's competent authorities have made a preliminary affirmative determination of subsidization and injury caused by such subsidization, the Party shall afford due consideration and adequate opportunity for consultations to the other Party and exporters of the other Party regarding proposed undertakings on price which, if accepted, may result in suspension of the investigation without imposition of countervailing duties, through the means provided for in the Party's laws, regulations, and procedures.

Article 3.10: Investigation after Termination Resulting from a Review

The Parties agree to examine, with special care, any application for initiation of an anti-dumping investigation on a good originating in the other Party and on which anti-dumping measures have been terminated in the previous 12 months as a result

of a review. Unless this pre-initiation examination indicates that the circumstances have changed, the investigation shall not proceed.

Section C: Committee on Trade Remedies

Article 3.11: Committee on Trade Remedies

1. The Parties hereby establish a Committee on Trade Remedies (hereinafter referred to as the “Committee”), comprising representatives at an appropriate level from relevant agencies of each Party who have responsibility for trade remedies matters, including anti-dumping, subsidies and countervailing measures, and safeguards issues.

2. The functions of the Committee shall include:

- (a) enhancing a Party’s knowledge and understanding of the other Party’s trade remedies laws, regulations, policies and practices;
- (b) overseeing the implementation of this Chapter;
- (c) improving cooperation between the competent authorities of the Parties having responsibility for matters on trade remedies;
- (d) providing a forum for the Parties to exchange information on issues relating to anti-dumping, subsidies and countervailing measures, and safeguards;
- (e) providing a forum for the Parties to discuss other relevant topics of mutual interest, including:
 - (i) international issues relating to trade remedies, including issues relating to the WTO Doha Round Rules negotiations; and
 - (ii) practices by the competent authorities of the Parties in anti-dumping and countervailing duty investigations such as the application of “facts available” and verification procedures; and
- (f) cooperating on any other matter that the Parties may agree on, as

necessary.

3. The Committee shall meet at least once a year and may meet more frequently as the Parties may agree.

CHAPTER FOUR RULES OF ORIGIN

Article 4.1: Definitions

For purposes of this Chapter:

Cost, Insurance, and Freight (CIF) means the value of the good imported and includes the cost of freight and insurance up to the port or place of entry into the country of importation, in accordance with Article VII of GATT 1994 and the Customs Valuation Agreement;

Free on Board (FOB) means the free on board value of a good, inclusive of the cost of transport, from the producer to the port or site of final shipment abroad, in accordance with Article VII of GATT 1994 and the Customs Valuation Agreement;

fungible materials means materials that are of the same kind and commercial quality, with the same technical and physical characteristics, and which cannot be distinguished from one another for origin purposes by virtue of any markings or mere visual examination;

materials means ingredients, raw materials, components, parts, or accessories used in the production of goods;

packing materials and containers for transportation means the goods used to protect goods during their transportation, different from those materials or containers used for their retail sale;

preferential tariff treatment means tariff concessions granted to originating goods as reflected by the tariff rates applicable under this Agreement;

Product Specific Rules (PSR) means the rules that specify that the materials have undergone a change in tariff classification or a specific manufacturing or processing operation, or satisfy a regional value content or a combination of any of these criteria; and

production means methods of obtaining goods including growing, mining, harvesting, raising, breeding, extracting, gathering, collecting, capturing, fishing, trapping, hunting, manufacturing, producing, processing, or assembling goods.

Article 4.2: Origin Criteria

For purposes of this Agreement, goods shall be considered as originating in a Party if they have been:

- (a) wholly obtained or produced entirely in the territory of a Party, in accordance with Article 4.3;
- (b) produced entirely in the territory of a Party using non-originating materials provided the goods satisfy the requirements set out in Annex 4-B; or
- (c) produced entirely in the territory of a Party exclusively from materials originating in the Parties

and meet all other applicable requirements of this Chapter.

Article 4.3: Wholly Obtained or Produced Goods

For purposes of Article 4.2(a), the following goods shall be considered as wholly obtained or produced entirely in the territory of a Party:

- (a) plants and plant products grown and harvested, picked, or gathered in that Party;
- (b) live animals born and raised in that Party;
- (c) goods obtained from live animals referred to in subparagraph (b);
- (d) goods obtained by hunting, trapping, fishing, aquaculture, gathering, or capturing conducted in that Party;
- (e) minerals and other naturally occurring substances not included in subparagraphs (a) through (d), extracted or taken from its soil, waters, seabed, or beneath the seabed;
- (f) goods of sea-fishing and other marine products extracted or taken by vessels registered with the Party and entitled to fly the flag of that Party, and other products extracted or taken by the Party or a person of that Party from the waters, seabed, or beneath the seabed outside the territorial waters of the Party, provided that

the Party or a person of that Party has the rights to exploit¹ such waters, seabed, and beneath the seabed in accordance with international law²;

- (g) goods of sea-fishing and other marine products extracted or taken from the high seas by vessels registered with the Party and entitled to fly the flag of that Party;
- (h) goods produced or made on board factory ships registered with a Party and entitled to fly the flag of that Party, exclusively from goods referred to in subparagraph (f) or (g);
- (i) articles collected from that Party which can no longer perform their original purpose nor are capable of being restored or repaired and are fit only for the recovery of parts of raw materials or recycling purposes;
- (j) waste and scrap derived from:
 - (i) manufacturing or processing operations conducted in that Party; or
 - (ii) used goods collected in that Party, provided that such goods are fit only for the recovery of raw materials; and
- (k) goods obtained or produced in the territory of the Party solely from goods referred to in subparagraphs (a) through (j).

Article 4.4: Not Wholly Obtained or Produced Goods

1. For purposes of Article 4.2(b), goods shall be considered originating if the regional value content (hereinafter referred to as the “RVC”) is not less than 40 percent of the FOB value or the goods have undergone a change in tariff classification at four digit-level (change in tariff heading) of the HS as a general rule except those covered in Annex 4-B.

¹ The Parties understand that for purposes of determining the origin of goods of sea-fishing and other goods, the “rights to exploit” include those rights of access to the fisheries resources of a coastal State, as accruing from agreements or other arrangements concluded between a Party and the coastal State at the level of governments or duly authorized private entities.

² International law refers to generally accepted international law such as the *United Nations Convention on the Law of the Sea*.

2. For purposes of Article 4.2(b), the RVC shall be calculated in accordance with any of the following methods:

(a) Build-Up Method

$$\text{RVC} = \frac{\text{VOM}}{\text{FOB}} \times 100\%$$

VOM means value of originating materials, which includes the value of originating materials, direct labor cost, direct overhead cost, transportation cost, and profit.

(b) Build-Down Method

$$\text{RVC} = \frac{\text{FOB} - \text{VNM}}{\text{FOB}} \times 100\%$$

VNM means value of non-originating materials, which shall be:

- (i) the CIF value at the time of importation of the materials, parts, or goods; or
- (ii) the earliest ascertained price paid for the materials, parts, or goods of undetermined origin in the territory of the Party where the working or processing has taken place.

Article 4.5: *De Minimis*

1. Goods that do not undergo a change in tariff classification shall be considered as originating if:

ANNEX 4-C
COMMITTEE ON OUTWARD PROCESSING ZONES

1. The Parties shall establish a Committee on Outward Processing Zones to perform the following functions:

- (a) review the necessity of outward processing zones;
- (b) identify geographic areas that may be designated as outward processing zones, based on the criteria established by the Committee¹;
- (c) establish criteria to determine the originating status in outward processing zones, including the maximum threshold for the value of the total input of the originating final good; and
- (d) form the list of goods and the specific procedures related to outward processing zones.

2. The Committee shall be comprised of officials of the Parties. The Committee shall meet within a year after the date of entry into force of this Agreement and at least once a year thereafter, or at any time as mutually agreed.

¹ With the Parties' recognition of the Republic of Korea's constitutional mandate and security interests, and commitment to promoting peace and prosperity on the Korean Peninsula, the Committee shall review the conditions on the Korean Peninsula and identify geographical areas that may be designated as outward processing zones.

CHAPTER FIVE

CUSTOMS PROCEDURES AND TRADE FACILITATION

Article 5.1: Definitions

For purposes of this Chapter:

competent authority means the authorities that are responsible under the law of each Party for the administration and enforcement of its customs laws and regulations;

customs laws and regulations means the statutory and regulatory provisions relating to the importation, exportation, movement, or storage of goods, the administration and enforcement of which are specifically charged to customs authorities, and any regulations made by customs authorities, under their statutory powers;

customs procedure means the measures applied by the customs authority of a Party to goods and to the means of transport that are subject to its customs laws and regulations;

express consignment means all goods imported by or through an enterprise that operates a consignment service for the expeditious cross-border movement of goods and assumes liability to the customs authority for those goods; and

means of transport means various types of vessels, vehicles, and aircrafts which enter or leave the customs territory of the Parties carrying persons, goods, or articles.

Article 5.2: Objectives

The objectives of this Chapter are to:

- (a) ensure predictability, consistency, and transparency in the application of customs laws and regulations of the Parties;
- (b) promote efficient administration of customs procedures and the expeditious clearance of goods;
- (c) simplify customs procedures of the Parties and harmonize them to the extent possible with relevant international standards;

- (d) promote cooperation among the customs authorities of the Parties; and
- (e) facilitate trade between the Parties, including through a strengthened environment for global and regional supply chains.

Article 5.3: Scope

This Chapter shall apply to customs procedures applied to goods traded between the Parties and the means of transport which enter or leave the customs territory of the Parties.

Article 5.4: Consistency

1. Each Party shall ensure consistent implementation and application of its customs laws and regulations throughout its customs territory. For greater certainty, this does not prevent the exercise of discretion granted to the customs authority of a Party where such discretion is granted by that Party's customs laws and regulations, provided that the discretion is exercised consistently throughout that Party's customs territory and in accordance with its customs laws and regulations.

2. In fulfilling the obligation in paragraph 1, each Party shall endeavor to adopt or maintain administrative measures to ensure consistent implementation and application of its customs laws and regulations throughout its customs territory, preferably by establishing an administrative mechanism which assures consistent application of the customs laws and regulations of that Party among its regional customs offices.

3. If a Party fails to comply with the obligations in paragraphs 1 and 2, the other Party may consult with that Party on the matter relating thereto in accordance with Article 5.20.

4. Each Party is encouraged to share with the other Party its practices and experiences relating to the administrative mechanism referred to in paragraph 2 with a view to improving the operations thereof.

Article 5.5: Transparency

1. Each Party shall promptly publish, on the internet to the extent possible, the following information in a non-discriminatory and easily accessible manner in order to enable governments, traders, and other interested persons to become acquainted with them:

- (a) procedures for importation, exportation, and transit (including port, airport, and other entry-point procedures), and required forms and documents;
- (b) applied rates of duties and taxes of any kind imposed on or in connection with importation or exportation;
- (c) fees and charges imposed by or for governmental agencies on or in connection with importation, exportation, or transit;
- (d) rules for the classification or valuation of products for customs purposes;
- (e) laws, regulations, and administrative rulings of general application relating to rules of origin;
- (f) import, export, or transit restrictions or prohibitions;
- (g) penalty provisions for breaches of import, export, or transit formalities;
- (h) procedures for appeal or review;
- (i) agreements to which it is party, or parts thereof, with any country or countries relating to importation, exportation, or transit; and
- (j) procedures relating to the administration of tariff quotas.

2. In particular, each Party shall make available, and update to the extent possible and as appropriate, the following through the internet:

- (a) a description¹ of its procedures for importation, exportation, and transit, including procedures for appeal or review, that informs governments, traders, and other interested persons of the practical steps needed for importation, exportation, and transit;
- (b) the forms and documents required for importation into, exportation from, or transit through the territory of that Party; and
- (c) contact information for the enquiry points as well as information on how to make enquiries on customs matters as provided for in Article 5.6.

¹ Each Party has the discretion to state on its website the legal limitations of this description.

3. To the extent possible, when developing new, or amending existing, customs laws and regulations, each Party shall publish, or otherwise make readily available such proposed new or amended customs laws and regulations and provide a reasonable opportunity for interested persons to comment on the proposed customs laws and regulations, unless such advance notice is precluded.

4. Each Party shall, to the extent practicable and in a manner consistent with its domestic law and legal system, ensure that new or amended laws and regulations of general application related to the movement, release, and clearance of goods, including goods in transit, are published or information on them is otherwise made publicly available, as early as possible before their entry into force, in order to enable traders and other interested persons to become acquainted with them.

5. Nothing in this Article shall be construed as requiring the publication or provision of information other than in the language of the Party.

Article 5.6: Enquiry Points

Each Party shall designate one or more enquiry points to answer reasonable enquiries of interested persons concerning customs matters and to facilitate access to forms and documents required for importation, exportation, and transit.

Article 5.7: Customs Procedures

1. Each Party shall ensure that its customs procedures and practices are predictable, consistent, and transparent, and facilitate trade, including through the expeditious clearance of goods.

2. Customs procedures of each Party shall, where possible and to the extent permitted by its customs laws and regulations, conform with the standards and recommended practices of the World Customs Organization.

3. The customs authority of each Party shall review its customs procedures with a view to their simplification to facilitate trade.

Article 5.8: Pre-shipment Inspection

1. Each Party shall not require the use of pre-shipment inspections in relation to tariff classification and customs valuation.

2. Without prejudice to the rights of the Parties to use other types of pre-shipment inspection not covered by paragraph 1, each Party is encouraged not to introduce or apply new requirements regarding their use.

3. Paragraph 2 refers to pre-shipment inspections covered by the *Agreement on Pre-shipment Inspection*, and does not preclude pre-shipment inspections for sanitary and phytosanitary purposes.

Article 5.9: Pre-arrival Processing

1. Each Party shall adopt or maintain procedures allowing for the submission of documents and other information required for the importation of goods in order to begin processing prior to the arrival of goods with a view to expediting the release of goods upon arrival.

2. Each Party shall provide, as appropriate, for advance lodging of documents and other information referred to in paragraph 1 in electronic format for pre-arrival processing of such documents.

Article 5.10: Advance Rulings

1. Each Party shall, to the extent permitted by its respective laws, regulations, and administrative determinations, prior to the importation of a good from a Party into its territory, issue a written advance ruling to an importer, exporter, or any person with a justifiable cause, or a representative thereof, who has submitted a written request containing all necessary information, with regard to:

- (a) tariff classification;
- (b) whether a good is originating in accordance with Chapter Four (Rules of Origin) under this Agreement;
- (c) the appropriate method or criteria, and the application thereof, to be used for determining the customs value under a particular set of facts, in accordance with the provisions of the Customs Valuation Agreement; and
- (d) such other matters as the Parties may decide.

2. A Party may require that an applicant have legal representation or registration in its territory. To the extent possible, such requirements shall not restrict the categories of persons eligible to apply for advance rulings, with particular consideration for the specific needs of small and medium-sized

enterprises. These requirements shall be clear and transparent and not constitute a means of arbitrary or unjustifiable discrimination.

3. Each Party shall adopt or maintain procedures for issuing advance rulings which:

- (a) specify the information required to apply for an advance ruling;
- (b) provide that each Party may, at any time during the course of an evaluation of an application for an advance ruling, request that the applicant provide additional information, which may include a sample of the goods, necessary to evaluate the application;
- (c) ensure that an advance ruling be based on the facts and circumstances presented by the applicant and any other relevant information in the possession of the decision-maker; and
- (d) ensure that the advance ruling includes the relevant facts and the basis for its decision.

4. Each Party shall issue an advance ruling in the official language of the issuing Party or in the language it decides. The advance ruling shall be issued within 90 days to the applicant upon receipt of all necessary information. Each Party shall specify and make public such time period for the issuance of an advance ruling prior to such an application. Should the competent authority have reasonable grounds to issue the advance ruling later than the specified period, after the receipt of the application, it shall notify the applicant of the ground for such a delay prior to the end of the specified period.

5. A Party may decline to issue an advance ruling if the facts and circumstances forming the basis of the advance ruling are the subject of administrative or judicial review. A Party that declines to issue an advance ruling shall promptly notify the applicant in writing, setting forth the relevant facts, circumstances, and the basis for its decision to decline to issue the advance ruling.

6. A Party may reject applications for an advance ruling where the additional information requested, in writing, in accordance with paragraph 3(b) is not provided within a reasonable, specified period, which is determined at the time of the request for additional information and the Party requests the additional information from the applicant in writing.

7. Each Party shall provide that advance rulings shall be valid from the date they are issued, or another date specified in the ruling, provided that the laws, regulations, administrative rules, and facts and circumstances, on which the ruling is based remain unchanged. Subject to paragraph 8, an advance ruling

shall be valid for at least three years unless a shorter period is provided for in the ruling due to the nature of the application, which shall be clearly stated in the advance ruling in accordance with the respective laws and regulations of the Parties.

8. Where a Party revokes, modifies, or invalidates an advance ruling, it shall promptly provide written notice to the applicant setting out the relevant facts and the basis for its decision, where:

- (a) there is a change in its laws, regulations, or administrative rules;
- (b) incorrect information was provided or relevant information was withheld;
- (c) there is a change in a material fact or circumstances on which the advance ruling was based; or
- (d) the advance ruling was in error.

9. Where a Party revokes, modifies, or invalidates advance rulings with retroactive effect, it may only do so where the ruling was based on incomplete, incorrect, false, or misleading information.

10. An advance ruling issued by a Party shall be binding on that Party in respect of the applicant that sought it.

11. Each Party shall publish, at a minimum:

- (a) the requirements for the application for an advance ruling, including the information to be provided and the format;
- (b) the time period by which it will issue an advance ruling; and
- (c) the length of time for which the advance ruling is valid.

12. Each Party may make publicly available any information on advance rulings which it considers to be of significant interest to other interested parties, taking into account the need to protect commercially confidential information.

Article 5.11: Release of Goods

1. Each Party shall adopt or maintain simplified customs procedures for the efficient release of goods in order to facilitate trade between the Parties. This paragraph shall not require a Party to release a good if its requirements for release have not been met.

2. Pursuant to paragraph 1, each Party shall adopt or maintain procedures that allow the goods to be cleared from customs within a period no longer than that required to ensure compliance with its customs laws and regulations and, to the extent possible, within 48 hours of the arrival of goods and lodgment of all the necessary information for customs clearance.

3. If any goods are selected for further examination, such an examination shall be limited to what is reasonable and necessary, and undertaken and completed without undue delay.

4. Each Party shall adopt or maintain procedures allowing the release of goods, prior to the final determination of customs duties, taxes, fees, and charges if such determination is not done prior to, or upon arrival or as rapidly as possible after arrival and provided that all other regulatory requirements have been met. As a condition for such release, a Party may require a guarantee in accordance with its laws and regulations that does not exceed the amount the Party requires to ensure payment of customs duties, taxes, fees, and charges ultimately due for the goods covered by the guarantee.

5. Nothing in these provisions shall affect the right of a Party to examine, detain, seize, confiscate, or deal with the goods in any manner consistent with its laws and regulations.

6. With a view to preventing avoidable loss or deterioration of perishable goods,² and provided that all regulatory requirements have been met, each Party shall provide for the release of perishable goods from customs control:

(a) under normal circumstances in the shortest possible time, and to the extent possible in less than six hours after the arrival of the goods and submission of the information required for release; and

(b) in exceptional circumstances where it would be appropriate to do so, outside the business hours of its customs authority.

7. Each Party shall give appropriate priority to perishable goods when scheduling any examinations that may be required.

8. Each Party shall either arrange or allow an importer to arrange for the proper storage of perishable goods pending their release. Each Party may require that any storage facilities arranged by the importer have been approved or designated by its relevant authorities. The movement of the goods to those

storage facilities, including authorizations for the operator moving the goods, may be subject to the approval, where required, of the relevant authorities. Each Party shall, where practicable and consistent with domestic legislation, upon the request of the importer, provide for any procedures necessary for release to take place at those storage facilities.

Article 5.12: Application of Information Technology

1. The Parties shall, to the extent possible, apply information technology to support customs operations based on internationally accepted standards for expeditious customs clearance and release of goods.
2. The Parties shall, to the extent possible, use information technology that expedites customs procedures for the release of goods, including the submission of data before the arrival of the shipment of those goods, as well as electronic or automated systems for risk management targeting.
3. The Parties shall endeavor to make trade administration documents available to the public in electronic versions.
4. The Parties shall endeavor to accept trade administration documents submitted electronically as the legal equivalent of the paper version of these documents.
5. In developing initiatives which provide for the use of paperless trade administration, the Parties are encouraged to take into account international standards or methods made under the auspices of international organizations.
6. The Parties shall cooperate to enhance the acceptance of trade administration documents submitted electronically.

Article 5.13: Trade Facilitation Measures for Authorized Operators

1. Each Party shall provide additional trade facilitation measures related to import, export, or transit formalities and procedures, pursuant to paragraph 3, to operators who meet specified criteria, hereinafter called authorized operators. Alternatively, a Party may offer such trade facilitation measures through customs procedures generally available to all operators and is not required to establish a separate scheme.
2. The specified criteria to qualify as an authorized operator shall be related to compliance, or the risk of non-compliance, with requirements specified in a Party's laws, regulations or procedures.

- (a) Such criteria, which shall be published, may include:
 - (i) an appropriate record of compliance with customs and other related laws and regulations;
 - (ii) a system of managing records to allow for necessary internal controls;
 - (iii) financial solvency, including, where appropriate, provision of a sufficient security or guarantee; and
 - (iv) supply chain security.
- (b) Such criteria shall not:
 - (i) be designed or applied so as to afford or create arbitrary or unjustifiable discrimination between operators where the same conditions prevail; and
 - (ii) to the extent possible, restrict the participation of small and medium-sized enterprises.

3. The trade facilitation measures provided pursuant to paragraph 1 shall include at least three of the following measures:³

- (a) low documentary and data requirements, as appropriate;
- (b) low rate of physical inspections and examinations, as appropriate;
- (c) rapid release time, as appropriate;
- (d) deferred payment of customs duties, taxes, fees, and charges;
- (e) use of comprehensive guarantees or reduced guarantees;
- (f) a single customs declaration for all imports or exports in a given period; and
- (g) clearance of goods at the premises of the authorized operator or another place authorized by a customs authority.

4. Each Party is encouraged to develop authorized operator schemes on the basis of international standards, where such standards exist, except when such

³ A measure listed in subparagraphs (a) through (g) will be deemed to be provided to authorized operators if it is generally available to all operators.

standards would be an inappropriate or ineffective means for the fulfilment of the legitimate objectives pursued.

5. In order to enhance the trade facilitation measures provided to operators, a Party shall afford to the other Party the possibility of negotiating mutual recognition of authorized operator schemes.

6. The Parties are encouraged to cooperate, where appropriate, in developing their respective authorized operator schemes using the contact points in Article 5.20 through the following:

- (a) exchanging of information on such schemes and on initiatives to introduce new schemes;
- (b) sharing of perspectives on business views and experiences, and best practices in business outreach;
- (c) sharing of information on approaches to mutual recognition of such schemes; and
- (d) considering ways to enhance the benefits of such schemes to promote trade, and, in the first instance, to designate customs officers as coordinators for authorized operators to resolve customs issues.

Article 5.14: Risk Management

1. Each Party shall adopt or maintain a risk management system for customs control.

2. Each Party shall design and apply risk management in a manner so as to avoid arbitrary or unjustifiable discrimination, or disguised restrictions to international trade.

3. Each Party shall concentrate customs control and, to the extent possible, other relevant border controls, on high risk consignments and expedite the release of low risk consignments. Each Party may also select, on a random basis, consignments for such controls as part of its risk management.

4. Each Party shall base risk management on assessment of risk through appropriate selectivity criteria. Such selectivity criteria may include, *inter alia*, HS code, nature and description of the goods, country of origin, country from which the goods were shipped, value of the goods, compliance record of traders, and type of means of transport.

Article 5.15: Express Consignments

1. Each Party shall adopt or maintain customs procedures to expedite the clearance of express consignments for at least those goods entered through air cargo facilities while maintaining appropriate customs control and selection⁴, by:

- (a) providing for pre-arrival processing of information related to express consignments;
- (b) permitting, to the extent possible, the single submission of information covering all goods contained in an express consignment, through electronic means;
- (c) minimizing the documentation required for the release of express consignments;
- (d) providing for express consignment to be released under normal circumstances as rapidly as possible, and within six hours when possible, after the arrival of the goods and submission of the information required for release;
- (e) endeavoring to apply the treatment in subparagraphs (a) through (d) to shipments of any weight or value recognizing that a Party is permitted to require additional entry procedures, including declarations and supporting documentation and payment of duties and taxes, and to limit such treatment based on the type of good, provided that the treatment is not limited to low value goods such as documents; and
- (f) providing, to the extent possible, for a *de minimis* shipment value or dutiable amount for which customs duties and taxes will not be collected, aside from certain prescribed goods. Internal taxes, such as value added taxes and excise taxes, applied to imports consistently with Article III of GATT 1994, are not subject to this provision.

2. Nothing in paragraph 1 shall affect the right of a Party to examine, detain, seize, confiscate, or refuse the entry of goods, or to carry out post-clearance audit, including in connection with the use of risk management systems. Further, nothing in paragraph 1 shall prevent a Party from requiring, as a condition for

⁴ In cases where a Party has an existing procedure that provides the treatment in this Article, this provision would not require that Party to introduce separate expedited release procedure.

release, the submission of additional information and the fulfillment of non-automatic licensing requirements.

Article 5.16: Post-clearance Audit

1. With a view to expediting the release of goods, each Party shall adopt or maintain post-clearance audit to ensure compliance with customs and other related laws and regulations.
2. Each Party shall select a person or a consignment for post-clearance audit in a risk-based manner, which may include appropriate selectivity criteria. Each Party shall conduct post-clearance audits in a transparent manner. Where the person is involved in the audit process and conclusive results have been achieved, the Party shall, without delay, notify the person whose record is audited of the results, the person's rights and obligations, and the reasons for the results.
3. The Parties acknowledge that the information obtained in post-clearance audit may be used in further administrative or judicial proceedings.
4. The Parties shall, wherever practicable, use the result of post-clearance audit in applying risk management.

Article 5.17: Time Release Studies

1. Each Party is encouraged to measure the time required for the release of goods by the customs authority periodically and in a consistent manner, and to publish the findings thereof, using tools such as the *Guide to Measure the Time Required for the Release of Goods* issued by World Customs Organization with a view to assessing their trade facilitation measures and considering opportunities for further improvement of the time required for the release of goods.
2. Each Party is encouraged to share its experiences in the time release studies referred to in paragraph 1, including methodologies used and bottlenecks identified.

Article 5.18: Review and Appeal

1. Each Party shall provide that any person to whom its customs authority issues an administrative decision⁵ has the right, within its territory, to:

(a) an administrative appeal to or review by an administrative authority higher than or independent of the official or office that issued the decision; and

(b) a judicial appeal or review of the decision.

2. The legislation of a Party may require that an administrative appeal or review be initiated prior to a judicial appeal or review.

3. Each Party shall ensure that its procedures for appeal or review are carried out in a non-discriminatory manner.

4. Each Party shall ensure that, in cases where the decision on appeal or review under paragraph 1(a) is not given either:

(a) within set periods as specified in its laws or regulations; or

(b) without undue delay,

the petitioner has the right to either further appeal to or further review by the administrative authority or the judicial authority or any other recourse to the judicial authority.⁶

5. Each Party shall ensure that the person referred to in paragraph 1 is provided with the reasons for the administrative decision so as to enable such a person to have recourse to procedures for appeal or review, where necessary.

6. Each Party shall ensure that the person referred to in paragraph 1 is not treated unfavorably merely because that person seeks review of an administrative decision or omission referred to in paragraph 1.

⁵ An administrative decision in this Article means a decision with a legal effect that affects the rights and obligations of a specific person in an individual case. It shall be understood that an administrative decision in this Article covers an administrative action within the meaning of Article X of GATT 1994 or failure to take an administrative action or decision as provided for in a Party's law and legal system. For addressing such failure, each Party may maintain an alternative administrative mechanism or judicial recourse to direct the customs authority to promptly issue an administrative decision in place of the right to appeal or review under paragraph 1(a).

⁶ Nothing in this paragraph shall prevent a Party from recognizing administrative silence on appeal or review as a decision in favor of the petitioner in accordance with its laws and regulations.

7. Each Party is encouraged to make the provisions of this Article applicable to an administrative decision issued by a relevant border agency other than its customs authority.

8. The decision, and the reasons for the decision, of an administrative or judicial review or appeal shall be provided in writing.

Article 5.19: Customs Cooperation

1. The customs authority of each Party may, as deemed appropriate, assist the customs authority of the other Party, in relation to:

- (a) the implementation and operation of this Chapter;
- (b) developing and implementing customs best practice and risk management techniques;
- (c) simplifying and harmonizing customs procedures;
- (d) advancing technical skills and the use of technology;
- (e) application of the Customs Valuation Agreement; and
- (f) such other customs issues as the Parties may mutually determine.

2. Each Party shall, to the extent possible, provide the other Party with timely notice of any significant administrative change, modification of a law or regulation, or similar measure related to its laws or regulations that govern importations or exportations, that is likely to substantially affect the operation of this Chapter. The notice can be made in English or the Party's language.

3. The customs authority of a Party may, as deemed appropriate, share with the other Party, information and experiences on development of customs administration.

4. The customs authorities of the Parties shall actively cooperate to resolve difficulties arising during the import and export clearance in each Party.

Article 5.20: Consultation on Customs Procedures and Trade Facilitation

1. A Party may at any time request consultations regarding any significant customs matter arising from the operation or implementation of this Chapter, providing relevant details related to the matter. Such consultation shall be conducted through the contact points and shall commence within 30 days

following the date of the receipt of the request, unless the Parties determine otherwise.

2. In the event that such consultations fail to resolve the matter, the requesting Party may refer the matter to the Committee on Rules of Origin and Customs Procedures.

3. A Party shall designate one or more contact points for purposes of this Chapter. Information on the contact points shall be provided to the other Party and any changes of the said information shall be notified promptly.

Article 5.21: Committee on Rules of Origin and Customs Procedures

1. The Parties hereby establish a Committee on Rules of Origin and Customs Procedures (hereinafter referred to as the “Committee”), composed of the competent authorities and relevant government authorities⁷ of the Parties. The Committee shall be responsible for addressing rules of origin, origin procedures, trade facilitation, and customs matters.

2. The Committee shall ensure the proper functioning of this Chapter and Chapter Four (Rules of Origin).

3. The functions of the Committee shall include:

- (a) ensuring the effective, uniform, and consistent administration of this Chapter and Chapter Four (Rules of Origin);
- (b) revising Annex 4-B (Product Specific Rules) on the basis of the transposition of the HS and national nomenclatures;
- (c) adopting customs practices and standards which facilitate commercial exchange between the Parties, according to the international standards;
- (d) resolving any issues relating to the interpretation, application, and administration of this Chapter and Chapter Four (Rules of Origin), including tariff classification;
- (e) presenting proposals for the approval of the Joint Committee on the modifications of this Chapter and Chapter Four (Rules of

⁷ For purposes of this Article, “relevant government authorities” refers to Philippine agencies responsible for monitoring, reviewing, analyzing, and developing policies on matters relating to Chapter Four (Rules of Origin).

Origin), including Annex 4-B (Product Specific Rules of Origin), in the event a consensus is reached between the Parties;

- (f) working on the possible development of an electronic certification and verification system;
- (g) regularly exchanging statistics in order to assess the utilization of preference under this Agreement and holding consultations in respect of this matter;
- (h) advising the Joint Committee of proposed solutions to address issues relating to:
 - (i) interpretation, application, and administration of this Chapter and Chapter Four (Rules of Origin);

The arbitration panel shall base its reports on the relevant provisions of this Agreement and the submissions and arguments of the Parties, and may take into account any other relevant information provided to the arbitration panel.

11. The reports of the arbitration panel shall contain both the descriptive parts summarizing the submissions and arguments of the Parties, and the findings and determinations of the arbitration panel. If the Parties agree, the arbitration panel may make recommendations for the resolution of the dispute in its reports. The findings and determinations and, if applicable, any recommendations of the arbitration panel cannot add to or diminish the rights and obligations of the Parties provided for in this Agreement.

12. The venue for the arbitration panel proceedings shall be decided by mutual agreement between the Parties. If there is no agreement, the venue shall alternate between the capitals of the Parties with the first meeting of the arbitration panel proceedings to be held in the capital of the Party complained against.

Article 9.11: Suspension or Termination of Proceedings

1. Where the Parties agree, the arbitration panel may suspend its work at any time for a period not exceeding 12 months from the date of such agreement. Upon the request of a Party, the arbitration panel proceedings shall be resumed after such suspension. In the event of such suspension, the timeframes regarding the work of the arbitration panel shall be extended by the amount of time that the work was suspended. If the work of the arbitration panel has been continuously suspended for more than 12 months, the authority of the arbitration panel shall lapse unless the Parties otherwise agree.

2. The Parties may agree to terminate the proceedings of an arbitration panel by jointly notifying the chair of the arbitration panel at any time before the issuance of the final report to the Parties.

3. Before the issuance of the final report to the Parties, the arbitration panel may, at any stage of the proceedings, propose to the Parties that the dispute be settled amicably.

Article 9.12: Interim Report

1. Unless the Parties otherwise agree, the arbitration panel shall, within 90 days from the date of the establishment of the arbitration panel, issue to the Parties an interim report containing the descriptive parts, the findings and determinations, and, if applicable, any recommendations as to:

- (a) whether the measure at issue is inconsistent with the obligations of this Agreement; or
- (b) whether a Party has otherwise failed to carry out its obligations under this Agreement,

as well as the applicability of the relevant provisions and the basic rationale behind any findings.

2. Where the arbitration panel considers that the deadline for the interim report cannot be met, it may extend the period with the consent of the Parties following a written notification stating the reasons for the delay and the date on which the panel plans to issue its interim report. Under no circumstances should the interim report be issued later than 120 days after the date of the establishment of the arbitration panel.

3. Either Party may submit written comments to the arbitration panel on its interim report within 15 days from the issuance of the report. After considering any written comments by the Parties on the interim report, the arbitration panel may modify its report and make any further examination it considers appropriate.

Article 9.13: Final Report

1. Unless the Parties otherwise agree, the arbitration panel shall issue a final report to the Parties within 30 days from the date of issuance of the interim report.
2. Where the arbitration panel considers that the deadline for its final report cannot be met, it may extend the period with the consent of the Parties following a written notification stating the reasons for the delay and the date on which the panel plans to issue its final report. Under no circumstances should the final report be issued later than 150 days after the date of the establishment of the arbitration panel.
3. In cases of urgency, including those concerning perishable goods, the arbitration panel shall make every effort to issue its interim and final reports within half of the respective time periods under Article 9.12.1 and Article 9.13.1.

Article 9.14: Implementation of the Final Report

1. The determinations set out in the final report of the arbitration panel shall be final and binding on the Parties.
2. If, in its final report, the arbitration panel determines that the Party complained against has not conformed to its obligations under the relevant provisions of this Agreement, unless the Parties otherwise agree, the Party complained against shall eliminate the non-conformity immediately, or if this is not practicable, within a reasonable period of time.
3. The reasonable period of time referred to in paragraph 2 shall be mutually agreed upon by the Parties. Where the Parties fail to agree on the reasonable period of time within 45 days from the date of issuance of the final report of the arbitration panel, either Party may refer the matter to the original arbitration panel, which shall determine the reasonable period of time.
4. The Party complained against shall notify the complaining Party of any measure that it has taken to comply with the determinations of the arbitration panel, before the expiry of the reasonable period of time agreed by the Parties or determined by the original arbitration panel in accordance with paragraph 3. Where there is disagreement between the Parties as to whether the Party complained against has eliminated the non-conformity as determined in the final report of the arbitration panel within the reasonable period of time as determined pursuant to paragraph 3, either Party may refer the matter to the original arbitration panel.

Article 9.15: Compensation and Suspension of Benefits

1. If the Party complained against fails to notify the complaining Party of the implementing measures before the expiry of the reasonable period of time, or notifies the complaining Party that implementation is impracticable, or the arbitration panel to which the matter is referred pursuant to Article 9.14.4 determines that the Party complained against has failed to eliminate the non-conformity within the reasonable period of time, the Party complained against shall, if so requested, enter into negotiations with the complaining Party with a view to reaching a mutually satisfactory compensation.

2. If there is no agreement on satisfactory compensation within 20 days from the date of receipt of the request mentioned in paragraph 1, the complaining Party may, at any time, provide written notice to the Party complained against that it intends to suspend the application of benefits under this Agreement to the Party complained against. The complaining Party may begin suspending benefits 30 days after the notification of such suspension. The notification of suspension shall not be made within 20 days from the date of receipt of the request mentioned in paragraph 1.

3. The compensation referred to in paragraph 1 and the suspension referred to in paragraph 2 shall be temporary measures. Neither compensation nor suspension is preferred to full elimination of the non-conformity as determined in the report of the arbitration panel. The suspension shall only be applied until such time as the non-conformity is fully eliminated or a mutually satisfactory solution is reached.

4. In considering what benefits to suspend pursuant to paragraph 2:

- (a) the complaining Party should first seek to suspend benefits with respect to the same sector or sectors as that in which the report of the arbitration panel referred to in Article 9.13 has found a failure to comply with the obligations under this Agreement;
- (b) if the complaining Party considers that it is not practicable or effective to suspend benefits with respect to the same sector or sectors, it may suspend benefits with respect to other sectors. The notification of such suspension pursuant to paragraph 2 shall indicate the reasons on which it is based; and
- (c) the level of suspension referred to in paragraph 2 shall be equivalent to the level of the nullification or impairment.

5. If the Party complained against considers that the requirements for the suspension of benefits by the complaining Party set out in paragraph 2, 3, or 4 have not been met, it may refer the matter to an arbitration panel.

6. The arbitration panel that is established for purposes of this Article or Article 9.14 shall, wherever possible, have, as its arbitrators, the arbitrators of the original arbitration panel. If this is not possible, then the arbitrators of the arbitration panel that is established for purposes of this Article or Article 9.14 shall be appointed pursuant to Article 9.9. The arbitration panel established under this Article or Article 9.14 shall issue its report to the Parties within 20 days on the reasonable period of time and 45 days on the other issues after the date when the matter is referred to it. When the arbitration panel considers that it cannot issue its report within the aforementioned periods, the relevant period may be extended by the arbitration panel for a maximum of 30 days with the consent of the Parties. The report shall be binding on the Parties.

Article 9.16: Rules of Procedure

1. Dispute settlement proceedings under this Chapter shall be governed by the Rules of Procedure set out in Annex 9-A. The Parties, in consultation with the arbitration panel, may agree to adopt additional rules of procedures not inconsistent with the provisions of the Annex.

2. Any period of time or other rules of procedure for arbitration panel provided for in this Chapter or in Annex 9-A may be modified by mutual consent of the Parties.

Article 9.17: Expenses

1. Unless the Parties otherwise agree, each Party shall bear the costs of its appointed arbitrator and its own expenses and legal costs.
